### *Understand the general idea*

#### **1. Why is the Starfish Café different from other restaurants? (0:00-0:45)**

There are a few different reasons: It's a training program, it's a non-profit organization, they take people of all ages on their training programs, and there are no prices on their menus. You pay what you can or want.

#### **2. How does Zachary describe working in a kitchen? (1:00-1:30)**

He says it can be stressful because you have a lot of work to do, and you have to manage a lot of things at the same time.

#### **3. Why does the restaurant offer financial training? (1:45-2:37)**

Because people in the restaurant industry don't make a lot of money, and often don't think to save money in case they have problems. If they learn to manage their money, they can better manage unplanned expenses.

#### **4. How have people reacted to the pricing system of the restaurant, where there are no prices on the menu? (2:40-3:45)**

It has worked well, even if some people are uncomfortable because they don't know what to pay.
