Further Update on Firearm Training

21 May 2026

Good day Training Providers and Members,

The PFTC's attorneys has been in communication with the legal representatives of the Minister of Higher Education, SASSETA, the QCTO and SAQA.

Although there remains confusion as to who is going to grant an extension for the qualification and for how long, the PFTC has received undertakings that qualification 50480 will in some way be extended.

In turn through its attorneys, the PFTC has indicated that it will hold back on any legal action until after the 31st of May 2026 because that is the date that the Minister has indicated by which a decision to extend will be made.

Further updates will follow as and when more information becomes available.

Kind regards,
