Driving habits

See how intensely this car was driven over time. Lighter use usually means less wear, while intense driving may lead to faster wear on key parts.

Limited driving < 360 km/month 27% of analyzed period

Driven less than typical. Limited use can sometimes lead to aging of unused parts.

Normal driving 360 - 1500 km/month 73% of analyzed period

A typical driving pattern. Often means steady use and balanced wear.

Intense driving > 1500 km/month 0% of analyzed period

Driven much more than typical. Often means parts have to work harder and may need to be replaced.

No driving 0% of analyzed period

A break in use for an extended period. Cars with long periods of no use may need extra checks (battery, brakes, tires).

Damage

This section helps you understand whether the vehicle was damaged or inspected for damage, along with recorded cost estimates (if available).

✓ No issues found

Occasional inaccuracies can occur, especially when checking older vehicles. Underground repair shops may illegally disguise vehicle defects or damages, not recording their existence anywhere. Sometimes, even vehicle VIN plates may be replaced. We have a variety of methods to detect even such crimes, but it's impossible to provide a 100% guarantee.

Natural disaster exposure

Has the vehicle's location been recorded in the area of a natural disaster?

✓ No issues found
Vehicle's location was not recorded in the area of a natural disaster

Market value

How much was the vehicle sold for in the past? What is the price of vehicles of this year and model on average?

i Note

- Average market price for such vehicle: €21,490
- Be cautious of hidden issues if the vehicle was on sale for significantly less than the current price!

AUDI Q2 market value today

Market value is determined by examining the price of a particular car model (manufactured in the same year) in the country where the report was generated. We analyze data from the last 6 months.

Specs & equipment

The vehicle's technical specifications and original equipment on record.
This section includes simplified AI-generated descriptions to help you better understand each vehicle feature.

Note

Make sure the vehicle's specs and equipment match what the seller told you.

Helpful tips after reading the report

Every tip you check off helps you avoid unwelcome surprises later. The more you check, the safer your car deal.

~~Check vehicle history~~

You've already done this – great start! Here's what to do next:

- Use the tips in this section when you check the car in person.
- Tick them off to make sure you don't miss anything important.

Get a professional inspection

An expert mechanic can spot hidden issues you might miss. Here's what to do next:

Book a pre-purchase inspection at an independent or authorised service

Ask the mechanic to check key systems: engine, brakes, suspension, electronics

Request written notes or a report of any issues found

Check if the mileage matches

Make sure the mileage in this report matches the car's odometer readings. Your latest known mileage is **51,135 km**. Here's what to do next:

Check the odometer reading against the mileage in the report

Watch for signs of tampering (worn pedals, suspicious dashboard fixes)

Ask the seller about any differences

Ask for service records

Service records show how well the car has been looked after. Here's what to do next:

Ask the seller for the car's service book or maintenance records

Check for regular oil changes, filter replacements, and timing belt work

Note any missing or overdue services

Take a real test drive

A proper test drive helps you spot problems with performance, handling, or comfort – you'll notice much more on the road than you will in the parking lot. Here's what to do next:

Drive on the highway

Drive on bumpy or uneven roads

Drive in city traffic

Listen for strange noises or vibrations

Pay attention to handling and comfort

Compare with similar cars

Checking other listings helps you know if the asking price is fair – or worth negotiating. Here's what to do next:

Search for similar cars online (same make, model, year, mileage)

Compare asking prices

Look at car condition and equipment

Use this info to negotiate with the seller
