Helpful tips after reading the report

Every tip you check off helps you avoid unwelcome surprises later. The more you check, the safer your car deal.

~~Check vehicle history~~

You've already done this – great start! Here's what to do next:

- Use the tips in this section when you check the car in person.
- Tick them off to make sure you don't miss anything important.

Get a professional inspection

An expert mechanic can spot hidden issues you might miss. Here's what to do next:

- ☐ Book a pre-purchase inspection at an independent or authorised service
- ☐ Ask the mechanic to check key systems: engine, brakes, suspension, electronics
- ☐ Request written notes or a report of any issues found

Check if the mileage matches

Make sure the mileage in this report matches the car's odometer readings. Here's what to do next:

- ☐ Check the odometer reading against the mileage in the report
- ☐ Watch for signs of tampering (worn pedals, suspicious dashboard fixes)
- ☐ Ask the seller about any differences

Ask for service records

Service records show how well the car has been looked after. Here's what to do next:

- ☐ Ask the seller for the car's service book or maintenance records
- ☐ Check for regular oil changes, filter replacements, and timing belt work
- ☐ Note any missing or overdue services

Take a real test drive

A proper test drive helps you spot problems with performance, handling, or comfort – you'll notice much more on the road than you will in the parking lot. Here's what to do next:

- ☐ Drive on the highway
- ☐ Drive on bumpy or uneven roads
- ☐ Drive in city traffic
- ☐ Listen for strange noises or vibrations
- ☐ Pay attention to handling and comfort

Compare with similar cars

Checking other listings helps you know if the asking price is fair – or worth negotiating. Here's what to do next:

- ☐ Search for similar cars online (same make, model, year, mileage)
- ☐ Compare asking prices
- ☐ Look at car condition and equipment
- ☐ Use this info to negotiate with the seller
