

SEASTERS

We are the women's football club from the beautiful city of Odesa in Ukraine.

We are looking for Partner!

We need your Support!

Odesa is: humor, architecture, outstanding talented people, beaches, sea... **Sea**

Women in Odesa are: beauty, lightness, inspiration, strength, purposefulness, community... **Sisters**

Seasters is a combination of the boundlessness of the Odesa sea and the power of female sisterhood.

Seasters is a new women's football club whose goal is to develop women's football in Odesa.

In modern Ukraine, women can do anything. So, we can do everything on the football field! In each of our matches, we always score one GOAL more, because after each game we participate in and organize various charity events to support of Ukrainians and bring our common Victory closer!

If football is more than a game, then our game is more than just football!

We are Seasters, and there are eleven of us on the field. But we are sisters, and there are millions of us 🦊

We want to play and win.
Every day we become stronger.
Together.

We will be grateful to you for any support provided. Thank you!
