OWNR  
WALLET

Cryptocurrency  
purchase gateway

# How OWRN purchase gateway works

Payment gateway allows your clients to buy cryptocurrencies with bank cards right on your platform. The cryptocurrency is sent directly to client's wallet after the client is verified by OWRN

Clients can purchase any assets supported on your platform even if these assets are not presented in OWRN Wallet software

With our competitive purchase rates, your clients will get all possible benefits from using your platform

**BITFINEX** 

OWNR Wallet provides such a payment gateway to customers of Bitfinex - one of the world's largest cryptocurrency exchanges

# Compliance and security

OWNR provides a PCI DSS\* compliant payment gateway to guarantee secure online transactions. Only 3DS and 3DS 2.0 transactions are accepted. All suspicious transaction activity is monitored and reported to you in a timely manner

\*Payment Card Industry Data Security Standard

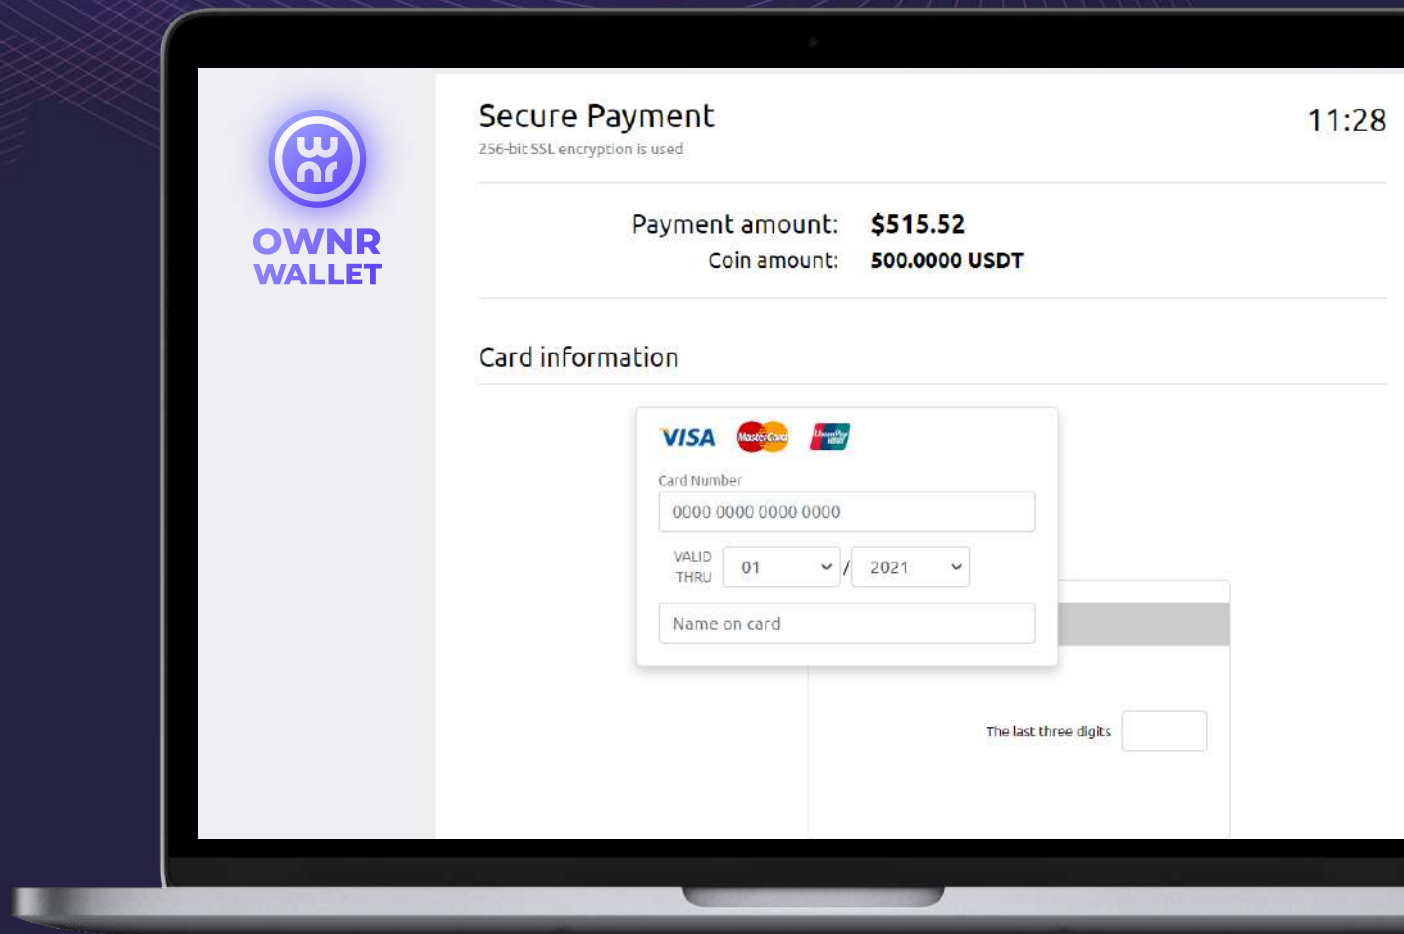

OWNER  
WALLET

Cryptocurrency  
purchase gateway

# Advantages

- Purchase fee from 5 to 3%
- Wide geographic coverage of accepted bank cards
- Key payment systems supported: Visa, Mastercard, UnionPay

# What is cryptocurrency purchase API

With OWNR API solution, your clients will be able to make a purchase using your platform or widget on your website. OWNR special form can be customized to streamline your clients' experience (specific credentials, stats, buttons and so on)

# Advantages

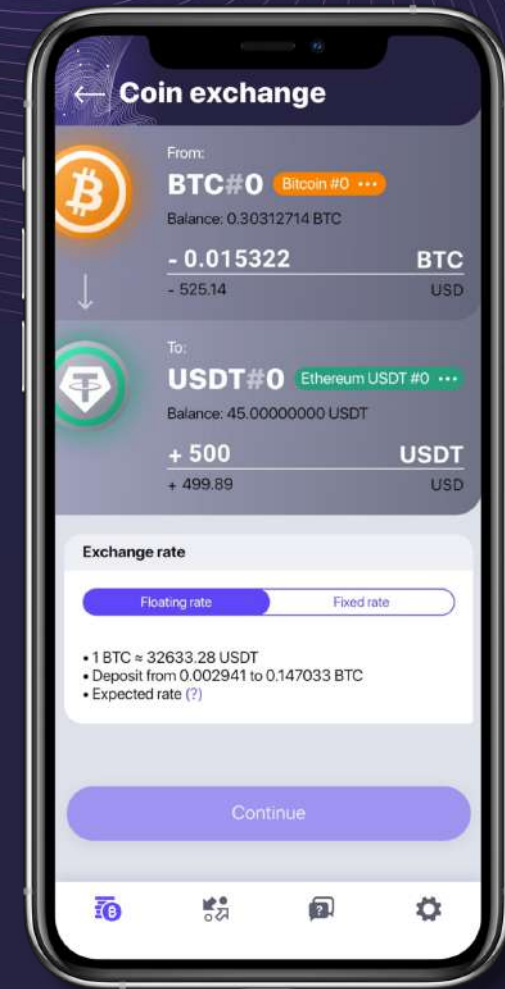

