Ideal for families, friends, or couples looking to start the New Year with a serene Arctic winter escape. Discover the northern lights, unwind in exclusive igloos, and immerse yourself in the tranquility of Isbreen The Glacier.

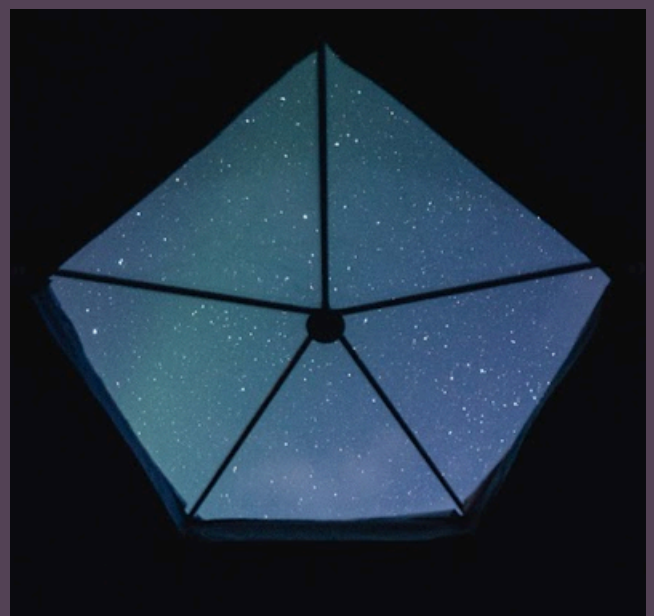

Embark on a Norwegian adventure, celebrating New Year with Arctic experiences. The retreat features five igloos nestled in the natural beauty of the North. Enjoy exclusivity at the property for you and your loved ones, with the heart of the experience being the 1507 ft<sup>2</sup> double igloo, including a sleeping igloo and lounge igloo - perfect for relaxation and quality time together.

Isbreen The Glacier rests in a secluded snowy wilderness, far from city lights, offering an ideal setting to witness the northern lights, which are visible on average 200 nights a year. Experience this natural spectacle from your bed under the igloo's skylight, unwind in your private jacuzzi, and gather around a crackling bonfire to share stories with your welcoming hosts.

Experience an Arctic adventure during the New Year, immersed in local activities. From crafting your own snow cave and learning survival skills from Arctic experts, to joining a local captain on a fjord safari to observe sea eagles, orcas, and humpback whales - each activity is tailored to the season. Feel the thrill of a sled dog tour across pristine, snow-covered landscapes, led by seasoned local mushers, or slip into a survival suit for an Arctic floating adventure, drifting on icy waters while marveling at the vast Arctic skies and peaks alongside your knowledgeable local guide and fellow adventurers.

As midnight approaches on New Year's Eve, celebrate with a special Arctic flair. Indulge in a delicious family-style meal before gathering for festive moments around the crackling campfire and toasting under the sparkling Arctic sky with champagne or mulled wine. With luck, witness the awe-inspiring northern lights, a natural phenomenon that may complement a unique fireworks display, adding an extra layer of magic to the joy and excitement of the occasion while respecting the natural environment and local wildlife.

Take the chance to experience unique Norwegian activities and create unforgettable memories with your loved ones at Isbreen The Glacier during the Arctic New Year. Celebrate nature, adventure, and genuine hospitality, promising an exceptional start to the year ahead - a journey unlike any other.

### Did you know?

In Northern Norway during the New Year, the Polar Night phenomenon means the sun remains below the horizon throughout the day. This creates a unique atmosphere of prolonged darkness or dim light, which adds a magical touch to the celebrations. It is a special way to welcome the New Year in a setting that is truly distinct and unforgettable.
