Relief Mosquito Nets

Polyethylene and Polyester Based

The relief mosquito nets offered by us are manufactured as per the world's major NGO's specifications. It is used over a bed or a sleeping area to protect against bites and stings from mosquitoes, flies, and other insects. During pandemics or disasters, the mosquitoes carry dangerous infections, such as Malaria, Dengue, and whatnot, and this net is really helpful for us. These nets are specifically manufactured for use in disaster relief, charity, donations, refugee rehabilitation by humanitarian agencies and their suppliers.
