

Rabbit Puppet - sheet 1

1. Colour in sheet 1 and 2.
2. Cut along the outside solid lines of both sheets.
3. Fold along all of the dotted lines and lay sheet 2 flat.
4. Paste glue over the section labelled "glue" and fold backwards along the vertical dotted line.
5. Fold the section labelled "A" backwards along the vertical dotted line so it is on top of the glued section - press into place until the glue has dried (this will create a pocket).
6. Now fold inwards along the central dotted line and then backwards along the last two dotted lines.
7. Fold along the dotted line of the teeth and ears.
8. Glue or tape the teeth to the section labelled "B" and the ears to the top of the head.
9. Place your fingers into the paper pocket at the top of the puppet and your thumb into the pocket at the bottom. Open and close your hand to open and close the rabbit's mouth.
