1.6 The total amount of the salaries and similar benefits provided to the senior management including General Manager, and Assistant General Managers: 1 January – 31 March 2026: TRY 12.251.251 (1 January – 31 March 2025: TRY 7.234.139).

1.7 Criteria set for the allocation of investment income and operating expenses (personnel, management, research and development, marketing and sales, outsourcing utilities and services and other operating expenses) in the financial statements: The Company allocates investment income and personnel, administrative, research and development, marketing and sales, outsourced benefits and services expenses and other operating expenses related to the technical segment in accordance with the "Circular on the Procedures and Principles of the Keys Used in the Financial Statements Being Prepared In Accordance With the Insurance Accounting Plans" dated 4 January 2008 issued by the Republic of Türkiye Ministry of Treasury and Finance ("Ministry of Treasury and Finance") and Circular No. 2010/9 dated 9 August 2010 amending the circular.

1.8 Information on the financial statements as to whether they comprise an individual company or a group of companies: The financial statements include the financial information of the Company and are disclosed in Note 2.2.

1.9 Name or other identity information about the reporting entity and the changes in this information after previous reporting date: Name and other identification information of the Company are disclosed in Notes 1.1, 1.2 and 1.3.

1.10 Subsequent events: The financial statements for the accounting period of 1 January – 31 March 2026 were approved by the Company management on 17 April 2026.

TÜRKİYE HAYAT VE EMEKLİLİK A.Ş.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Preparation

2.1.1 Information about the principles and the special accounting policies used in the preparation of the financial statements

The Company prepares its financial statements by the Insurance and Private Pension Regulation and Supervision Agency ("IPRSA") established by the Insurance Law No,5684 ("Insurance Law") published in the Official Gazette dated 14 June 2007 and numbered 26552 and the Presidential Decree dated 18 October 2019. It prepares according to published regulations the insurance legislation regarding financial reporting before the establishment of IPRSA and the initiation of regulatory activities regarding the insurance sector was published by the Ministry of Treasury and Finance.

The financial statements are prepared in accordance with the Insurance Chart of Accounts included in the communiqué issued by the Treasury regarding the Insurance Chart of Accounts and Prospects, published in the Official Gazette (No:25686) dated 30 December 2004 (Insurance Accounting System Communiqué No:1) and announcement of new account codes in the Insurance Account Plan dated 27 December 2011 and numbered 2011/14. Content and the format of the financial statements prepared and explanations and notes thereof are determined in accordance with the Communiqué on Presentation of Financial Statements published in the Official Gazette numbered 26851 dated 18 April 2008 and the Communiqué on the New Accounting Codes and Presentation of Financial Statements published in the Official Gazette dated 31 May 2012 and numbered 2012/7.

Company accounts its operations according to the "Regulation on Financial Reporting of Insurance, Reinsurance and Pension Companies" issued on 14 July 2007 and effective from 1 January 2008, operations of the Company shall be accounted for in accordance with the Turkish Accounting Standards ("TAS") and the Turkish Financial Reporting Standards ("TFRS") as issued by the Public Oversight Accounting and Auditing Standards Authority ("POA") and other regulations, communiqués and explanations issued by the Republic of Türkiye Ministry of Treasury and Finance regarding accounting and financial reporting issues. With reference to the Republic of Türkiye Ministry of Treasury and Finance No. 9 dated 18 February 2008, "TAS 1- Financial Statements and Presentation", "TAS 27- Consolidated and Unconsolidated Financial Statements", "TFRS 1 - Transition to TFRS" and "TFRS 4- Insurance Contracts" have been scoped out of this application. In addition, the insurance companies are obliged to comply with the Communiqué on the Preparation of the Financial Statement of Insurance and Reinsurance Companies and Pension Companies dated 31 December 2008 and published in official gazette numbered 27097 effective from 31 March 2009, the Company does not need to prepare consolidate financial statement as there is no subsidiary controlled by the Company.

