One solution, proven to give full fleet oversight.

Vimcar provides over 100,000 vehicles with straightforward fleet solutions.

Fleet Geo is the market's most accurate GPS fleet tracking, made by Vimcar. It offers 24/7 oversight of:

✓ Vehicles
✓ Drivers
✓ Traffic

Discover the features that help you take control:

🔔 **Vehicle misuse prevention**

👁 **Finding the right driver**

🎧 **Improving customer service**

📍 **Route optimisation**

📍🔒 **Theft protection**

⬇ **Fleet data access**

VIMCAR
FLEET GEO

Vimcar
Fleet Geo

Vehicle
misuse prevention.

Be notified of potential unauthorised use and keep track of how your drivers operate.

Fleet Geo gives greater control to anyone who needs it. You can be notified when vehicles are active outside of business hours and make sure your vehicles' route histories uncover nothing suspicious.

We'll help your fleet minimise unauthorised and unfair vehicle and fuel usage.

VIMCAR
FLEET GEO

Finding
the right driver.

Easily locate and dispatch your nearest vehicles to customer appointments and deliver a quicker, more efficient service.

We offer the most accurate GPS tracking on the market, refreshing every 20 seconds. Precisely pinpoint customer addresses and your closest available drivers. Fleet Geo can then automatically calculate travel times.

You can also pair each vehicle with a corresponding driver using Vimcar's Driver ID. Contact our team to learn more.

VIMCAR
FLEET GEO

Improving
customer service.

Deliver to more customers in one day, with a more efficient fleet, and give them real-time data on your drivers' ETAs.

Our live tracking and in-built traffic updates allow you to give precise ETAs to customers.
Our customisable notifications can send alerts whenever a driver leaves the depot or arrives at its destination. We'll also record whenever a driver arrives at an appointment and the length of the appointment (even if your customer is not there).

