Turnkey Solution
To Control Your
Restaurant Menu

What is Bridge Digital Menu?

- It is a full turnkey solution for restaurants and cafes to present their menus in a fashionable, attractive and easy to use design

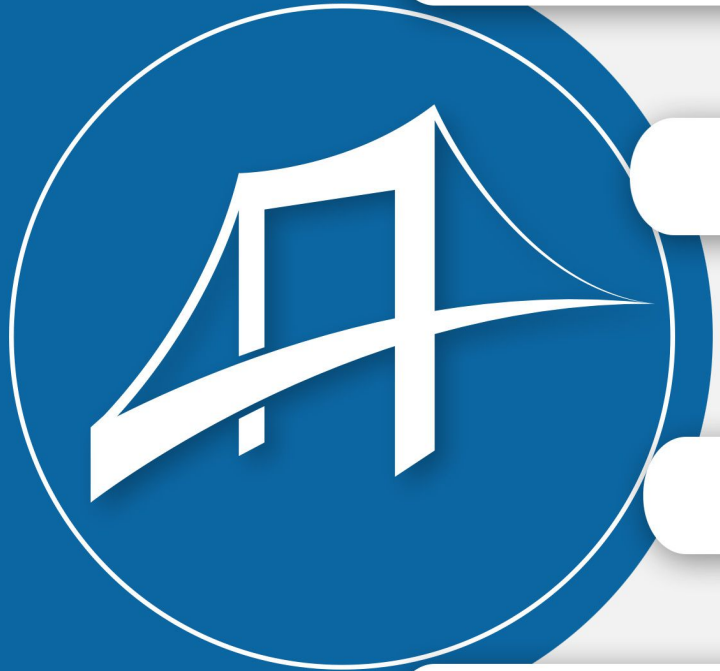

What Does Bridge Digital Menu Offer?

- Bridge system consists of many modules that help you control and operate your restaurant.
- No matter what kind of restaurant you have or operate, you will find Bridge Digital suitable for your present and future goals.

Bridge Digital Keystone

- Bridge Digital considers the restaurant menu as the keystone for your success.
- The menu represents the products you sell.
- The menu makes your customers eager to visit you again and again.

Four Major Flavors

NO. 1

Bridge Contactless
Menu (QR Code)

