QCTO – First Industry Update for 2026 and PFTC – AGM 29 JANUARY 2026

21 January 2026

Dear Stakeholders,

As we begin 2026, we would like to share our first update for the year.

We have yet to agree on a date with various stakeholders and the QCTO on a meeting date to finalise the final industry QCTO involved process (the review of the QAS Addenda). This meeting is likely to take place towards the end of this month or some time in February 2026. Our first session which took place late last year was productive. We received a positive input from attendees and great guidance from the QCTO. The meeting did not unfortunately reconvene on 15 January 2026 as previously scheduled due to the unavailability of several key stakeholder representatives.

On another positive note, our next Annual General Meeting **AGM** takes place on the **29th of January 2026 at 14h00**. This meeting is very important and requires maximum attendance by members. We urge every member to attend. We will be presenting our financials and will give further updates on industry related matters of concern.

We wish you, your teams, and your families a prosperous new year with many blessings.

Warm regards,
