

FIRST AID IN THE WORKPLACE (MANAGERS)

Introduction

First Aid is essential for the immediate treatments of accidents before help from the emergency services arrive. Taking this course could really mean the difference between life and death and help minimise the severity of an injury.

Course Overview

At the end of the course, trainees will:

- » Appreciate the importance of first aid at work
- » Recognise the legal obligations and minimum provisions with respect to first aid
- » Recognise additional provisions that are required for high-risk workplaces
- » Identify the correct steps when responding to an accident, incident or injury
- » Take appropriate action in response to accidents and emergencies at work.

Course chapters

1. First Aid in the Workplace

Discover the importance of First Aid, as well as First Aid Regulations and assessing the risks.

2. First Aid provisions

Learn about contents of the First Aid Box, storing and maintaining the First Aid Box, First Aider training and additional provisions.

3. Procedures in First Aid

Assessing the situation, the recovery position, CPR and Abdominal thrusts.

4. First Aid Scenarios

Respiratory Emergency, choking, bleeding, burns, electric shock and other injuries.

Who will it benefit?

This course is aimed at managers who want to appreciate the importance of first aid at work and identify the correct steps when responding to an accident or injury.

How it works?

First aid in the workplace for managers is delivered online as an interactive course to each trainee on their computers, or portable device at any internet enabled location. The interactive course is engaging, informative and exciting to use.

Using up-to-date, modern graphical images, users will be faced with a selection of interactive elements and mini quizzes to test their knowledge.

Users will receive informative advice and guidance and will be tested on their understanding of the subject at the end of the course by completing the compulsory self-test.

This course also features a risk checklist which asks the user a series of questions relating to their current working environment.

Course Format: Interactive
Running Time: 40-45 minutes

Technical Information

Internet Access:

Users will need a computer or apple device with a web browser and an internet connection to access Safety Media e-Learning Solutions.

Minimum Recommended Bandwidth: 2Mbs

Software:

One of the following web-browsers:

- Google Chrome
- Safari (Versions as maintained and supported by the manufacturer)
- Internet Explorer (Versions as maintained and supported by the manufacturer)

Adobe Reader or Reader DC (for viewing of PDF documents downloadable from the solution where applicable)

Plug-ins

- Flash player: Version as recommended by Adobe

Settings

- Enable JavaScript
- Allow cookies

Hardware:

Processor - 600MHz
Minimum Hard Disk Space Required - 1GB
RAM - OS Dependent
Audio

The courses contain audio, system requirements for running the courses are browser dependent.

Where no enabled audio device is detected and the browser defines that this is required the user will be informed via an error message window upon launching the course.