NO. 2

Bridge Menu on

NO. 4

Bridge Menu on
your Website

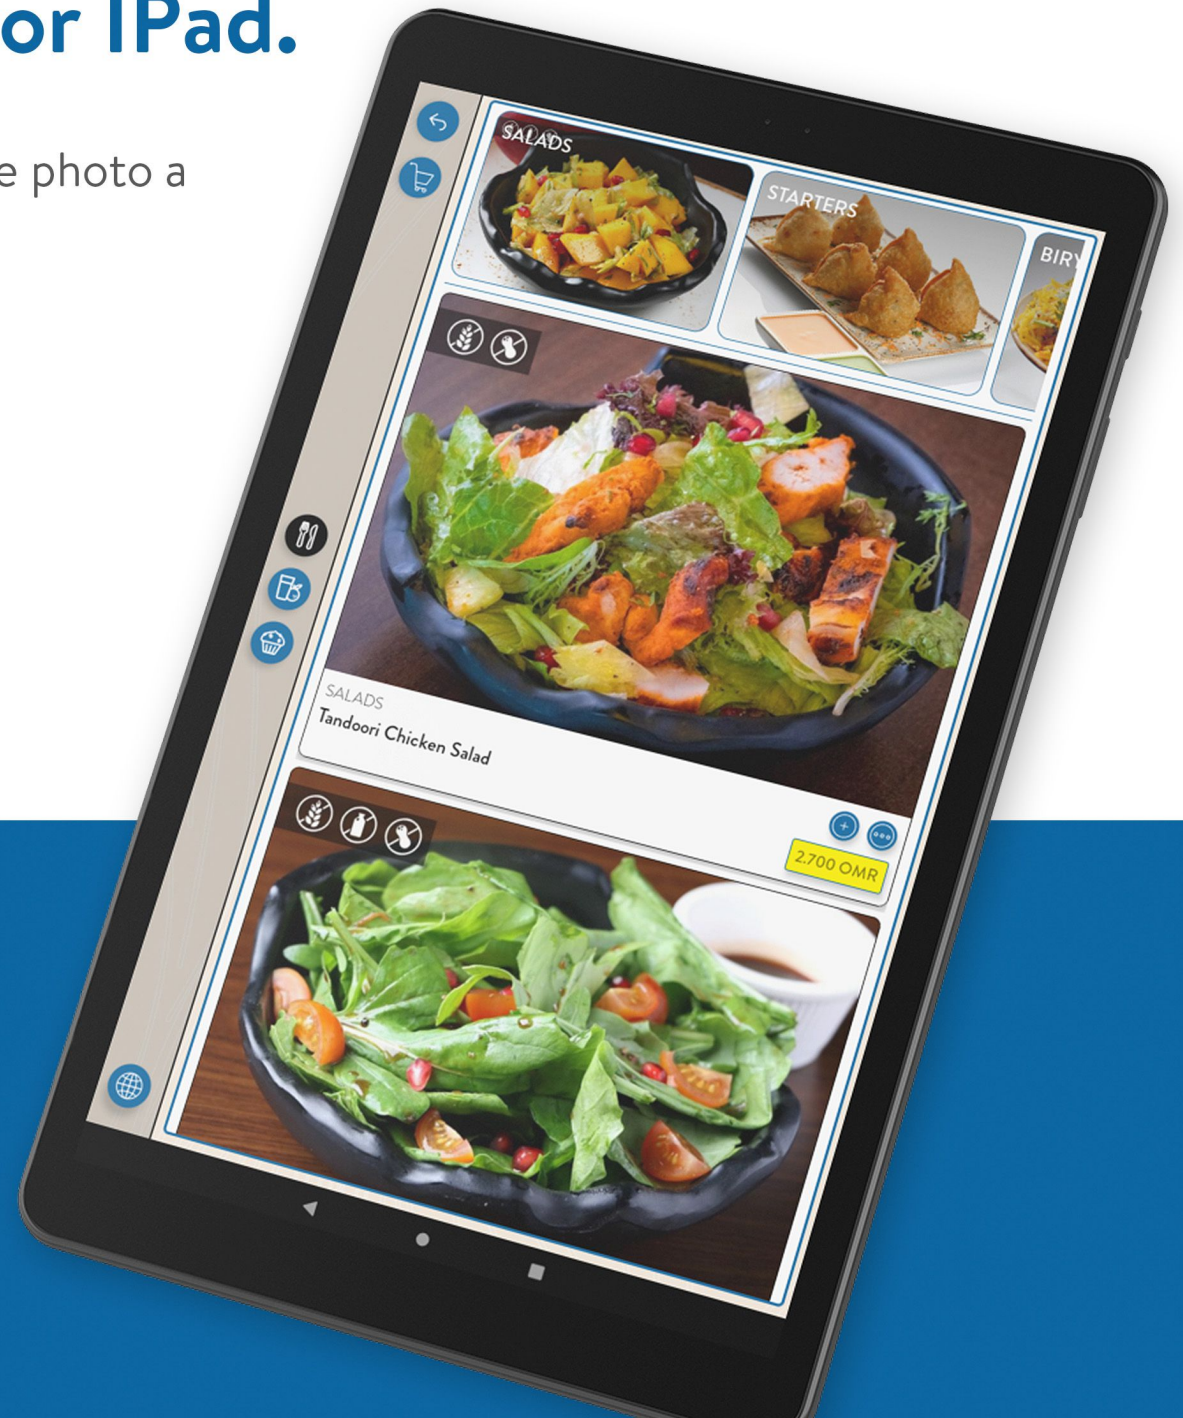

Bridge Contactless Menu (QR Code)

- Customers can scan the QR Code to browse the restaurant menu on their mobile phones.
- Place the QR Code in the Dine-In area or print it on your stationary.
- Bridge QR Code Menu does not include downloading PDF files to the mobile phones.