Leave your driver to get on with their job, while their more optimised routes give them a chance to reach more customers.
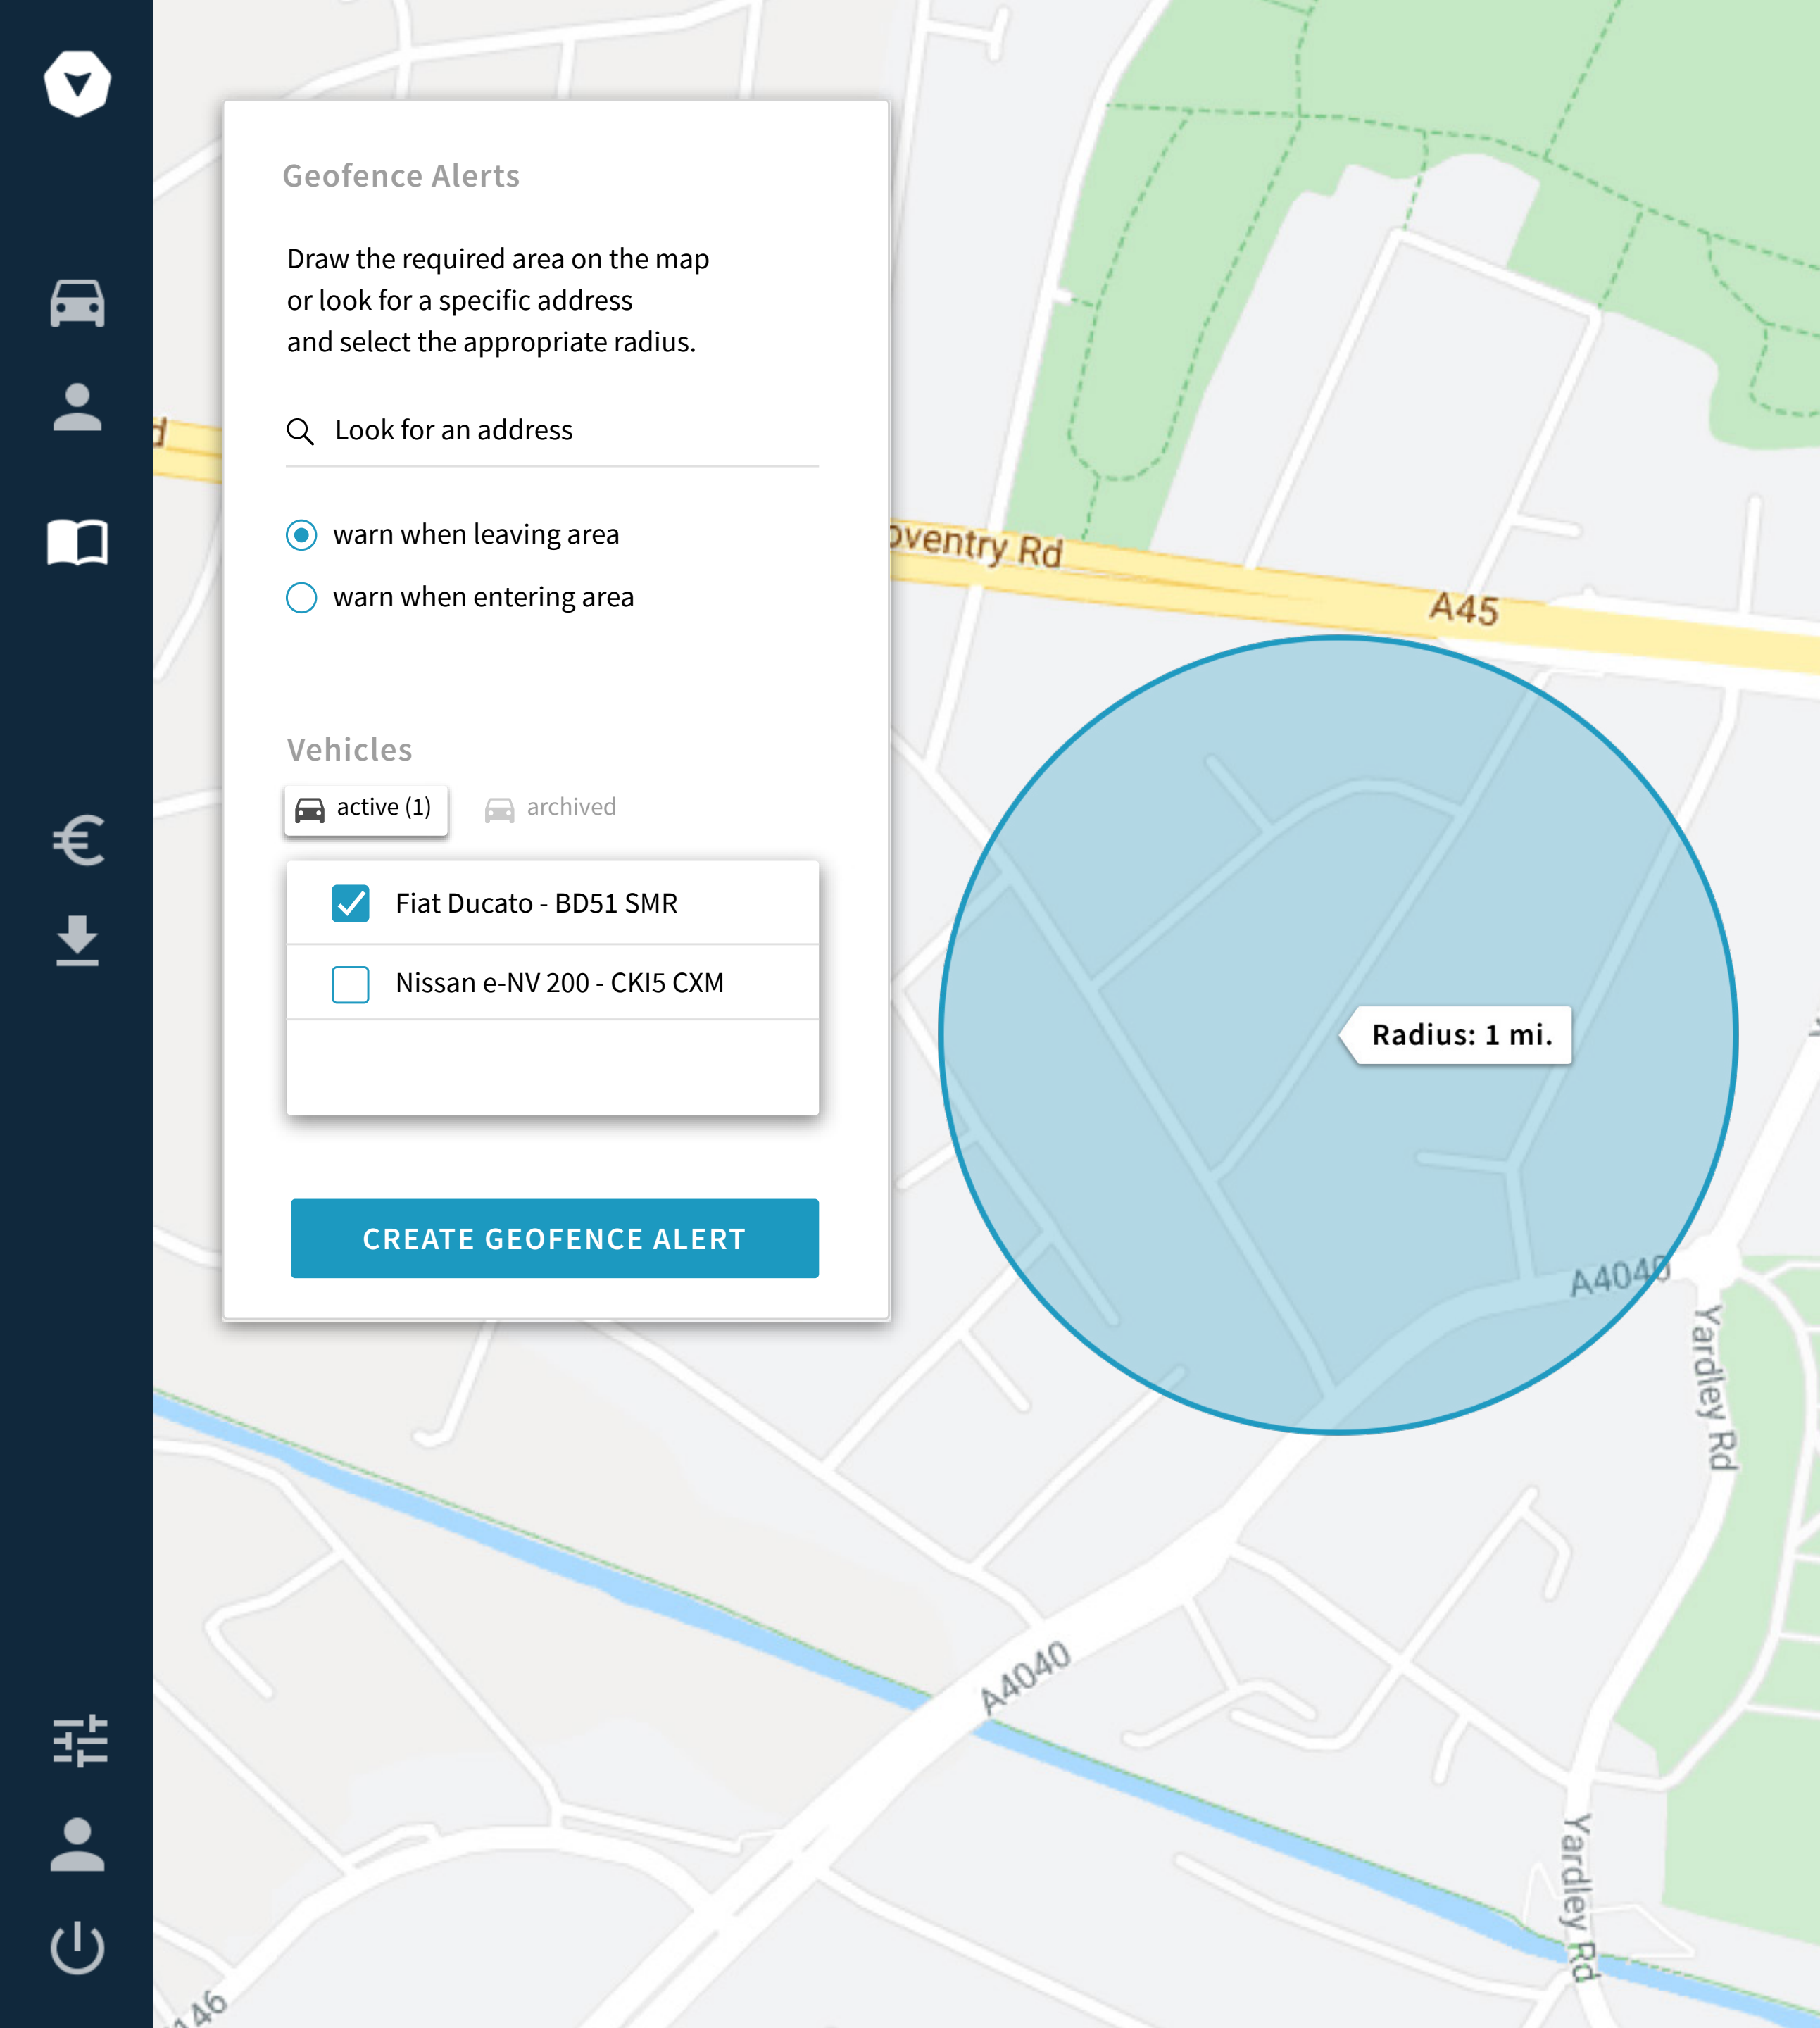

