

## List of accepted ID documents for customers living in Germany

Please note that not all document versions are accepted.

As a fully-licensed and regulated bank, N26 must adhere to strict industry standards and guidelines when it comes to the verification of all potential customers. These vary by nationality, which is why we are only able to conduct the important step of identity verification with the supported documents outlined below.

\*Please note that Residence Permits are only available as a verification document for select nationalities. These must also be issued in Germany to European specifications, and valid for a minimum duration of at least ONE year.