POA, with its "Announcement on Inflation Adjustment of Financial Statements of Audited Companies" dated 23 November 2023, announced that the financial statements of companies applying Turkish Financial Reporting Standards for the annual reporting period ending on or after 31 December 2024 should be presented as adjusted for the effects of inflation in accordance with TAS 29, "Financial Reporting in Hyperinflationary Economies" ("TAS 29") and that the institutions or organizations authorized to regulate and supervise in their fields may determine different transition dates for the implementation of TAS 29. In accordance with Circular No. 2024/32 dated 6 December 2024 issued by SEDDK, it has been determined that inflation accounting shall not be implemented by insurance, reinsurance, and pension companies in the year 2025 either. In this respect, no inflation adjustment has been made in accordance with TAS 29 while preparing the financial statements dated 31 December 2025. Following this development, in accordance with circular number 2025/33 dated December 25, 2025, the SEDDK (Insurance, Reinsurance and Pension Companies Board) decided that insurance, reinsurance and pension companies should not apply inflation accounting.

TÜRKİYE HAYAT VE EMEKLİLİK A.Ş.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.1 Basis of Preparation (Continued)

Comparative Information and Restatement of Prior Period Financial Statements

The financial statements of the Company are prepared in comparison with the previous period in order to allow the determination of financial status and performance trends. In order to comply with the presentation of the current period financial statements, comparative information is revised when necessary and significant differences are disclosed.

New and Amended Turkish Financial Reporting Standards

The accounting policies adopted in the preparation of the financial statements for the period ended 31 March 2026 are consistent with those applied in the previous year, except for the adoption of new and amended Turkish Financial Reporting Standards (“TFRS”) and TFRS Interpretations effective as of 1 January 2026, which are summarized below. The effects of these new and amended standards and interpretations on the Company’s financial position and performance are explained in the relevant paragraphs.

a) Amendments that are mandatorily effective from 2026

Amendments to TAS 21 Lack of Exchangeability

The amendments contain guidance to specify when a currency is exchangeable and how to determine the exchange rate when it is not. Amendments are effective from annual reporting periods beginning on or after 1 January 2026.

The aforementioned standard, amendments and improvements do not have any significant effect on the Company's financial position and performance.

b) New and revised TFRSs in issue but not yet effective

The Company has not yet adopted the following standards and amendments and interpretations to the existing standards:

TFRS 17	<i>Insurance Contracts</i>
Amendments to TFRS 17	<i>Initial Application of TFRS 17 and TFRS 9 Comparative Information</i>
TFRS 18	<i>Presentation and Disclosures in Financial Statements</i>
TFRS 19	<i>Subsidiaries without Public Accountability: Disclosures</i>
Amendments to TFRS 9 and TFRS 7	<i>Classification and Measurement of Financial Instruments</i>
Amendments to TFRS 9 and TFRS 7	<i>Power Purchase Arrangements</i>
Annual Improvements	<i>Annual Improvements to TFRSs – Volume 11</i>
Amendments to TFRS 19	<i>Subsidiaries without Public Accountability: Disclosures</i>

TFRS 17 Insurance Contracts

TFRS 17 requires insurance liabilities to be measured at a current fulfillment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. TFRS 17 has been deferred for insurance, reinsurance and pension companies for a further year and will replace TFRS 4 Insurance Contracts on 1 January 2027.

(Amounts expressed in Turkish Lira (“TRY”) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.1 Basis of Preparation (Continued)

New and Amended Turkish Financial Reporting Standards (Continued)

Amendments to TFRS 17 Insurance Contracts and Initial Application of TFRS 17 and TFRS 9 – Comparative Information

Amendments have been made in TFRS 17 in order to reduce the implementation costs, to explain the results and to facilitate the initial application.

The amendment permits entities that first apply TFRS 17 and TFRS 9 at the same time to present comparative information about a financial asset as if the classification and measurement requirements of TFRS 9 had been applied to that financial asset before. Amendments are effective with the first application of TFRS 17.

TFRS 18 Presentation and Disclosures in Financial Statements

TFRS 18 includes requirements for all entities applying TFRS for the presentation and disclosure of information in financial statements. This standard is effective from annual reporting periods beginning on or after 1 January 2027.

