

PKS edge clip

- For installation on edges with 1-3mm thickness
- For cabel area 4.0-6.0mm2 (diameter 6.0-7.5mm)
- 2 cables can be mounted in the clip
- Excellent choice for installations of solar panels

BENEFITS

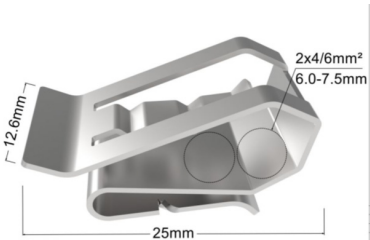

- Exceptional durability compared to cable ties in UV-exposed environments, eliminates the risk of complaints due to failure of cable ties after long exposure of UV-light
- Quick and easy assembly of the clips and of cable in the clips
- No need of hand tools during installation and eliminates time to cut cable ties ends, hence reducing installation time
- Eliminates the risk of cut injuries caused by sharp edges on cable tie ends

TECHNICAL INFORMATION

- Material**
Stainless steel, SUS304
- Temperaturere range**
-80°C to +500°C.
