

**Lightweight
Long Range
Durable & Safe**

Features and Benefits

Capable

The UK's first long-range bio-CNG tractor capable of 44-tonne operations

Quiet

Approximately 50% quieter than a diesel HGV

Low maintenance

No diesel particulate filter, no SCR

Engineering

4.0m wheelbase 6x2 tractor includes mini-mid lift axle capable of 44-tonne operation

Lightweight

Equipped with two ProRail® 30 bio-CNG fuel systems utilizing lightweight Type 4 composite cylinders

Capacity

Total bio-CNG capacity of 180 kg when operated at 250 bar

Low emissions

Much cleaner than Euro VI diesel when running on biomethane: 85% less well-to-wheels greenhouse gas – high-mileage HGV saves more than 150 tons CO2 equivalent per year. 60% less NOx, 80% CH4, 99% less particulate matter

Long range

Anticipated range of approximately >350 miles, with another 700 miles of range possible when combined with trailer-mounted bio-CNG fuel storage system