- Free integration. You don't pay for it except for the cases when additional configuration and assistance with integration are needed
- You can customize markup on your side
- Wide range of assets supported including top 10 CoinMarketCap\* coins
- Visa, Mastercard and UnionPay supported globally
- Your assets are safeguarded in OWRN non-custodial system

\*coinmarketcap.com, one of the most popular price-tracking websites for cryptoassets

# Built-in cryptocurrency exchange

- In-house developed engine for crypto exchange
- Key assets available for exchange: BTC, ETH, USDT, DASH, ZEC, LTC.  
This list is expanding
- Swifter and smoother exchange process
- Fees are adjusted automatically  
for the exchange to complete faster

You can use OWRN exchange API as an additional or major liquidity channel for your business. Integrate OWRN API for your users to exchange crypto right on your platform, or leverage it to replenish your cryptocurrency reserves promptly. But for the standard advantages of crypto-to-crypto exchange available in the wallet software, OWRN exchange API for [businesses](#) has some additional benefits

## Advantages

- Markup is set on the partner's side
- Large amounts of cryptocurrency are exchanged almost instantly
- Most of top CoinMarketCap coins supported
- Negotiable exchange rates
- Real-time monitoring of transaction statuses

## Assets supported

BTC, ETH, USDT, DASH, ZEC, LTC and other assets

# Platform integration

Users can customize network fees. Such adjustments can be made to temper sudden spikes of the blockchain network congestion, or whenever a user wants to speed up the transaction

