## Helpful tips after reading the report

Every tip you check off helps you avoid unwelcome surprises later. The more you check, the safer your car deal.

### Do these checks before buying a car:

- Get a professional inspection**  
An expert mechanic can spot hidden issues you might miss. Here's what to do next:
  - Book a pre-purchase inspection at an independent or authorised service
  - Ask the mechanic to check key systems: engine, brakes, suspension, electronics
  - Request written notes or a report of any issues found
- Ask for service records**  
Service records show how well the car has been looked after. Here's what to do next:
  - Ask the seller for the car's service book or maintenance records
  - Check for regular oil changes, filter replacements, and timing belt work
  - Note any missing or overdue services
- Check if the mileage matches**  
Make sure the mileage in this report matches the car's odometer readings. Here's what to do next:
  - Check the odometer reading against the mileage in the report
  - Watch for signs of tampering (worn pedals, suspicious dashboard fixes)
  - Ask the seller about any differences
- Take a real test drive**  
A proper test drive helps you spot problems with performance, handling, or comfort – you'll notice much more on the road than you will in the parking lot. Here's what to do next:
  - Drive on different road types: highway, city traffic, and bumpy or uneven surfaces
  - Listen for strange noises or vibrations
  - Pay attention to handling and comfort
- Compare with similar cars**  
Checking other listings helps you know if the asking price is fair – or worth negotiating. Here's what to do next:
  - Search for similar cars online (same make, model, year, mileage)
  - Compare asking prices
  - Look at car condition and equipment
  - Use this info to negotiate with the seller
