- Total Equity of US$2.7bn and US$10.5bn in Total Assets
- One of the lowest leverage ratios among peers, with growth financed by conservative financial policies
- Committed to driving the development of sustainable infrastructure projects across Africa

Funding Strategy

Funding plays a critical role in AFC’s operations, enabling the execution of transformative projects across Africa. Our funding strategies are broadly focused on:

- Tapping into niche markets to establish a presence and attract new pockets of liquidity
- Broadening and diversifying our funding sources through a proactive investor engagement programme
- Innovatively leveraging market opportunities to drive down funding costs
- Extending the maturity profile of our debts to fund longer-term assets

Specialist knowledge in priority sectors

40 African members

Network of global and regional investments and advisory partners

Innovatively driving down funding costs

US$10.5bn in Total Assets

About AFC

AFC was established in 2007 to be the catalyst for private sector-led infrastructure investment across Africa. It is the second highest investment grade rated multilateral financial institution in Africa. AFC’s approach combines specialist industry expertise with a focus on financial and technical advisory, project structuring, project development and risk capital to address Africa’s infrastructure development needs and drive sustainable economic growth. AFC invests in high-quality infrastructure assets that provide essential services in the core infrastructure sectors of power, natural resources, heavy industry, transport, and telecommunications. To date, the Corporation has invested over US$11.5 billion in projects in 36 countries across Africa.