## Floating rate option

The exchange rate may vary during the exchange. If you choose the floating rate, the final amount will not be fixed. Instead, it will be adjusted dynamically to the rate change

## Fixed rate option

Exchange rate and final amount are fixed, but transaction fees may vary

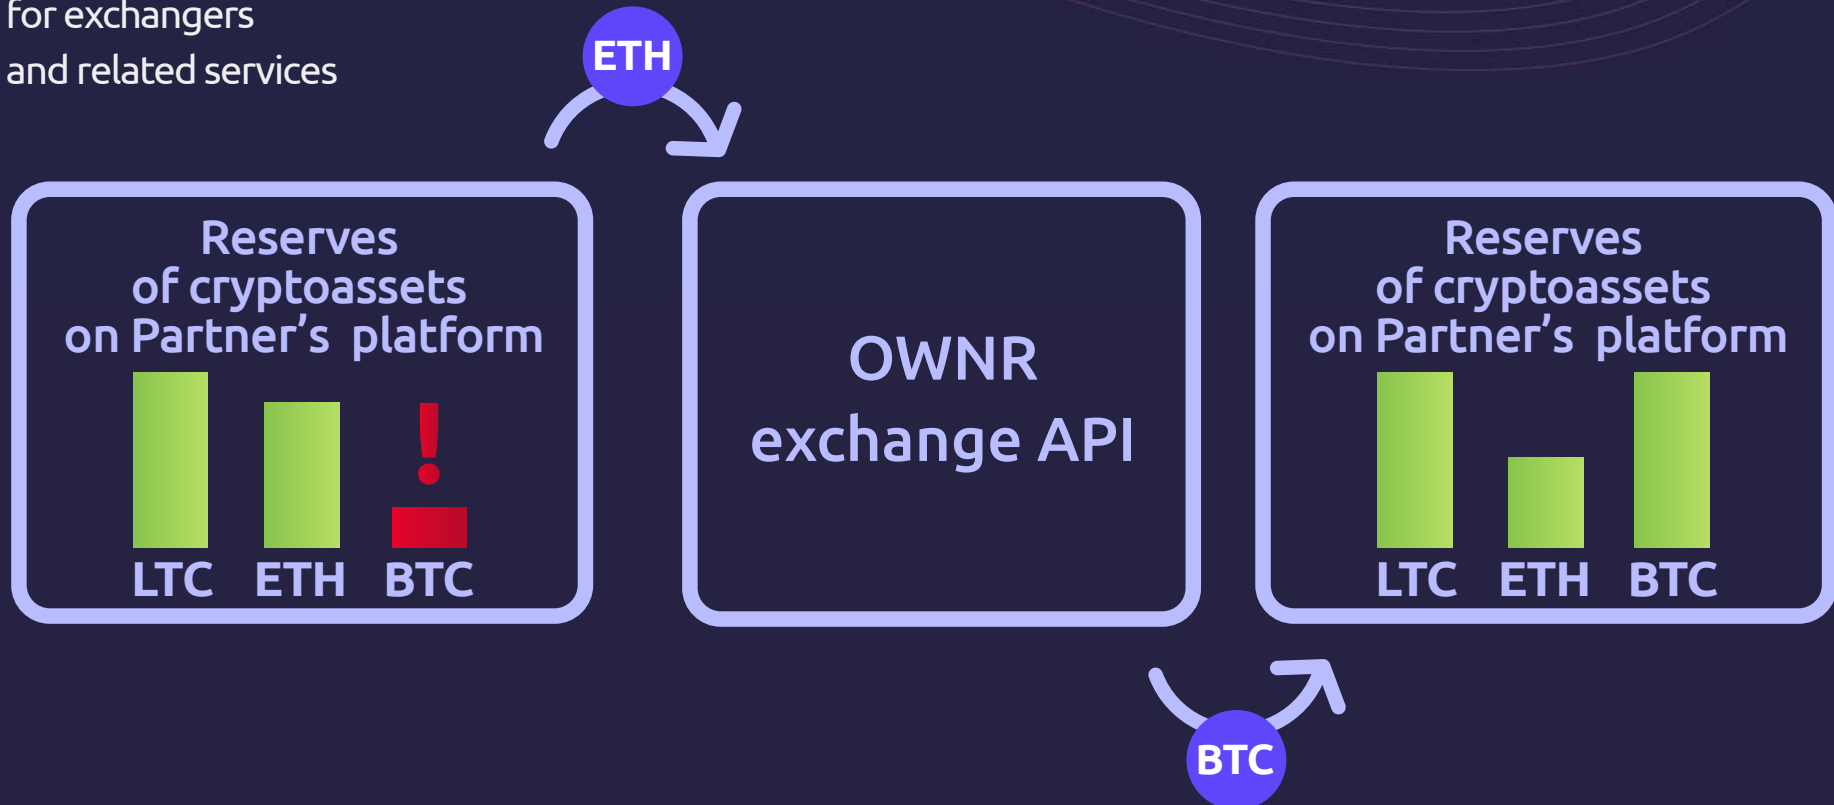

# Replenishing reserves with OWRN API

Reliable liquidity channel  
for exchangers  
and related services

# Manage crypto and fiat in one app

- Plastic card
- Virtual card
- Gift card

