FOOD

With this rooftop terrace and it's magical view over Stockholm we'd like to offer you and all-year-round urban nature experience.

Fun fact: Look north and you'll see the rooftops of Röda Ber- gen, a district that was once designed by the very same archi- tect who constructed our building celebrated Sigurd Lewerentz.

Wondering about our name? Arc is a part of a curve, referring to the soft sine waves in the metal that is covering parts of our walls.

EAT KOREAN LF 595
