

Dragi colegi,

Va prezentam in cele ce urmeaza principalele functionalitati ale noii versiuni **IRIS.plus 13.2**:

Cuprins:

1.	Modulul Camper intr-un Nou Look	1
2.	Optimizari in modulul Flight	5
3.	Noutati TUI WOLTERS	6
4.	Lista de rezultate Request vs. Available	7
5.	Criterii de filtrare in modulul Combi Booking	8

1. Modulul Camper intr-un Nou Look

Produsul Camper este disponibil pe urmatoarele destinatii din Europa: Germania, Estonia, Marea Britanie, Elvetia, Scandinavia (Suedia, Norvegia, Finlanda) si Islanda, dar si in destinatii mai indepartate precum USA, Canada si Alaska, Australia si Noua Zeelanda, Africa de Sud si Chile.

Similar cu modulul Cars au fost redesenate atat pagina de Input cat si cea de Rezultate din modulul Camper.

Pagina de Input:

Functia 'Search while you type' ne permite sa efectuam cautarea pe masura ce tastam o parte din denumirea statiei de preluare sau a codului de destinatie. Sistemul ne sugereaza optiunile posibile.

The screenshot shows a booking form with the following fields: Destination / city / station (with a dropdown menu showing 'ham' and suggestions like 'Hamburg (Kayhude) (McRent)', 'HAMBURG', 'DUBLIN', 'MUNICH'); pickup (with a calendar icon and a time selector set to 10:00); return (with a calendar icon and a time selector set to 10:00); adults (set to 2); children (empty); service catalogs (set to 'any'); promo name (empty); promo code (empty); and a blue 'Vacancy' button.

Pe prima linia de input introducem: destinatia, data si ora de preluare precum si cea de predare, dar si gradul de ocupare. Gradul de ocupare se seteaza intr-o maniera diferita fata de modulul de cazare.

Exemplu de input pentru 2 adulti si 1 copil de 5 ani (copiii sunt considerati pana la 12 ani impliniti; dupa aceasta varsta se introduc ca adulti) > introducem numarul copiilor in campul `children` si nu varsta acestora:

Destination / city / station Frankfurt/Main (Friedberg) x	pickup 15.07.2019 12:00	return 29.07.2019 10:00	adults 2	children 1
alternative dropoff station Kalifornien / Sydney / München	service catalogs any	promo name	promo code	Vacancy

Pagina de Rezultate:

- Se afiseaza in zona inferioara a paginii de Input dupa introducerea datelor obligatorii cautarii, prin actionarea butonului Vacancy. Astfel putem ajusta lista de rezultate fara a merge inapoi pe o alta pagina si putem rafina rezultatele utilizand filtrele disponibile in partea stanga a ecranului.

In etapa de ofertare va rugam sa parcurgeti cu atentie toate informatiile din Produkt Info (din submeniul butonului galben de tarif sau click pe denumirea produsului) pentru fiecare produs pe care doriti sa il propuneti turistilor. Va prezentam mai jos cateva informatii deosebit de importante care trebuie avute in vedere:

In sectiunea **Nutzungsbedingungen des Leistungsträgers** (termenii de folosire ai serviciului), urmariti cu atentie informatii despre:

- zilele si orele obligatorii de preluare si predare. Daca nu respecta regula mentionata in conditii turistii vor achita taxe suplimentare.
- ce categorie de permis de conducere trebuie sa aiba soferul (informatii la FUEHRERSCHEINKLASSE).
- indicatii privind efectuarea on-line check-in-ului cu pana la 10 zile inainte de preluare pentru a se reduce timpul de asteptare pentru preluarea camper-ului.

Deosebit de importante sunt si informatiile despre garantie si valoarea fransizei (in cazul in care nu este rezervat pachet TUI Optimal) ce se regasesc in sectiunea **Versicherungen** (asigurari).

