

PROVISION & USE OF WORK EQUIPMENT REGULATIONS (PUWER)

Introduction

This module introduces the key requirements of PUWER. You will examine the scope of the Regulations, its purpose and what kinds of equipment are covered by PUWER.

Course Overview

At the end of the course trainees will be able to:

- » Identify the key requirements of the PUWER regulations
- » State what equipment is covered
- » Identify key duties and responsibilities
- » Recognise the key risks associated with using work equipment
- » Identify ways of reducing the risks when using work equipment
- » Take appropriate action to maintain safety.

Course chapters

1. Introduction

Introducing the topic, emphasising the potential dangers of working with equipment in the workplace and the importance of taking steps to control the risks.

2. An Introduction to PUWER

This section introduces the PUWER regulations, lists examples of which equipment is covered, and lists the key duties placed on employers and employees.

3. Identifying and Reducing the Risks

This section of the course provides guidance for recognising risks, taking appropriate measures and reducing the risks.

4. Equipment Maintenance

In this final section you'll cover the responsibilities associated with manufacturing and buying equipment and the guidelines for maintenance and inspections.

Who will it benefit?

This course is designed for anyone who uses equipment in their job and needs to learn more about PUWER, the Provision and Use of Work Equipment Regulations, and who uses or is responsible for equipment at work.

How it works?

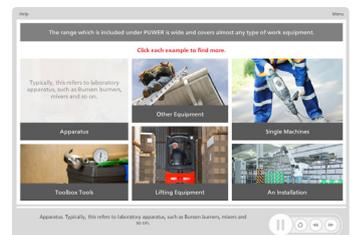

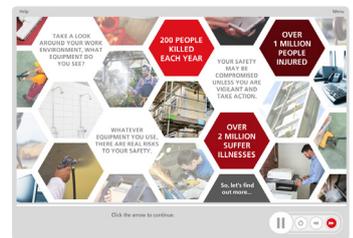

PUWER is delivered online as an interactive course to each trainee on their computers, or portable device at any internet enabled location. The interactive course is engaging, informative and exciting to use.

Using up-to-date, modern graphical images, users will be faced with a selection of interactive elements and mini quizzes to test their knowledge.

Users will receive informative advice and guidance and will be tested on their understanding of the subject at the end of the course by completing the compulsory self-test.

This course also features a risk checklist which asks the user a series of questions relating to their current working environment.

Course Format: Interactive
Running Time: 25-30 minutes

Technical Information

Internet Access:

Users will need a computer or apple device with a web browser and an internet connection to access Safety Media e-Learning Solutions.

Minimum Recommended Bandwidth: 2Mbs

Software:

One of the following web-browsers:

- Google Chrome
- Safari (Versions as maintained and supported by the manufacturer)
- Internet Explorer (Versions as maintained and supported by the manufacturer)

Adobe Reader or Reader DC (for viewing of PDF documents downloadable from the solution where applicable)

Plug-ins

- Flash player: Version as recommended by Adobe

Settings

- Enable JavaScript
- Allow cookies

Hardware:

Processor - 600MHz
Minimum Hard Disk Space Required - 1GB
RAM - OS Dependent

Audio

The courses contain audio, system requirements for running the courses are browser dependent.

Where no enabled audio device is detected and the browser defines that this is required the user will be informed via an error message window upon launching the course.
