## Discussions for the Provisions of the Funding and Grants Working Group

0. We discussed our responsibilities, what in general we're going to do to attract, retain, help projects built on Waves. We agreed that we need some kind of a pipeline with different steps on what we want to do. We're going to prepare a general vision on the funnel, where some of the steps are out of our scope but we will share our vision with the ecosystem.

1. We decided that we will have 2 types of calls:

- a) Bi-weekly calls about projects and ideas. Every second Tuesday at 6 pm CET.
- b) Monthly calls about legal things documents, voting, etc.

2. We will make the whole funding and support process transparent by creating a public Trello board with all the incoming applications, our and R&D working group ideas/requirements, which were approved by the Board. Also, we will prepare on the Trello board agendas for the next calls as separate lists.

3. We agreed that we have to agree on another date for a call about Working group provisions. We have to find a date before 20th July. I'd propose a call on July 16 at 6 pm CET. Here is the draft, you can leave your comments there: [https://drive.google.com/file/d/1p4\\_jnVsTPdHEbP5pkqAqZNpgCghl4nXZ/view?usp=sharing](https://drive.google.com/file/d/1p4_jnVsTPdHEbP5pkqAqZNpgCghl4nXZ/view?usp=sharing)
