Data sources

We checked 900+ data sources in 40 countries

## Commercial use check

We checked if this vehicle was used for commercial purposes - like a taxi, rental, or another service vehicle. These vehicles often see heavier use, so it's worth looking closer for signs of wear.

### Good news

No records of vehicle being used in irregular manner

### Here's what we checked:

✓= Passed technical inspection (MOT)?  No record found No technical inspection records found

↺↻ Was it scrapped?  No record found No record that vehicle was marked as scrapped

## Damage

Has this vehicle been damaged in the past? What was the value of the damages?

### ✓ Good news

No damage or assessment records found

Occasional inaccuracies can occur, especially when checking older vehicles. Underground repair shops may illegally disguise vehicle defects or damages, not recording their existence anywhere. Sometimes, even vehicle VIN plates may be replaced. We have a variety of methods to detect even such crimes, but it's impossible to provide a 100% guarantee.

# Natural disaster exposure

We checked if the vehicle was located in an area hit by a natural disaster at the time it happened.

## Good news

This vehicle's location was not recorded in the area of a natural disaster.

# Market price

We checked how this vehicle's market price has changed over time, based on available historical data and price estimates.

The timeline shows a limited period and does not reflect the vehicle's full lifetime pricing.

## Summary

- Average market price for such vehicle: €29,236
- Be cautious of hidden issues if the vehicle was on sale for significantly less than the current price!

## Market price insights

### Price trend forecast

This vehicle is expected to lose -51% of its market price over the next 7 years.

### Price drop & buying window

The largest drop in market price is expected around 2033, when the vehicle reaches 11 years of age. Buying around this time may offer better value.

### Optimal selling timing

Selling before the largest price drop – expected around 2032 or 10 years of age – may help retain more value.

**Note:** Forecasts are based on current market trends and historical data. Actual resale value may change due to market shifts, condition, location, or other factors.

## Specs & equipment

## Helpful tips after reading the report

Every tip you check off helps you avoid unwelcome surprises later. The more you check, the safer your car deal.

### Check vehicle history

You've already done this – great start! Here's what to do next:

- Use the tips in this section when you check the car in person.
- Tick them off to make sure you don't miss anything important.

### Get a professional inspection

An expert mechanic can spot hidden issues you might miss. Here's what to do next:

- Book a pre-purchase inspection at an independent or authorised service
- Ask the mechanic to check key systems: engine, brakes, suspension, electronics
- Request written notes or a report of any issues found

### Check if the mileage matches

Make sure the mileage in this report matches the car's odometer readings. Your latest known mileage is **32,959 km**. Here's what to do next:

- Check the odometer reading against the mileage in the report
- Watch for signs of tampering (worn pedals, suspicious dashboard fixes)
- Ask the seller about any differences

### Ask for service records

Service records show how well the car has been looked after. Here's what to do next:

- Ask the seller for the car's service book or maintenance records
- Check for regular oil changes, filter replacements, and timing belt work
- Note any missing or overdue services

### Take a real test drive

A proper test drive helps you spot problems with performance, handling, or comfort – you'll notice much more on the road than you will in the parking lot. Here's what to do next:

- Drive on the highway
- Drive on bumpy or uneven roads
- Drive in city traffic
- Listen for strange noises or vibrations
- Pay attention to handling and comfort

### Compare with similar cars

Checking other listings helps you know if the asking price is fair – or worth negotiating. Here's what to do next:

- Search for similar cars online (same make, model, year, mileage)
- Compare asking prices
- Look at car condition and equipment
- Use this info to negotiate with the seller
