

Teacher's instructions:

Nude photos (Upper secondary level)

Lesson material | Copyright Someturva 2023

Teacher's instructions:

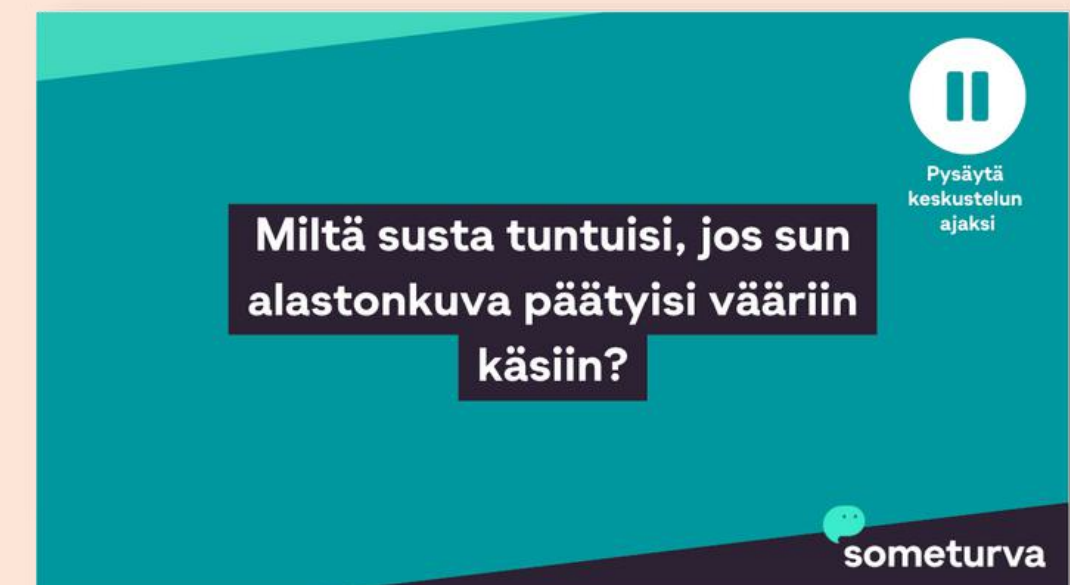

- 1 Watch Someturva's case example video "Alastonkuvat" ([link to video](#), English subtitles, 5,5 minutes)

The video includes discussion questions.

You can pause the video during the discussion.

- What are your thoughts on the example?
- How would you feel if your nude photo ended up in the wrong hands?
- What should you do if you see someone's nude photo spreading on social media?
- How could the situation in the case example be resolved?

Please note: the video discusses the criminal offences that apply if the nude photo is of a minor. If someone shares a nude photo of someone over 18 without permission, it can be a crime called "Non-consensual dissemination of a sexual image" (in Finnish "*seksuaalisen kuvan luvaton levittäminen*").

Teacher's instructions

- ② **In pairs or small groups, create posters raising awareness about online harassment that you can put on the classroom wall.**
 - Pairs/groups can be formed functionally by asking students to queue up according to their birthday and dividing them by the queue order.
 - Finally, each group can present their poster.
 - Equipment needed: computer and software for making a poster (e.g. Word or PowerPoint) or A4 paper and coloured pencils.
- ③ **Students take turns telling in one sentence what they learned from the lesson.**

Teacher's instructions:

If your school has Someturva

- At the end of the lesson, remind the students about Someturva and the school activation code.
- Allow time at the end of the lesson for the students to activate and familiarise themselves with the service.
- You can find the school-specific activation code in Someturva's material folder: log in to Someturva with your school's professional activation code, open the menu in the top right corner and tap "Resource bank".

Someturva is available to students and teachers if the municipality has purchased the service for them.

Thank you!
