Solutions

Prevent Vehicle Misuse

Be notified of potential unauthorised use and keep track of how your drivers operate.

Optimise Routes

Avoid route overlaps, time-wasting stops and unnecessarily long journeys.

Export Data

With a single click, export all the raw data you need regarding your vehicles' journeys.

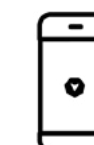

Find the Right Drivers

Easily locate and dispatch your nearest vehicles to customers: deliver a quicker, more efficient service.

Cut Costs

Save time and money with Fleet Geo. Save up to 15% on costs and 60% on time.

Use on Mobile

Optimise your fleet wherever you, or your vehicles, are with our mobile app.

Improve Customer Service

Deliver to more customers in one day, with a more efficient fleet, and give them real-time data on ETAs.

Protect Against Theft

Track your vehicles' live locations and customise our alerts to be notified of any suspicious activity.

Private Mode

Choose whether you want your drivers to be able to switch tracking on/off for business/private trips.
