Demo

Problems

Network lag

Hard to sketch a solution

Time zones

Mixed OS hot keys

and the usual problems

Not a goal,
but a tool

Not talking about why, it's just good ;-)

We don't have the time...

Catch us later if you want to talk about Why

Why remote

How

Remote Pair Programming

5 Mbit/s has been verified

Why

Distributed teams

Save on travelling

"pair-with-me" trend

Network

Breaks   Tools

Problems are solved better in small groups

Knowledge has legs – it walks home every day

Ping pong

Far sight navigator

Red Green Refactor

Better software through faster feedback
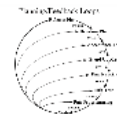

Teaching experience

One student – Ok solutions

Two students – Better

Three students – Can work

Four students – have never worked

Fun

Quality   Problem solving

Knowledge managment

Remote Pair Programming
