## Quality

My name is Alexandra Budescu, I am 17 years old and I am a girl who would like to join a professional ballet company. I am 1.65 metres tall and weigh 47 kg. I have been practising ballet for 14 years and contemporary dance for 7 years. For me, dance is the expression of oneself through one's body of emotions that are difficult to express in words. I am a very passionate and determined girl. I try to have as much experience as possible so that I have a broad cultural background. I also like experimenting with new styles and I am good at both contemporary and classical. I always give my best and have a very strong energy.
