

Buddy

Your smart toilet assistant

I P E E

Messy kids, sloppy husbands, so much to do, so little time... Living together with housemates is a true challenge. All of this sometimes leaves its marks. Fortunately, there is a solution.

Meet Buddy.

Buddy never forgets to flush.
Even after your kids or partner.

Nothing more annoying than discovering that the person before you forgot to flush. Buddy gets that. Whenever you need a time-out in the smallest room in the house, Buddy makes sure it's spick and span. Always.

Save the planet. And your wallet.

Whatever your message, Buddy gets it. Thanks to its Smart Detect technology, Buddy adapts the amount of water needed to flush. This smart toilet assistant knows you care for the environment, and now, it helps you to take care of your wallet too.

Standing use

Buddy can easily tell if you're a stand-up guy. Whenever a man has to take a quick leak, Buddy rinses the toilet afterwards with a small amount of water. Just don't forget to put the toilet seat back down.

Just take a seat

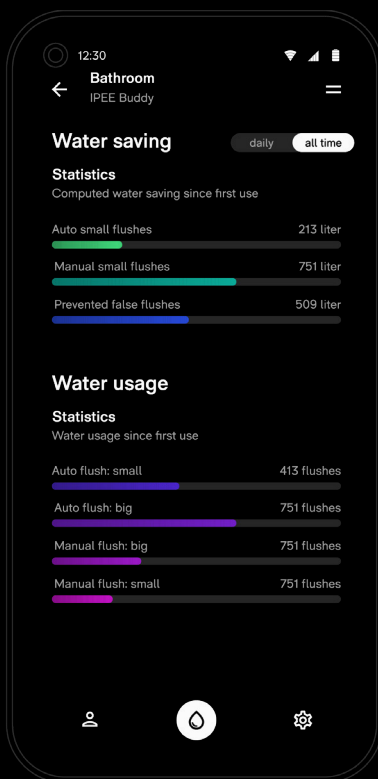

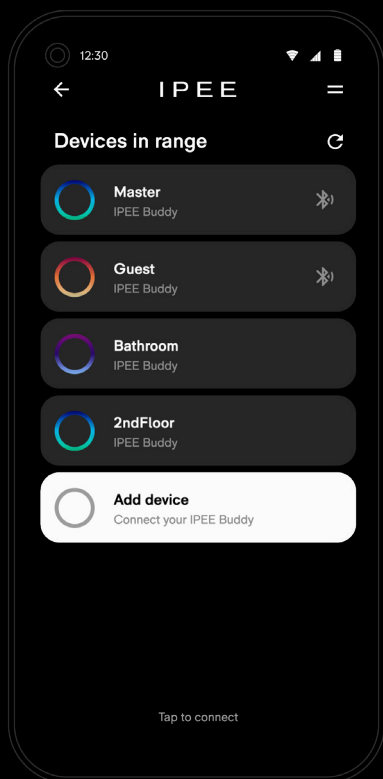

Number one or number two? Buddy's doing the math for you. Even when you're sitting down, Buddy's smart enough to figure out what you're up to.

Buddy will never leave you in the dark. NightGuide will show you the way.

Your sleep is sacred. But when nature calls, you have to go. Even at night. Thanks to Buddy, you will no longer be blinded by the bright bathroom light. As NightGuide casts a subtle indirect light to safely guide you towards the throne, you can stay in your drowsy slumber.

Connect with your Buddy. IPEE app.

Connect your smart toilet(s) with your smartphone and enjoy Buddy's borderless and discrete friendship. Choose your preferences, discover your water consumption and how will help you to economize. Through this app you will keep Buddy up to date. New features, better algorithms and new color theme's. Updates are free, forever.