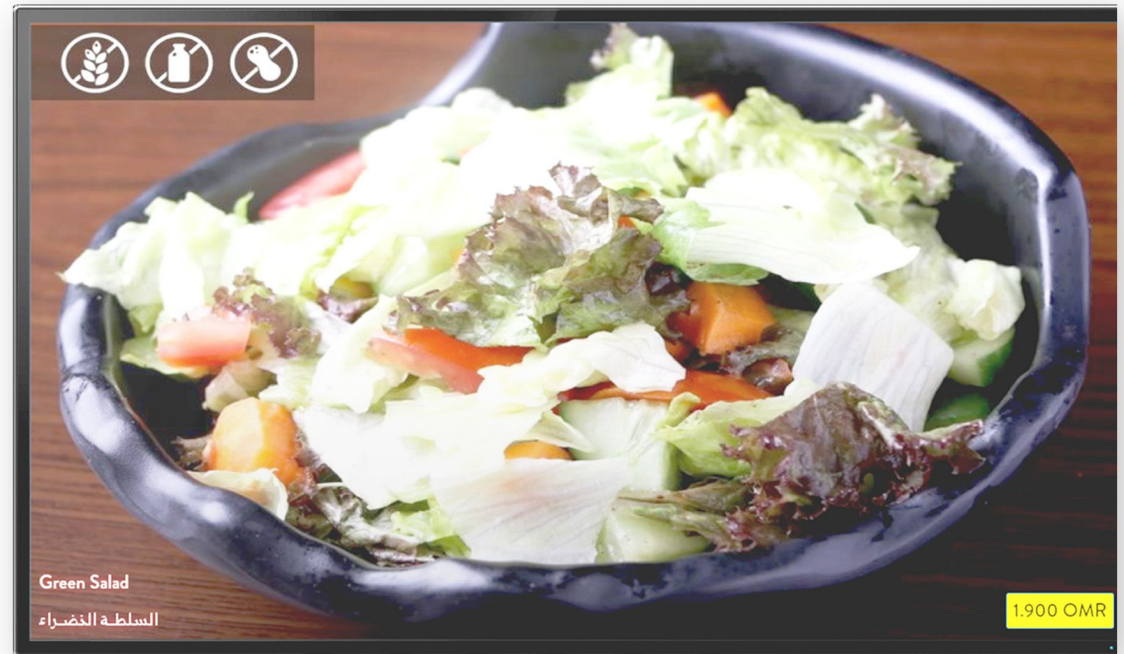

Bridge Menu on Tablet or iPad.

- Our menu focuses on the visuals, giving the photo a big portion of the screen.
 - Our menu is organized into sections.
 - Under each section you can define unlimited categories.
 - Upload videos of the dishes.
 - You can set promotion price for any item.
-
- In addition to the item name and description, you can define the preparation time, the nutrition values and the meat origin.

Bridge Menu on TV.

