The timeline of records for this vehicle

- 03/2022 🌐 Country unknown

### Manufactured

This vehicle's manufacturing date has been recorded. The listed country may reflect a production or registration location.

### Data sources

We checked 1000+ data sources in **48 countries**

## Helpful tips after reading the report

Every tip you check off helps you avoid unwelcome surprises later. The more you check, the safer your car deal.

### Based on this report:

#### Verify maintenance history

The mileage looks accurate, which is good news. Now check if the car was properly maintained throughout its life.

Cross-reference the mileage with service book stamps or digital invoices.

Inspect wear on key parts to make sure it matches the mileage shown.

### Do these checks before buying a car:

#### Get a professional inspection

An expert mechanic can spot hidden issues you might miss. Here's what to do next:

Book a pre-purchase inspection at an independent or authorised service

Ask the mechanic to check key systems: engine, brakes, suspension, electronics

Request written notes or a report of any issues found

#### Ask for service records

Service records show how well the car has been looked after. Here's what to do next:

Ask the seller for the car's service book or maintenance records

Check for regular oil changes, filter replacements, and timing belt work

Note any missing or overdue services

#### Check if the mileage matches

Make sure the mileage in this report matches the car's odometer readings. Your latest known mileage is **50,238 km**. Here's what to do next:

Check the odometer reading against the mileage in the report

Watch for signs of tampering (worn pedals, suspicious dashboard fixes)

Ask the seller about any differences

#### Take a real test drive

A proper test drive helps you spot problems with performance, handling, or comfort – you'll notice much more on the road than you will in the parking lot. Here's what to do next:

Drive on different road types: highway, city traffic, and bumpy or uneven surfaces

Listen for strange noises or vibrations

Pay attention to handling and comfort

#### Compare with similar cars

Checking other listings helps you know if the asking price is fair – or worth negotiating. Here's what to do next:

Search for similar cars online (same make, model, year, mileage)

Compare asking prices

Look at car condition and equipment

Use this info to negotiate with the seller
