

Product Technical Data Sheet:

STAINLESS STEEL CABLE TIE MOUNT

Description

A durable and strong cable tie mount, designed to compliment the Partex range of stainless steel cable ties. Available with either an M4 or M6 fixing hole to accommodate a wide range of fixing methods. We recommend the use of stainless steel screws.

Application

For indoor and outdoor use, fully weather and UV resistant.
Ideal for hazardous environments.
Fire and corrosion resistant.
Where security and durability are critical.
Can be used for fixing pipework, conduits and bundles of cables.

Specification

Material: 316 Stainless Steel
Working Temperature: -80°C to 538°C
Flammability: Non-Flammable

Supplied in packs of 50
