

# Open Call for a Literary Curator

## *European Night of Literature 2026 – Tel Aviv*

Czech Centre Tel Aviv in partnership with the EUNIC Cluster Israel, is looking for an experienced and creative **Literary Curator** for the upcoming edition of the **European Night of Literature (ENL)**—one of the flagship cultural events promoting European literature in Israel.

### **About the European Night of Literature**

The ENL is a unique cultural evening celebrating contemporary European writing. In one night, translated excerpts from selected European authors are presented to Israeli audiences by prominent actors in Tel Aviv. The event aims to foster cultural exchange, showcase literary diversity, and deepen the dialogue between Europe and Israel.

Each year, we choose a theme that reflects not only diverse narratives but also contemporary trends in literature. In recent years, themes have included Science Fiction, European Childhood, Female Heroes, and European Love. Our goal is to present meaningful and relevant motifs and voices, showcasing a broad spectrum of perspectives. This careful curation ensures that the works we promote resonate with current cultural and social dialogues in Israel.