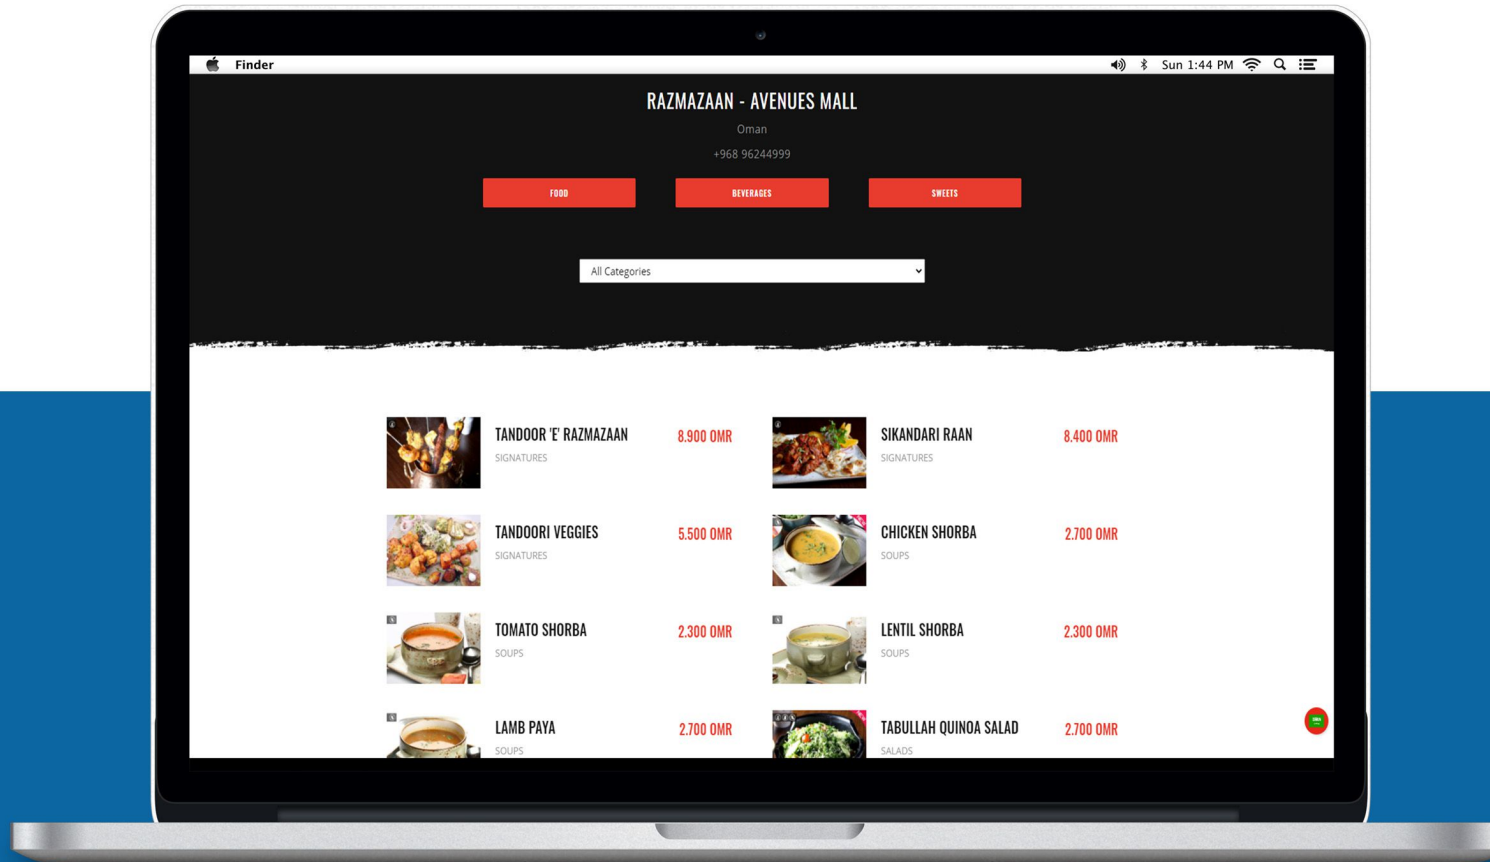

- Display your menu items on any kind of TV screen or smart TVs.
- Any changes you make on the Bridge control panel will be automatically shown on TV Screens.
- Bridge Menu on TV can display both still photos or dynamic videos of your menu.

- The menu can be changed on the spot according to your incoming events, price changing, or new product introduction.
- The application design is flexible to fit your restaurant's theme.