Daca oferta prezinta disponibilitate cu confirmare imediata marcata cu simbolul  se poate efectua doar o rezervare ferma. Nu exista posibilitatea de optiune, insa in ziua procesarii rezervarii, daca din diferite motive aveti nevoie de anulara rezervarii, aceasta se efectua fara penalizare pana la ora 20:00.

Bineinteles, pentru ofertele marcate cu simbolul  se pot efectua doar rezervari RQ care odata confirmate, nu se mai pot anula decat cu penalizarile din sistem.

In Shopping cart, unde ajungem cu click pe optiunea aferenta din submeniul butonului galben de tarif din pagina de rezultate, rezervarea se efectueaza intuitiv, formatul fiind cel cu care suntem deja obisnuiti:

2. Optimizari in modulul Flight

- Datele de calatorie pot fi acum modificate si din sagetile aferente campurilor:

A screenshot of a flight search interface. It shows three main fields: 'date' with a calendar icon and the value '15.03.2019', 'airport from' with a dropdown menu showing 'MUC' and a close button 'x', and 'airport to' with a dropdown menu showing 'CUN' and a close button 'x'. There are double-headed arrows between the 'airport from' and 'airport to' fields. Small up and down arrows are visible next to the date and the 'airport to' dropdown, indicating they can be modified.

- A fost reintrodusa posibilitatea de a alege ora pentru decolare sau sosire pentru fiecare segment:

A screenshot of the flight search interface, similar to the previous one, but with an additional field for time selection. The 'airport to' field is 'CUN'. To its right, there is a time selection dropdown showing '10:00' with up and down arrows. Above the time dropdown are two radio buttons, one of which is selected. To the right of the time dropdown is a dropdown menu for 'flight-travel-class.E...'.

- Durata escalei este evidentiata acum mai bine pe linia de oferta:

A screenshot of a flight offer card for Air Europa. The card title is 'Air Europa Líneas Aéreas, S.A.U. TTS Bestpreis (Consolidator Fare)'. It shows a flight on Friday, 15.03. from MUC to MAD to CUN. The flight times are 10:35 - 20:10 with a layover of 16:35. The layover time '1:45' is circled in orange. The fare class is UX. There are icons for baggage, cancellation, and other services.

- Cu mouser over pe simbolul  putem vizualiza itinerariul detaliat de zbor

4. Lista de rezultate Request vs. Available

- Ca regula principala in IRIS.plus lista de rezultate din modulele Accommodation si Package afiseaza doar ofertele cu confirmare imediata.
- Daca insa pentru o anumita cautare sistemul nu identifica variante cu confirmare imediata atunci va afisa o lista de rezultate Request.
- Daca pentru cautarea efectuata exista cel putin un rezultat cu confirmare imediata, atunci lista nu va include si variante Request.

>> Asadar in modulele Accomodation si Package **vom avea intotdeauna fie o lista de rezultate cu confirmare imediat, fie o lista de oferte Request.**

Desigur cautarile specifice cu input de hotel vor genera toate rezultatele pentru acel hotel, indiferent de statusul de oferta.

5. Criterii de filtrare in modulul Combi Booking

In modulul Combi Booking putem initia acum cautari aplicand filtre de Minimum Category si Hotel Brand/Concept

The screenshot shows the 'Expand package' section of the Combi Booking interface. It includes fields for flight details (departure date, duration, outb. flight from/to, return flight from/to) and accommodation details (date from, duration till, Product, Room, board). A dropdown menu for 'hotel brand/concept' is open, showing a list of brands including Robinson, TUI Magic Life, TUI Blue, TUI Sensimar, Best Family, TUI Family Life, Tui Sensatori, 1-2-Fly Fun Club, SplashWorld, SuneoClub, RIU, and Greccotel. The 'min category' dropdown is also visible, showing options like 'any', 'simple (1*)', 'standard (2*)', 'middle class (3*)', 'comfort (4*)', 'deluxe (5*)', and 'deluxe (6*)'.

Daca sunt neclaritati sau aveti nevoie de informatii suplimentare va stam cu drag la dispozitie.
