Installing shower fix in combination with
the Therm-eau fix (instant hot water)?
Go straight to the Therm-eau fix manual.

This guide is for shower fix only.

If you are installing the Shower fix in combination with the Therm-eau fix (instant hot water), use the Therm-eau fix manual.

Use separate instructions for the mixing valve

Shower fix

The Shower fix is a universal, pre-assembled steel frame designed for quick and effortless installation of a concealed shower system. Its two-element structure ensures easy setup, while the movable legs allow for precise height adjustment and levelling, guaranteeing a perfect fit for your bathroom.

Compatible with the Therm-eau fix module for instant hot water, the Shower fix features G1/2" outlets for both head shower and hand shower, making it adaptable to various tapware brands.

The system pairs seamlessly with your preferred shower finish and color and is easily compatible with shower elements from Blaufoss, Hansgrohe, and Grohe. For other brands, slight adjustments may be required.
