

Transfer funds from your FxPro Vault to your trading account(s)

Transfer funds from your trading account(s) to your FxPro Vault quickly and easily.

You transfer your funds plus any profit back to your FxPro Vault. You can now decide whether to reinvest or withdraw all or part of your balance to your original funding source.

Withdraw funds from your FxPro Vault to your bank account, credit card or other payment method.

If you decide to withdraw all or part of your funds from your FxPro Vault, you must use the same method used to deposit funds initially.

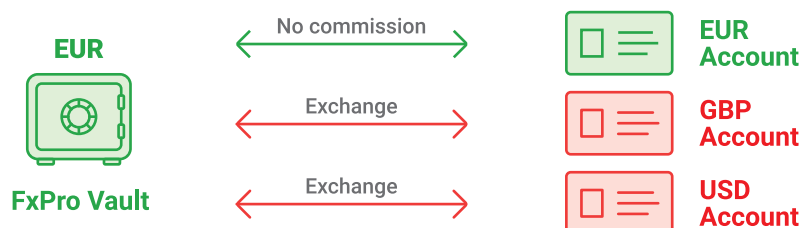

Your FxPro Vault is the hub of your account funding management and a valuable risk management tool.

By keeping your money safe and secure in your Vault, you are limiting your risk. You can choose to invest as much as you are willing to risk, keeping the remainder safe in your FxPro Vault.

Multiple trading accounts, multiple currencies.

Transfers between a Vault and trading account of different currencies (e.g. EUR-GBP) will be subject to the prevailing conversion rate of the currency pair.

Risk Warning: Contracts for Difference ('CFDs') are complex financial products that are traded on margin. Trading CFDs carries a high level of risk since leverage can work both to your advantage and disadvantage. As a result, CFDs may not be suitable for all investors because you may lose all your invested capital. You should not risk more than you are prepared to lose. Before deciding to trade, you need to ensure that you understand the risks involved taking into account your investment objectives and level of experience. Past performance of CFDs is not a reliable indicator of future results. Most CFDs have no set maturity date. Hence, a CFD position matures on the date you choose to close an existing open position. Seek independent advice, if necessary. Please read FxPro's full 'Risk Disclosure Statement'.
