

Data Security and Privacy Policy

This privacy policy describes how we treat your personal information and data when you use one of the following add-ons created by DECOY IT s.r.o.:

- Cloud Connectors for Confluence
- Cloud Connectors for Jira
- Cloud Connector to Dropbox
- External Attachments
- Workflow Discovery

Personal Information

Add-ons do not store, retrieve any personal information or any sensitive information.

Data

No data are transmitted from the Confluence or Jira instances, nor from any client browsers to any third-party servers or companies.

Cloud Connectors for Confluence and Cloud Connectors for Jira use external web service to link your cloud storage with Atlassian instance. No data are stored on that web service. Both add-ons stores downloaded files or thumbnails in local storage as cache to increase performance.
