Therm-eau fix

Combine the Therm-eau technology with your favourite fixture.

Heau offers a solution in which its patented instant hot water technology is made compatible with fixtures of your favourite brand. The technology is pre-assembled on an easy to install steel frame (Shower fix).

Key features:

- Save time, water & energy with instant hot water
- Select your finish from Blaufoss, Hansgrohe or Grohe
- High quality components of stainless steel
- Accessibility of all components via soap storage

Specifications

Important

Hot water supply temperature at shower > 55°C according to NEN1006

Max. pipe length 30m (with internal diameter 20mm)

Temperature decrease of Therm-eau tank on average 5°C/day

Adjustable height

This pre-assembled steel frame consists of two elements that ensure quick and easy setup for a concealed shower system.

The movable legs allow for precise height adjustment and easy levelling, ensuring a perfect fit for your bathroom.

Compatibility

Compatible with the Therm-eau fix module for instant hot water, the Shower fix's universal G1/2" outlets for headshower and handshower accommodate tapware from various brands, simplifying the installation process.

Mixing valve compatibility

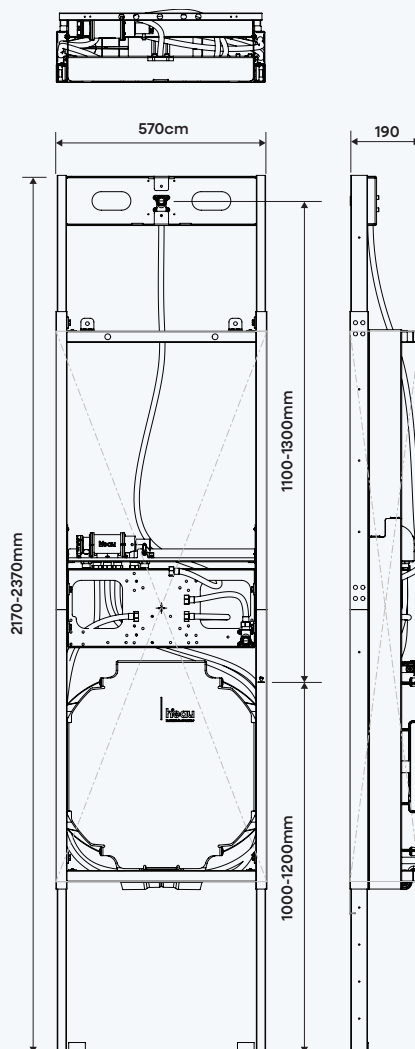

- Blaufoss (Smartbox & Dreambox)
- Hansgrohe (iBox universal 2)
- Grohe (Rapido Smartbox)

Handshower compatibility

Universal G1/2" connector to match all brands

Headshower compatibility

Universal G1/2" connector to match all brands
