LETTER OF SUPPORT

Association "BORKA – For each new day" is a non-government and nonprofit organization, founded due to the overwhelming need to support citizens, patients, their families and health organizations fighting against all types of cancer in The Republic of Macedonia.

NGO Borka activities are orientated in actualizing opportunities in fight against all types of cancer, educate the community & raise awareness for a healthy population. Also inform the community about their patient rights & the steps that should be taken for a timely intervention to enable appropriate treatment. With the aim to raise the awareness that cancer can be a potential curable disease in Republic of Macedonia. Following the best practice from other countries, respecting specific situation in Macedonian health system, through different education forms, informing, supporting & interaction, NGO "Borka" aims for a decrease in the number of cancer patients, as well as increase the number of cancer survivors.

Therefore, we would like to support the initiative of the project TrusteDoctor , the platform that would help cancer patients , providing them an easy way to get second opinion and information about other treatment options.

Sincerely,

Mrs. Biba Dodeva

President
