17:00 - 20:00	Drinks	Free evening	E.g. Visit Simplificator	Pizza & Hacking	Demo day & party

- Input lectures in the morning, Hands-on coding sessions in the afternoon. The coaches:attendee ratio is min. 1:4.
- Buzzword Bingo is your chance to ask your questions and understand tech trends such as AI, chatbots etc.
- Optional program such as drinks, yoga and and visits to relevant industry leaders.
- Thursday and Friday: Work on your own or a general project and get support from coaches.
- Friday evening: On demo day, you'll present your project and learnings to family & friends and we'll celebrate.
- Installation event beforehand to be ready when the week starts
- Healthy, tasty lunch with the group, so you can focus, fully enjoy the week and spend time with the other participants. All day: Coffee, tea and snacks

What you'll learn

- Get an overview of programming concepts and technologies
- Connect the dots between design, frontend, backend and databases
- Go through the process of creating a website and web application
- Get an overview of: HTML, CSS, Javascript, Ruby and Rails
- Learn how developers work, the tools they use and their jargon
- Learn how to find answers to your tech questions in the future

100% Satisfaction Guarantee

We want you to get value out of the program. That's why we measure our programs' success by your increased competence & confidence. That's why we offer a 100% satisfaction guarantee.

Here's how it works:

If after completing the program, you don't feel more confident talking with developers, we'll gladly refund you your entire course fee. We'll ask for your completed homework and make sure you attended all the campus days, to make sure you gave it a go. We also ask what didn't work for you so we can learn and improve.

If these conditions are met, you'll get a swift and complete refund.
You can make a request for a refund until 30 days after graduation from our courses.
