Legend

how to read the fiche? 4
ORGA numbers 5

Engine

air exchanger 130-131
belt protector 150-153
camshaft 76-81
camshaft pulleys 82-83
connecting rods, rings 64-66
cooling fan 154-159
crankcase 32-41
crankshaft 55-63
cylinder head 12-25
cylinder head cover 29-31
cylinder head plugs and securing 26-28
electronic computer 111
gasket kit 6-11
injection pump 91-98
injector 99-110
oil filter 139-145
oil pump 132-138
oil sump 47-54
pistons 67-73
rocker arms 84-90
timing 74-75
timing belt shields 45-46
timing gear housing 42-44
turbo compressor 112-123
turbo oil circuit 124-129
water pump 146-149

Gearbox

differential 209-219
gearbox connection 171-175
gearbox fastening 167-169
gearbox housing 165-166
gearbox lid 170
gearbox, complete 160-164
gearchange control 199-208
shafts and pinions 176-189
spindles and forks 192-198
syncromesh 190-191

Engine Equipment

accelerator control 234-265
air filter and ducts 277-292
air intake manifold 220-233
alternator 346-357
alternator fastening 358-366
anti-pollution circuit 300-319
carburettor 266-276
clutch 336-343
clutch, automatic 344-345
distributor 322-328
distributor bracket 320-321
exhaust pipe 293-299
ignition harness, spark plugs, coil 331-335
ignition pressure unit 329-330
starter 367-385
starter fastening 386

Hydraulics and Running Gear

anti-roll bars, connecting rods 481-489
arm, rear 457-468
brake accumulator 408
height correctors 477-480
hp pump 387-394
lhm tank 409-410
piping brackets 441-442
plate bracket 443-452
pressure regulator, accumulator 395-406
return piping 437-440
safety valve 407
steering box and rack 497-500
steering box and rods 495-496
steering regulator 501
steering wheel, ignition lock 490-494
supply piping, steering and brake 421-436
supply piping, suspension 411-420
suspension cylinder, front 469-472
suspension cylinder, rear 473-476
wheels 453-456

Brakes and Transmission

abs computer, relays, brackets 527-528
brake control valve 521-526
brakes, front 512-514
brakes, rear 515-520
differential shaft bearings 506-507
driveshafts 508-511
handbrake 529-531
pedal gear (brake, clutch) 502-505

Electrical Equipment

aerial, statics supressor 620-621
battery 577-580
board computer 569-570
clip holders 553-558
connectors 552
console accessories 576
electrical equipment 545-551
electronic modules, dashboard 615-617
electronic modules, under hood 618-619
fog lights, front 585
headlight washer 601
horn 602-607
instrument panel 561-568
instrument panel accessories 573
lamp kit 559-560

Freely distributable document. Selling is prohibited.

lighting, front 581-584
lighting, interior 589-590
lighting, rear 586-588
mainboard 614
pressure/temperature sensors 609-613
relays, fuses 608
switches, instrument panel 571-572,574-575
switches, lighting 591-592
window washer, front 598
window washer, rear 599-600
window wiper, front 593-594
window wiper, rear 595-597
wiring harness, dashboard 538-539
wiring harness, doors 540
wiring harness, engine 535-536
wiring harness, front 532-533
wiring harness, injection 537
wiring harness, rear 534
wiring harness, union 541-544

Engine Environment and Misc

air conditioning, circuit 774-789
air conditioning, compressor 760-773
air conditioning, rear 790-793
bumper, front 755-756
bumper, rear 757-759
coolant tank 721-724
cooling radiator 748-754
engine bracket 622-627
evaporator 800
exhaust front 673-683
exhaust front, securing 684-689
exhaust rear 690-707
exhaust rear, securing 708-720
fuel filter 644-650
fuel piping 628-636
fuel piping, securing 651-655
fuel piping, warmer 642-643
fuel pump, filter 637-641
fuel tank 656-666
fuel tank, anti-pollution 667-672
heater unit 794-796
heating and ventilation control 797-798
heating, temperature sensor 799
ventilation 801
ventilation controls 802-805
ventilation duct and nozzle 806-813
water piping 725-739
water piping, securing 740-747

