

+ SPECIFICATION

- + ProMark T1000 is a successor to our most popular profile printer the T800. Complemented with new options, such as Polish and Russian font, and menu with Partex article numbers, is a perfect solution for installers and producers of control cabinets and panel boards.
- + Low weight, small size, as well as inbuilt memory allow you to operate the printer on site. The library of electrical symbols enables you to print objects such as Ω , etc.
- + An additional asset will be the menu with Partex products indexes. After selecting the type of a profile, T-1000 will automatically choose the position of text and the depth of the cut.
- + The backlit display and QWERTY keyboard allows entering additional symbols very quickly. The advanced projects can be sent to T-1000 via the new, English version of WinSign software, which enables you to import Excel files with the "copy and paste" function.

+ PROFILES TO PRINT

- + P0 and P0Z profiles with diameters of 1.3 – 5.5 mm (P0Z is the halogen-free version)
- + PHZ – round, halogen-free, heat shrinkable tubes with diameters 2.4 – 6.4 mm before shrinking
