# HOLOFIT GO FOR SAMSUNG GEAR VR

INSTALLATION  
INSTRUCTIONS

# Requirements

## Compatible Samsung phones:

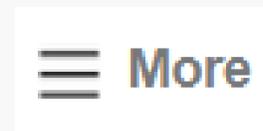

Samsung Galaxy S8, S8+,S9, S9+, S10, S10+, S10e,  
Note 8, Note 9

# 1) DOWNLOAD HOLOFIT FROM OCULUS GEAR VR STORE

1. When you start your Free Trial, email support@holodia.com with subject line "Gear VR Code" and the code will be emailed to you ASAP.

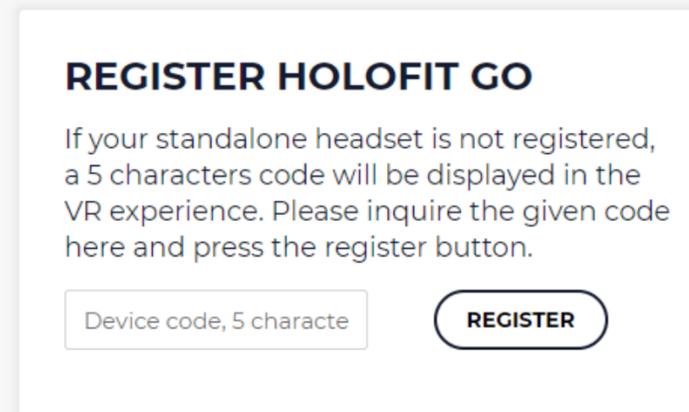

Once you have the code, open the app on your phone.

- A) Select option "More"
- B) Select option "Redeem Code"
- C) Enter your code and click "Submit".
- D) Find HOLOFIT in your Library.

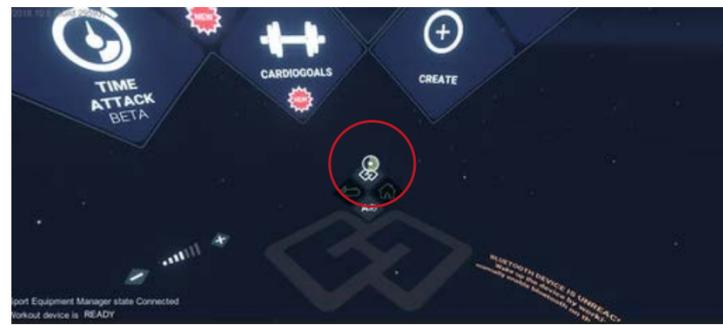

# 2) REGISTER YOUR HEADSET ON [myholofit.holodia.com](https://myholofit.holodia.com)

1. Start HOLOFIT and write down the 5-digit number that appears.
2. Go to [MyHolofit.holodia.com](https://myholofit.holodia.com) and put in this number in the corresponding field.

### 3) CONNECT YOUR HEADSET TO THE FITNESS MACHINE

**NOTE:** If you're using the cadence sensor for your bike, move on to the next page for installation instructions.

A) Start HOLOFIT and you will be automatically taken to the Bluetooth settings.

B) Find the fitness machine in the panel on your right and click it. Just make sure that you enable your fitness machine's Bluetooth connection beforehand.

Your fitness machine is now paired with HOLOFIT Go.

**NOTE:** For the connection to work, make sure that your fitness machine is disconnected from any other devices (i.e. your phone) before you put on the headset.

### 4) INSTALL THE CADENCE SENSOR (OPTIONAL)

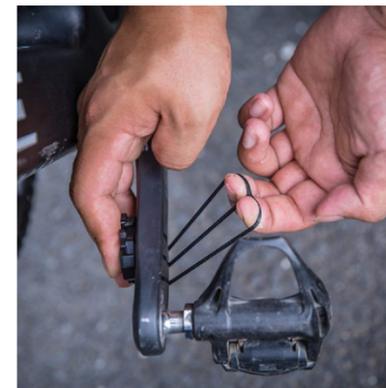

A) Put the battery you received in your package into the sensor.

Open the back panel, put the battery in and close the back panel. The sensor will now start working.

B) Attach the cadence sensor to the inside of one of the pedals. Find a spot where it won't be touching you or the bike while you're cycling.

Hook the sensor on using the elastic bands you received in the package.

C) Finally, connect HOLOFIT to the cadence sensor using Bluetooth. It will automatically be visible in the pairing settings on HOLOFIT. Refer to step 9 for step-by-step instructions.

# ENJOY HOLOFIT