Body and Equipment

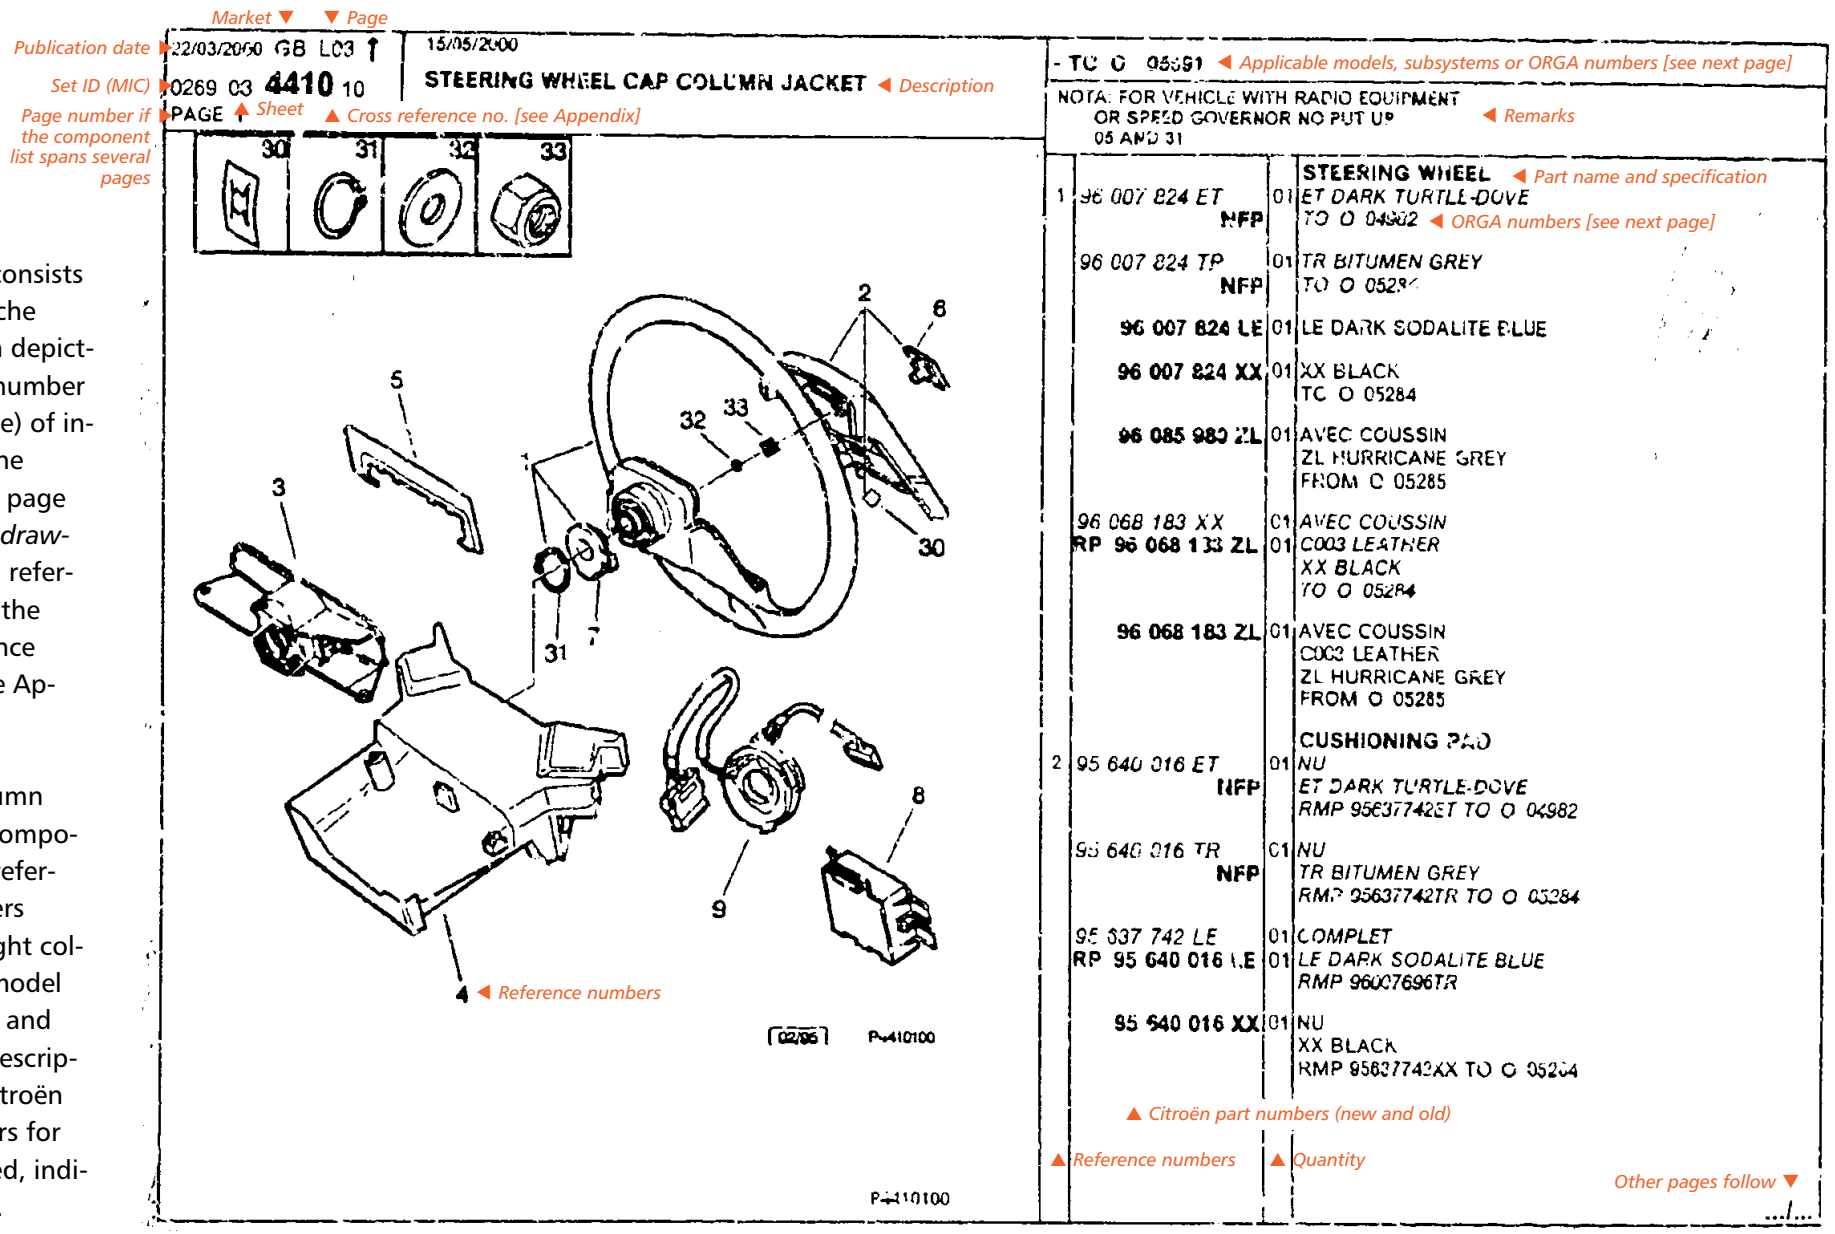

body rear 843-846
body shell 814-834
bulkhead 835
center console 912-915
door, rear 893-898
embellishement 910-911,916-922
facia panel 923-932
fuel filler cap 841-842
hood 904-909
locking, front door 863-867
locking, rear door 899-903
locking, trunk door 887-890
partition panel 847
rear floor 836-840,848
rearview mirror 868-874
side frame 849-856
sunroof 857-860
tailgate 892
trunk door 879-886
trunk door spoiler 891
window, front door 861-862
window, rear door 875-878
windscreen, rear glass 933-943

Appendix

boot lining 1039-1046
cross reference, brakes and transmission 1130-1131
cross reference, car body and equipment 1147-1155
cross reference, electrical equipment 1132-1136
cross reference, engine and gearbox 1104-1114
cross reference, engine environment and misc. 1137-1146
cross reference, engine equipment 1115-1122
cross reference, hydraulics and running gear 1123-1129
cross reference, inner trim and equipment 1156-1168
headlining 1047
headrest, front 998-999
headrest, rear 1000-1001
lining 1022-1038
mats, front 1014-1021
paint colors 1094
rearview mirror 949-950
seat cushion, rear 993-997
seat fixing, rear 991-992
seat frame, front 965-967
seat frame, rear 979-980,985-986
seat padding, front 968-969
seat trim, front 970-978
seat trim, rear 981-984,987-990
seatbelts, front 951-952
seatbelts, rear 953-963
spare wheel bracket 964
sun visor 944-948
sunroof lining 1048-1052
symbols 1095-1103
trim, front 1002-1013
trim, front door 1053-1061,1078-1082
trim, rear door 1062-1077,1083-1091
vehicle type 1092-1093

Freely distributable document. Selling is prohibited.

Legend *How to read the fiche?*

A fiche *set* consists of several fiche *sheets,* each depicting a large number (200 or more) of individual fiche *pages.* Each page has its own *drawing number,* referenced from the cross reference charts in the Appendix.

The left column shows the components with reference numbers while the right column gives model information and the actual descriptions and Citroën part numbers for all referenced, individual parts.

Freely distributable document. Selling is prohibited.

Legend *ORGA Numbers*

The organization number shows the day when your car was actually assembled on the production line. The dealers and parts stores use this number (sometimes also called RP or Replacement Parts number) to identify the various parts and components fitted to your car.

Calculating the production date is very easy using the following table. Locate the largest number in the table still less than or equal to your organization number. To see an example, let's assume the number is **4859.** Then the largest number will be **4832** in the cell **February 1990.** Just subtract this number from your organization number to get the day of the month of the production of your car (in our example, **4859 – 4832=27** yields ***February 27, 1990).***
If you receive the non-existent date zero (this happens when your organization number is not greater than but equal to the number in the table), simply take the last day of the previous month. For instance, for the organization number **5013** the largest number in the table is **5013** in the cell **August 1990,** subtraction results in **zero,** hence the production date is ***July 31, 1990.***