TFRS 19 Subsidiaries without Public Accountability: Disclosures

TFRS 19 specifies the disclosure requirements an eligible subsidiary is permitted to apply instead of the disclosure requirements in other TFRS Accounting Standards. This standard is effective from annual reporting periods beginning on or after 1 January 2027.

TFRS 9 and TFRS 7 Amendments – Classification and Measurement of Financial Instruments

The amendments address matters identified during the post-implementation review of the classification and measurement requirements of TFRS 9 Financial Instruments. Amendments are effective from annual reporting periods beginning on or after 1 January 2026.

Amendments to TFRS 9 and TFRS 7 Power Purchase Arrangements

The amendments aim at enabling entities to include information in their financial statements that in the IASB’s view more faithfully represents contracts referencing nature-dependent electricity.

Amendments a Annual Improvements to TFRSs – Volume 11

The pronouncement comprises the following amendments:

- TFRS 1: Hedge accounting by a first-time adopter
- TFRS 7: Gain or loss on derecognition
- TFRS 7: Disclosure of deferred difference between fair value and transaction price
- TFRS 7: Introduction and credit risk disclosures
- TFRS 9: Lessee derecognition of lease liabilities
- TFRS 9: Transaction price
- TFRS 10: Determination of a ‘de facto agent’
- TAS 7: Cost method

Amendments are effective from annual reporting periods beginning on or after 1 January 2026.

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.1 Basis of Preparation (Continued)

New and Amended Turkish Financial Reporting Standards (Continued)

Amendments to TFRS 19 *Subsidiaries without Public Accountability: Disclosures*

The amendments cover new or amended Turkish Financial Reporting Standards that were not considered when TFRS 19 was first issued. Amendments are effective from annual reporting periods beginning on or after 1 January 2027.

The Company evaluates the effects of these standards, amendments and improvements on the financial statements.

2.1.2 Functional and presentation currency

The accompanying financial statements are presented in TRY, which is the Company's functional currency.

2.1.3 Rounding of the amounts presented in the financial statements

The financial information presented in TRY has been rounded to the nearest TRY values.

2.1.4 Basis of measurement used in the preparation of the financial statements

The accompanying financial statements are prepared on the historical cost basis as adjusted except for the financial assets held for trading, available for sale financial assets, investment property, owner occupied property of the Company and investments in associates which are stated at their fair values.

2.1.5 Accounting policies, changes in accounting estimates and errors

There is no change or misstatement in the current period accounting policies and estimates. Accounting estimates are stated in Note 3.

2.1.6 Comparative information

Where necessary, comparative information has been reclassified so that provide the compatibility to the presentation of financial statements for the current period.

2.1.7 Business combinations

It is explained in Note 2.1.1.

TÜRKİYE HAYAT VE EMEKLİLİK A.Ş.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Consolidation

The Company does not have any subsidiaries in the scope of the “Communiqué on the Preparation of the Financial Statements of Insurance, Reinsurance and Pension Companies” published in Official Gazette dated 31 December 2008 and numbered 27097 which is effective from 31 March 2009.

2.3 Segment Reporting

The Company does not perform segment reporting in the scope of “IFRS 8 - Segment Reporting” since it is not a listed company.

2.4 Foreign Currency Transactions

The functional currency of the Company is Turkish Lira. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the translation at the period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the profit or loss statement.

Changes in the discounted values of foreign currency denominated financial assets classified as available-for-sale are recognized in the income statement and all other changes in the fair value of these assets and the resulting exchange differences are recognized in the related accounts in equity. Foreign exchange differences arising from the translation of non-monetary financial assets and liabilities are considered as part of the fair value changes and those differences are accounted for in the accounts in which the fair value changes are accounted for.

2.5 Tangible Assets

All tangible assets except for buildings for operational use are carried at cost by deducting accumulated depreciation. Properties for operational use are recorded at their fair value on the basis of a valuation made by an independent valuation expert less subsequent accumulated depreciation. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset, and the net carrying amount is restated to the revalued amount.