## Advantages

- Make online and offline payments
- Replenish the balance in OWRN Wallet by converting crypto to fiat on the card balance instantly
- Connect to  Apple Pay
- Withdraw fiat from 2M ATMs worldwide
- Transfer funds to your prepaid Visa card from other cards or vice versa

\* Basic delivery options meaning ordinary post office services

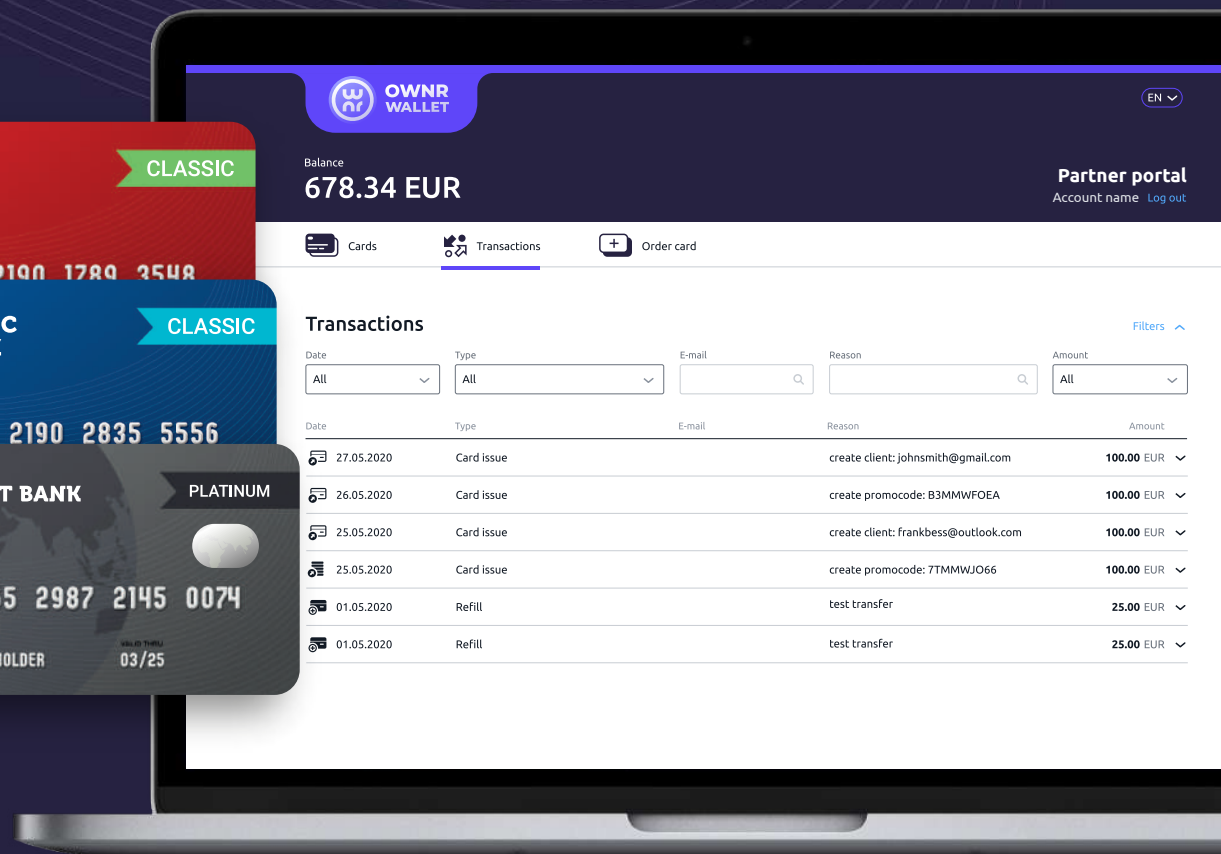

OWNR  
WALLET

Visa prepaid  
cards for businesses

# Visa prepaid cards for businesses

OWNR Wallet offers a partner portal for those who need to order a significant number of cards

