

Fuel Management Module (FMM)

**Lightweight
Long Range
Durable & Safe**

Features and Benefits

Durable

Powdercoated steel and aluminum structure with bolted construction for durability and serviceability

Compact

SAE -8 (1/2" ID) Parker Parflex high pressure hose (5,000 psi working pressure) with spring strain relief at fittings to prevent damage/fatigue

Easy to install and service

Stainless steel Swagelok ferrule fittings throughout internal systems

Backed by warranty

1-year warranty

Fast Fill

Fills up to 2x faster than competing CNG fuel systems

Performance

Integrated Fuel Management Module (FMM) with standard Blue iQ® Smart Gauge and Marathon™ Regulator

Innovation

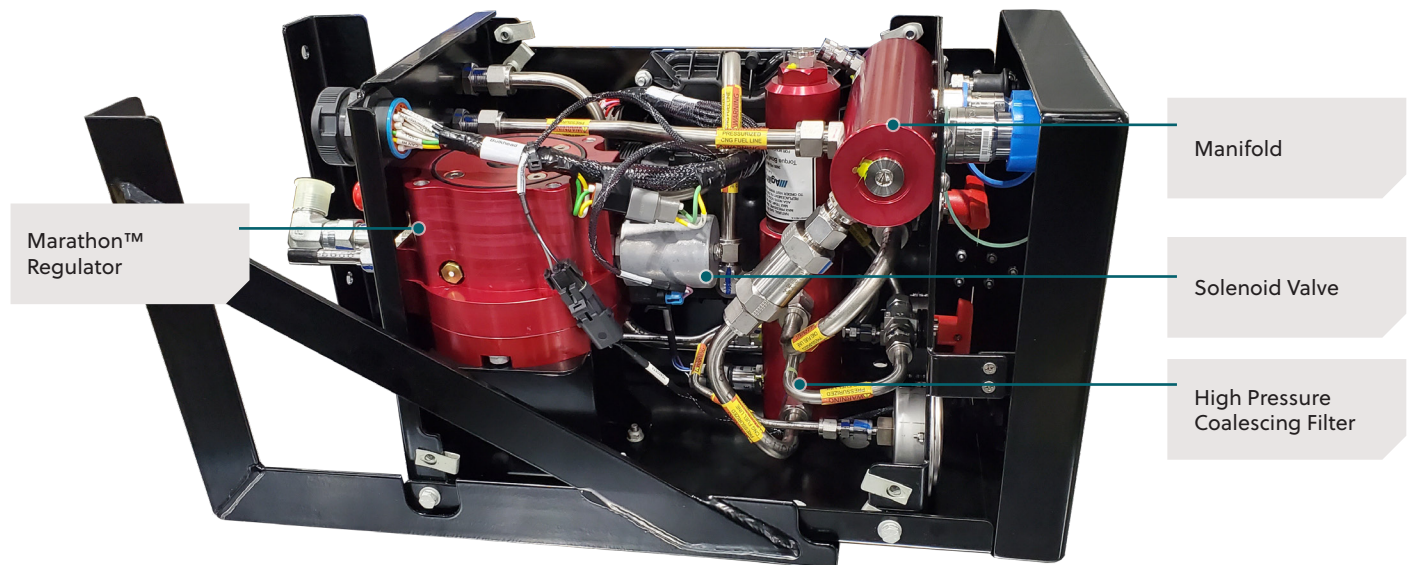

Easily configured for a wide range of chassis and system variations

Safe

Ignition disconnect fuel caps provide drive away protection

Fuel Management Module

- All components integrated into an aluminum box designed specifically for the OEM's bus body and chassis
- Designed for ease of service in the field
- Fast fill and slow fill receptacle
- Can be configured to support additional fuel receptacle locations on the vehicle
- High pressure fuel gauge
- Low pressure fuel gauge
- De-fueling receptacle
- Manual shut off valve
- High pressure CNG manifold
- Check valve
- Fuel filter
- Solenoid shut off valve
- Marathon™ Regulator
- Pressure transducer
- Low pressure switch
- Ignition disconnect switch
