

B&T compensator cal. 5.56 mm (.223) with interface for Rotex™-III, -V and VA

B&T compensator cal. 5.56 mm (.223) with interface for Rotex™-III, -V and VA

If you own a Rotex-III, Rotex-V or Rotex-VA suppressor and instead of the NATO compatible flash hider you prefer to mount an compensator, on which the mentioned suppressors can also be mounted, you make a very good choice with this B&T compensator.