In Partner Portal, you will be able to order several cards at once, follow issuance updates, and manage finances

# Features

## Fees

As an OWRN Wallet Partner, you can set up several types of fees to be included in the final fees for your clients

### Customizable fees

Payment card issuance (all types)	e.g. Plastic card basic price EUR 30 + Partner markup
--------------------------------------	--

Card balance top up	To be discussed with OWRN
---------------------	---------------------------

And more

## Works great for:

- Remuneration payouts to geographically distributed employees
- Remuneration payouts to outsource agents, specialists
- Cashing out profit for traders
- As a payment tool for digital marketing agencies

# Card management for businesses

To gain access to Partner Portal, you will have to go through a standard onboarding process and sign a partner agreement on card issuance and servicing

## Card ordering

You can generate promo codes for your clients to use them to pay for cards issuance. Each client has to pass a quick verification providing an ID in international format and a number of documents by request

You can set up an API to generate promo codes

## Delivery

The card will be delivered to the address provided by the client. An option to deliver a batch of cards is discussed individually with Partner. The delivery usually takes up to 2 weeks. The card can be delivered to almost every country in the world except for restricted countries

# Virtual Visa cards

- The issuance fee is 5 EUR. Other fees and limits are identical to standard Visa prepaid cards
- Verification process for virtual cards is similar to the one for plastic Visa prepaid cards
- Instant issuance. Card is available to use right after successful verification
- Connect to  Apple Pay

# Prepaid gift cards

Instant delivery cards

You can present gift cards  
with the topped up balance  
to your clients

- No verification is required
- The limit is under 150 EUR
- The price is 5 EUR per card
- No refill option

# Cryptocurrency acquiring API

Along with Payment gateway solution OWNR Wallet provides automated tool to accept payments made in crypto on your website or platform. More and more institutions provide such an option for their clients following global technological and market trends

With OWNR crypto acquiring tool, you can be sure that you receive only verified assets from your clients. So you can use it as an additional method of accepting payments

# Advantages

- Accepting top 10 CoinMarketCap cryptocurrencies as a payment method on your website
- Payments made in crypto are processed by OWNR and then transferred to your cryptocurrency account
- Cryptocurrency transactions are verified using special tools like AMLbot so that your funds are totally compliant with KYC/AML regulations

Purchase: **\$160.00**

Total: **0.005 BTC**

Pay with Bitcoin

# Original Credit Transactions

Original Credit Transaction (MoneySend) means that you can sell crypto to OWNR and receive fiat assets to your card. OCT payouts are supported by most of the banks. Prepaid cards do not support OCT globally

OWNR supports OCT payments for Mastercard. 3-5% rates are applied. Each customer a subject to KYC/AML verification

# Advantages

- Payouts in EUR, USD, GBP, RUB and other fiat currencies
- Global coverage
- API integration available
- Competitive fees from 3% to 5% depending on the card issuer bank and country
- Blockchain transactions are verified with special tools to ensure compliance

# Over-the-counter deals

With its financial licenses and experience, OWRN can serve as a trusted intermediary to process OTC transfers securely and quickly when you buy or sell large volumes of crypto

	Incoming	Outgoing
Fiat assets	SWIFT, SEPA (EUR, USD, GBP)	
Crypto assets	BTC, ETH, USDT (ERC-20), LTC and many other coins	

Options to sign an agreement with a legal entity for crypto-to-fiat and vice versa exchange are available

- Quick KYC procedure is required for each customer
- Each transaction has an invoice and a receipt
- Fees depend on transaction volume and may be negotiated
- Any volumes for OTC transactions can be considered

# Affiliate Programs\*

- Invite new clients, get profit from their operations
- Monitor the activity and payouts in your account
- Annual and lifetime affiliate programs

User buys

OWNR earns

Affiliate gets %

## General Terms

- Income from transactions made in different currencies is eventually converted into USD
- All transactions made by invited users in the OWNR Wallet mobile or PC app, or on the website are taken into account
- Terms and rates can be discussed individually

These terms are preliminary as of 20.10.2021