Increases in the carrying amounts arising on revaluation of property, net of tax effects, are credited to ‘Other Capital Reserves’ under shareholders’ equity. Any subsequent decrease in value offsetting previous increases in the carrying amount of the same asset is charged against the funds in the equity; and all other decreases are charged to profit or loss. At each reporting date, the difference between depreciation based on the revalued carrying amount of the asset and the depreciation based on the asset’s original cost is transferred from ‘Other Capital Reserves’ to retained earnings.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the costs or revalued amounts of tangible assets. Depreciation rates and estimated useful lives are below:

	Estimated Useful Life (Year)	Depreciation Rate (%)
Investment properties	40	2,5
Fixtures and installations	3-15	33-7
Motor vehicles	5	20
Other tangible assets (including leasehold improvements)	5	20
Tangible assets acquired through leasing	12	8-9

If there are indicators of impairment on tangible assets, a review is made in order to determine possible impairment and as a result of this review, if an asset’s carrying amount is greater than its estimated recoverable amount, the asset’s carrying amount is written down immediately to its recoverable amount by accounting for an impairment provision. Gains and losses on disposals of property and equipment are included in other non-operational income and expenses accounts (Note 6).

TÜRKİYE HAYAT VE EMEKLİLİK A.Ş.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.5 Tangible Assets (Continued)

Right of Use Assets

The Company accounts for its rights-to-use assets on the date the financial lease contract commences (for example, as of the date the relevant asset is available for use). The right of use assets is calculated by deducting the accumulated depreciation and impairment losses from the cost value. In case the financial leasing debts are revalued, this figure will be corrected.

Right of use assets are measured at cost comprising the following:

- (a) The amount of the initial measurement of lease liability,
- (b) Any lease payments made at or before the commencement date less any lease incentives received and
- (c) Any initial direct costs and restoration costs.

Unless the transfer of ownership of the asset to the Company at the end of the lease is reasonably finalized, the Company depreciates its asset right to use until the end of the useful life of the underlying asset. Right of use assets are subject to impairment assessment.

Lease Liability

At the effective date of the lease, the Company measures its lease liability based on the present value of the lease payments that have not been made at that date. Lease payments are discounted using the implicit interest rate in the lease if it can be easily determined, or using the lessee's incremental borrowing rate if the implicit interest rate cannot be easily determined. The weighted average of the incremental borrowing rates used by the Company for its leases as of 31 March 2026 is 45% annually.

2.6 Investment Property

The lands and buildings, which are obtained either to earn income or for capital appreciation or for both, instead of either for the Company's operations or for management purposes or for sale during the regular operations, are classified under investment properties. Investment properties are reflected in the financial statement at fair value. Fair value changes in investment properties are recognized under "Income from Land, Land and Buildings" under investment income in the income statement (Note 7).

2.7 Intangible Assets

Intangible fixed assets include the computer software acquired. Intangible fixed assets are recorded at their acquisition cost and are subjected to depreciation with the straight-line depreciation method over their estimated useful lives after the date of acquisition. In case of impairment, the registered value of intangible fixed assets is brought to their recoverable value. The depreciation periods of intangible fixed assets vary between 1 and 3 years (Note 8).

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.8 Financial Assets

The Company classifies and accounts for its financial assets as “financial assets held to maturity,” “Available-for-sale financial assets”, “Financial assets at fair value through profit or loss”, and “Loans and receivables (Receivables from main operations)”. Receivables from main operations are the receivables arising from insurance and pension operations and they are classified as financial assets in the financial statements.

Purchases and sales of the financial assets are recognized and derecognized based on “Settlement date.” The classification of the financial assets is determined by the Company management at inception by considering the purpose for which the financial assets are acquired.

Available for sale financial assets

With financial assets and securities available for sale; It consists of the investments that the company has no significant influence on and classified under the "Related Securities " item in the balance sheet (Notes 9 and 11).

The said assets are valued at their fair values in the periods following their recording. In case the price formations that constitute the basis of fair value do not occur within active market conditions, it is accepted that the fair value cannot be determined reliably and the discounted value calculated according to the effective interest method is considered as the fair value. In case the securities representing a share in the capital classified as available-for-sale financial assets are traded in organized markets and / or their fair value can be determined reliably, such as valuation studies carried out by independent valuation companies, they are reflected in the records with their fair values. In cases where the assets in question are not traded in the organized markets and their fair values cannot be determined reliably, they are reflected in the financial statements at their cost after the provision for impairment is deducted.

