Figure 1.
Figure 2.
A. Global cortical response complexity

![Graph A](image)

B. Local cortical response complexity

![Graph B](image)

C. Vigilance performance

![Graph C](image)

Figure 3.
Figure 4.

A. Link between global complexity and vigilance performance by age group

B. Link between local complexity and vigilance performance by age group

C. Link between global complexity and vigilance performance by age group at circadian phase -150

D. Link between global complexity and vigilance performance by age group at circadian phase 210
