FIRE SAFETY - THE FACTS

Introduction

Would you know what to do if a fire broke out in your workplace? This course takes a brief look at the general principles of fire safety and what to do in the event of a fire.

Course Overview

This course will aim to give you an overview of Fire Safety, and what to do in the case that a fire should break out in your workplace.

At the end of the video, trainees will be able to:

» Understand what fire safety actually is.

» Recognise what to do if a fire is discovered.

» Understand procedures, such as raising the alarm and evacuating the building.

» Understand how to use fire extinguishers correctly.

Course chapters

1. Introduction

Introduction to fire safety, fire procedures and policies in the workplace.

2. What to do if you discover a fire

Find out what to do in the event of a fire such as raising the alarm and evacuating the building. It also teaches you the three key elements of the Fire Triangle.

3. Using fire extinguishers

Learn how to use the correct fire extinguishers for the different types of fires i.e. Class A, Class B, Class C and Electrical .

Who will it benefit?

If you want to meet the requirements of the fire safety law in your workplace then this course is for you.
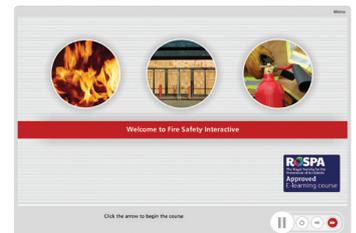

How it works?

Fire Safety is delivered in a video format. It is entertaining, informative and professionally produced by Safety Media's own in-house production team.

The video courses are tracked with the Learning Management System in exactly the same way as the interactive courses and are fully reportable ensuring that all training is logged within the system.

This video course also features the risk checklist and self-test to ensure user understanding and easy identification of high risk employees.

Course Format: Video
Running Time: 15-20minutes

Technical Information

Internet Access:

Users will need a computer or apple device with a web browser and an internet connection to access Safety Media e-Learning Solutions.

Minimum Recommended Bandwidth: 2Mbs

Software:
One of the following web-browsers:

- Google Chrome

- Safari (Versions as maintained and supported by the manufacturer)

- Internet Explorer (Versions as maintained and supported by the manufacturer)

Adobe Reader or Reader DC (for viewing of PDF documents downloadable from the solution where applicable)

Plug-ins

- Flash player: Version as recommended by Adobe

Settings

- Enable JavaScript

- Allow cookies

Hardware:

Processor - 600MHz
Minimum Hard Disk Space Required - 1GB
RAM - OS Dependent

Audio

The courses contain audio, system requirements for running the courses are browser dependent. Where no enabled audio device is detected and the browser defines that this is required the user will be informed via an error message window upon launching the course.