Unrealized gains and losses arising from changes in the fair values of available-for-sale financial assets and representing the differences between the amortized cost of the relevant financial assets calculated with the effective interest method and their fair values are shown in the "Valuation of Financial Assets" account under equity items. In case of disposal of financial assets available for sale, the said amount is transferred to the income statement.

At each balance sheet date, the company evaluates whether there is objective evidence about the impairment of its financial assets. The significant and long-term decrease in the fair value of stocks classified as available for sale below their cost is considered as an indicator of impairment. The depreciation expenses recorded in the income statement regarding capital instruments cannot be reversed from the income statement in the following periods.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.8 Financial Assets (Continued)

Held-to-maturity financial assets:

Held-to-maturity financial assets are intended to be held until their maturities and including ability to funding, provided the circumstances to be held to maturity, with fixed or determinable payments and with fixed maturity, and apart from loans and receivables, when recognized, not recognized as financial assets at fair value through profit or loss and not available for sale financial assets. These financial assets initially recognized at the acquisition cost and is considered fair value. The fair value of held-to-maturity financial assets is determined on transaction cost of these financial assets or market price of similar financial instruments. Held-to-maturity financial assets are carried at amortized cost. Contribution income related to held-to-maturity financial assets is reflected in the income statement. The Company does not allocate any impairment on short-term market fluctuations, provided that there is no risk of collection of the securities representing the borrowings classified as held-to-maturity financial assets. If there is a risk of collection, the amount of the impairment is the difference between the book value of the financial asset and the value of the cash flows expected from the financial asset, if any, amortized based on the original effective rate of return. Currency protected deposit are also classified under held-to-maturity financial assets in line with the relevant insurance legislation.

Loans and receivables (Receivables from main operations):

Loans and receivables are financial assets which are generated by providing money or service to the debtor. Loans and receivables are initially recognized at acquisition value and subsequently measured at cost. Fees and other charges paid in relation to assets obtained as guarantee for the above-mentioned receivables are not deemed as transaction costs and charged as expenses to the income statement.

The Company accounts for a provision for its receivables based on evaluations and estimations of the management. The mentioned provision is classified under “Provision for due from insurance operations” on the balance sheet. The Company sets its estimations in accordance with the risk policies and the principle of prudence by considering the structure of current receivable portfolio, financial structure of policyholders and intermediaries, non-financial data and economic conditions.

Law article No: 323, the Company accounts for a “Provision for doubtful receivables under legal follow-up” regarding its doubtful receivables which are not included in provision for due from insurance operations stated above, by considering the amount and nature of these receivables. This provision is classified as “Doubtful receivables from main operations” on the balance sheet under non-current asset group.

Provision for doubtful receivables is deducted from the related year’s income. Recoveries from doubtful receivables previously provided for are treated as a reduction from related provision and accounted for in the “Other provision expense” account. Such receivables are written off after all necessary legal proceedings have been completed (Note 12).

FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.8 Financial Assets (Continued)

Financial assets whose fair value difference is reflected in the income statement (Financial assets held for trading):

Financial assets measured by the Company with their fair values and reflected in the income statement are classified under the account items "Financial assets for trading" and "Financial investments whose risks belong to life policyholders" in the financial statements.

Financial assets measured at their fair value and associated with the income statement are acquired to profit from short-term fluctuations in prices and similar factors in the market, or regardless of the reason for the acquisition, part of a portfolio that aims to generate profit in the short term is based on financial instruments and the Company's performance according to its fair value. It consists of financial instruments that it evaluates and classified in this category at the time of purchase for this purpose.

Financial assets whose fair value difference is reflected in the income statement are initially recorded at their fair values and are valued with their fair values in the following periods. If the price formations that constitute the basis of fair value do not occur under active market conditions, it is accepted that the fair value is not determined reliably and the "discounted value" calculated according to the effective interest method is considered as the fair value. Gains and losses resulting from the valuation are included in the income statement. The fair value, interest or sales income and exchange difference income and expenses obtained from the trading financial assets in the Company portfolio are shown in "Investment Income".