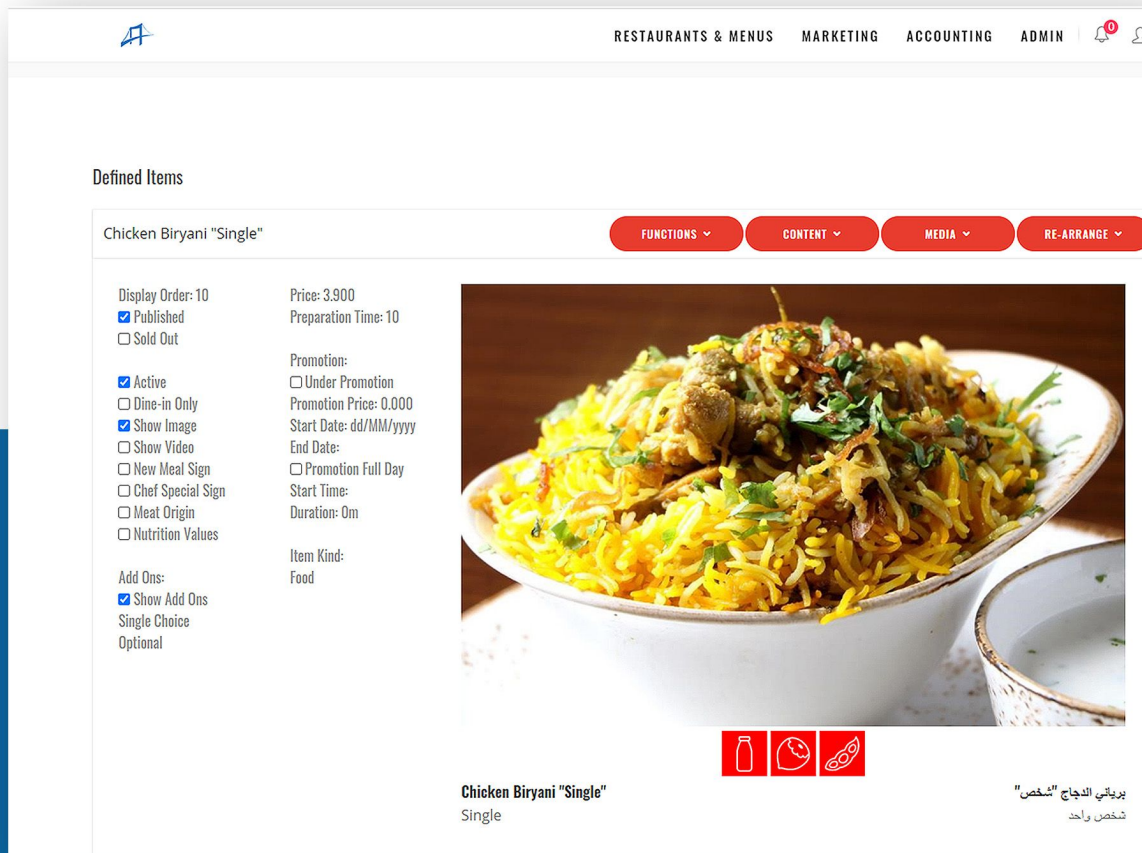

Bridge Menu on Website.

- Bridge Menu on Website gives you a new gateway to reach customers by presenting your menu and your newest dishes on your own website.

Control in Your Hands

-Our friendly and easy to use control panel gives you the ability to do all the modification you want for all four functions in a smooth way. just few clicks away, all the four functions will be updated.

The screenshot displays a web interface for managing menu items. At the top, there is a navigation bar with links for 'RESTAURANTS & MENUS', 'MARKETING', 'ACCOUNTING', and 'ADMIN', along with a notification bell and a user profile icon. The main content area is titled 'Defined Items' and shows a card for 'Chicken Biryani "Single"'. The card includes a list of settings on the left, a central image of the dish, and a list of details on the right. Below the image are three small icons representing different categories or tags. The item name and type are displayed at the bottom of the card.