**VIMCAR
FLEET GEO**

Route
optimisation.

Gain intuitive access to your fleet's route history and get rid of route overlaps, time-wasting stops and unnecessarily long journeys.

Fleet Geo allows you to filter through routes and get an easy-to-read overview of specific journey details such as the duration and breaks, speeds and routes taken.

You can then optimise routes and direct drivers to take more fuel and time-efficient journeys.

Geofence Alerts

Draw the required area on the map
or look for a specific address
and select the appropriate radius.

🔍 Look for an address

⦿ warn when leaving area

◯ warn when entering area

Vehicles

🚗 active (1)   🚗 archived

☑ Fiat Ducato - BD51 SMR

☐ Nissan e-NV 200 - CKI5 CXM

CREATE GEOFENCE ALERT

Radius: 1 mi.

Theft
protection.

**Track your vehicles' live locations and
customise our alert system to be notified
of any suspicious activity.**

At a glance, you'll be able to use our tracker to make
sure all vehicles are where they should be and access
vital GPS information in case they are not.
Our customisable notifications also let you know
whenever a vehicle leaves the premises outside of
business hours.

When choosing hardware, customers have the
option to install the Vimcar Box, which is fixed to
the car battery and hidden from sight.
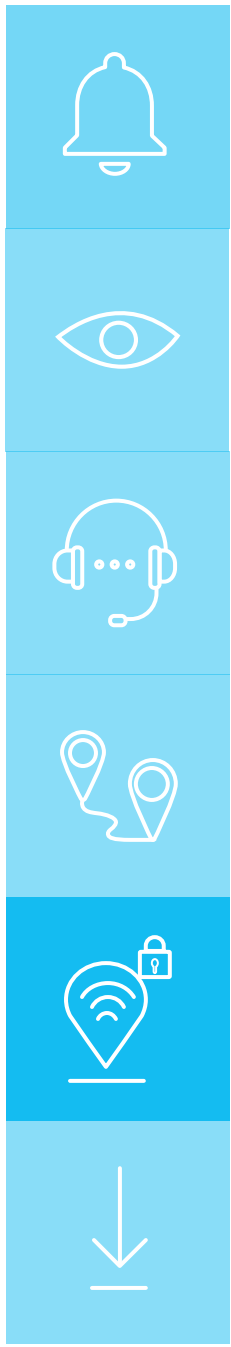

Fleet data **access.**

Use your data the way you want with unlimited CSV file downloads and Vimcar's public API integration.

You can share Vimcar's data even when others do not have access to the software. Download your data into spreadsheets, anytime you want: perfect for internal records or external reports.

You can also integrate data into your own internal tech set up with our API option. This offers an even wider range of possible fleet solutions for your business.

Why Vimcar?

FREE AND EASY-TO-USE HARDWARE.

Vimcar is designed to be installed and used by anyone – no matter how tech-savvy they may be. That's why all our hardware can be self-installed in minutes, for free.

FAIR AND FLEXIBLE PRICING.

We offer unrivalled value for money through flexible pricing, all-inclusive packages, product guarantees and no hidden costs.

## PROACTIVE AND RELIABLE SUPPORT.

Every customer is assigned a dedicated Support Agent, offering free virtual product guides and availability every business day of the week.

Lifetime Warranty

30-day-money-back Guarantee

Free and easy-to-use hardware.

Choose between our Dongle or Box. Either choice is included in your package and doesn't require a mechanic or driver downtime to install.

Vimcar Dongle This plugs right into your OBD interface (in the right corner of your footwell). It's perfect for swapping and changing vehicles.

Vimcar Box This fixes onto your vehicle's battery, making it simple to install – and very discreet and completely tamperproof.