Fair value, interest or sales income and exchange difference income and expenses related to the financial assets whose risks are included in the portfolio of the insured are recognized in the account item "Life Branch Investment Income" (Notes 11 and 26).

2.9 Impairment of Assets

Subjects related to impairments of assets are included in the notes of the accounting policies for the related assets.

Total mortgage or collateral amounts on assets are explained in Note 43, doubtful receivables provision for overdue and not yet due receivables in Note 12.1, rediscount and provision expenses for the period are explained in Note 47.5.

2.10 Derivative Financial Instruments

Derivative financial instruments of the period are detailed in Note 13.

2.11 Offsetting of Financial Assets

Financial assets and liabilities are offset and the net amount is presented in the balance sheet when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted by the Turkish Financial Reporting Standards, or for gains and losses arising from a group of similar transactions included in the Company's trading activities.

2.12 Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, demand deposits held at banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

Cash and cash equivalents included in the statements of cash flows are as follows:

	31 March 2026	31 December 2025
Banks (Note 14)	2.941.887.126	2.256.105.907
Bank guaranteed credit card receivables with maturities less than three months (Note 14)	2.182.271.000	1.887.684.571
Total	5.124.158.126	4.143.790.478
Less – Interest accruals (-)	(115.343.675)	(64.085.736)
Less - Blocked bank deposits (Notes 14 and 43) (*)	(612.890.411)	(562.904.110)
Total	(728.234.086)	(626.989.846)
Total cash and cash equivalents	4.395.924.040	3.516.800.632

(*) The change in the said blocked bank deposits is included in the other cash inflows/outflows from operating activities in the cash flow statement.

2.13 Share Capital

As of 31 March 2026, and 31 December 2025, the share capital and ownership structure of the Company is as follows:

	31 March 2026		31 December 2025	
	Share Amount	Share	Share Amount	Share
Name of Shareholders	(TRY)	(%)	(TRY)	(%)
TVF Finansal Yatırımlar A.Ş.	4.631.823.857	92,64	4.631.823.857	92,64
Türkiye Sigorta A.Ş.	368.176.143	7,36	368.176.143	7,36
Paid-in capital	5.000.000.000	100	5.000.000.000	100

The Company is not subject to the registered capital system.

Other information about the capital of the company is explained in Note 15.

2.14 Insurance and Investments Contracts - Classification

The insurance contracts are those contracts that transfer insurance risk. The insurance contracts protect the insured against the adverse economic consequences of loss event under the terms and conditions stipulated in the insurance policy.

The Company mainly issues policies under personal accident, risk and saving life insurance branches and individual pension contracts:

i) Risk policies:

Annual life insurance

Annual life insurance provides one-year guarantee for the risks that the policyholder can be faced with. This insurance covers all risks that the policyholder can be exposed to by providing natural death coverage along with the additional coverage such as accidental death, permanent or temporary disability and critical disease during the policy term. Annual life insurance policies cover risks, it does not include savings and does not include right of surrender and policy loans. It can be sold as a group or individual.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.14 Insurance and Investments Contracts - Classification (Continued)

i) Risk policies: (Continued)

Annual life insurance

The insurable age range for this product group is set at 18-75 years. For policyholders with additional coverage for critical illnesses, the insurable age range will be 18-60 years. A group contract opened for products in this group must have at least 10 participants. Candidate policyholders in this product group must have an employment relationship with the relevant institution through the Social Security Institution (SSI), such as a partnership or board membership. Premiums vary according to age, gender, coverage, risk class, and the number of people in the group.

Credit Life Insurance

Credit Life Insurance provides coverage against adverse events (death or disability) during the loan period. In the event of an adverse occurrence during the loan term, the outstanding loan balance is settled by the credit life insurance. Coverage typically includes death only. These are pure risk products without any savings component. Policies can be issued annually or for longer terms. For this product group, the insurable age range is 18-75 for annual policies (excluding agricultural insurance), and 18-74 for long-term or renewable policies. For agricultural insurance, the insurable age range is 18-70 for annual policies, and 18-69 for renewable or long-term policies. For long-term and annual renewable policies, the sum of the insured's age and the insurance term cannot exceed 76 (71 for agricultural loans). Premiums vary based on age, gender, loan amount/coverage, and health-related risk assessment.

