CAVEATS:

10 JUNE 2019 UPDATE:

The administrative level 3 (posto) feature for “Mieze” (formerly MZ0117, in its own “Pemba” district) has been corrected to belong in the “Metuge” district and has been P-coded MZ010902.

25 APRIL 2019 UPDATE:

Administrative level coded line file added to the shapefile zip file.

The source database did not include the Maputo City districts. These were added from SALB boundaries by OCHA, as per Census 2007 districts.

The boundary between the Mapai (MZ002904074) and Chigubo (MZ002905076) administrative posts is depicted differently in a file recently obtained from the government of Mozambique. This in turn affects the boundary between the Chicualacuala (MZ002904) and Chigubo (MZ002905) districts. Both districts are within Gaza (MZ002) province.
