## ABOUT ME

I am an outgoing individual who loves to meet new people.. I am passionate about travelling and explore new places. I am adventurous and curious about what the world can bring me and with that discover new cultures. As a dancer my goal is to transmit my passion for dancing to the people in the audience, to make them happy, excited and emotional. With stage experience, knowledge of technique, my goal in the future is to convey to the next generation of dancers how they can be the best in this field and that dance can be a place of freedom and passion.
