

List of accepted ID documents						
for customers living in Germany						
Date:	Nov. 2025					
Please note that not all document versions are accepted.						
As a fully-licensed and regulated bank, N26 must adhere to strict industry standards and guidelines when it comes to the verification of all potential customers. These vary by nationality, which is why we are only able to conduct the important step of identity verification with the supported documents outlined below.						
Resident Permits						
Please note that Residence Permits are only available as a verification document for select nationalities. These must also be issued in Germany to European specifications, and valid for a minimum duration of at least ONE year.						
• Since Nov 2021 , we can no longer accept the Sticker version added to passports. If you only have this version of Resident permit, you will need to have it exchanged for a card.						
• Starting from December 2024, if your Resident Permit includes the word "PASS (ERSATZ)" you will no longer need to show your passport in addition to the permit. However, this change does not apply to nationals of Belarus and Russia.						
* Video verification only						
‡ Bank account verification only						
† eID only