Voluntary Life Insurance

Voluntary Life Insurance provides coverage against risks faced by the insured for one year or longer. In addition to the main coverage for natural death, it can include accidental death, permanent and temporary disability, and critical illness coverage, protecting the insured against risks throughout the policy term. This product is not linked to any credit. Voluntary Life Insurance policies are risk-based, do not include a savings component, and do not provide a borrowing facility. They can be sold individually or to groups. For annual policies in this product group, the insurable age range is 18-70, and 18-60 if critical illness coverage is included. For long-term policies, the insurable age range is 18-69. For annual, annual renewable, and long-term policies without critical illness coverage, the sum of the insured's age and the policy term cannot exceed 71. Premiums vary based on age, gender, coverage, and health-related risk assessment.

Return Premium Life Insurance

Return Premium Life Insurance may include coverage for Death, Accidental Death, Critical Illness, and Living Benefit (Return of Premium). The Living Benefit is the main coverage. The offered coverage may vary depending on the selected insurance product. Some products may include one or more additional coverages, such as Death, Accidental Death, and Critical Illness, alongside the main coverage. Premiums and coverage amounts are denominated in USD. For the Living Benefit coverage, if the insured is alive at the end of the policy term (no death benefit has been paid), all required premiums have been paid under the Insurance Contract and Special Conditions, and the policy has not been terminated during the insurance term, the total premiums paid over the term are refunded to the policyholder. The insurable age range for this product group is 18-69, and the sum of entry age and insurance term cannot exceed 71.

Personal Accident Insurance

This insurance provides coverage against risks arising from accidents. In addition to accidental death, it may include accidental disability, unemployment or temporary disability, and accident-related medical expenses. The insurable age range is 18-70.

ii) Private Pension Operations:

As of 31 March 2026, there are 48 pension investment funds founded by the Company. (31 December 2025: 48 units).

TÜRKİYE HAYAT VE EMEKLİLİK A.Ş.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.14 Insurance and Investments Contracts - Classification (Continued)

ii) Private Pension Operations: (Continued)

Private pension system receivables mainly consist of capital advances made to pension funds, fund management fee receivables from pension funds, and receivables from participants and the custodian company. In the "fund operating deductions receivables from funds" account; the Company keeps funds operating expense deductions receivables deriving from funds management that could not be collected on the same day. Advances allocated to pension investment funds established by the Company are kept in "capital advances made to pension investment funds" account and all of the advances were collected. Receivables based on funds from the custodian company on behalf of participants are kept in "receivables from Custodian Company" account. At the same time, this amount is disclosed in private pension system payables account as "payables to participants for sold funds".

As of 31 December 2025, and 31 December 2024, the amounts mentioned above are as follows:

	31 March 2026	31 December 2025
Receivables from the Custodian Firm	516.828.751.270	486.316.813.473
Payables to participants	516.828.751.270	486.316.813.473

In addition to debts to participants account explained in the prior paragraph, private pension system payables also include accruals calculated for management expenses of pension funds, temporary account of participants and payables to private pension intermediaries. Accruals calculated for management expenses of pension funds consists of accruals of payables to portfolio management company due to the pension investment funds established by the company. Temporary account of participants includes the contributions of participants that have not yet been transferred to investment and the amount that will be transferred to other companies or paid to participants after making certain deductions following the sales of the funds of the participants in the cases of transfers to other companies or departs from the system.

The "Regulation Amending the Regulation on the Private Pension System" published in the Official Gazette dated 25 May 2015 and numbered 29366 entered into force on 1 January 2016. With this regulation, irregular payment and mandatory expenses related to the fund were defined and it was stated that the management expense deduction could be collected from the participant's savings with the contributions paid to the private pension account, and also, if the payment was suspended, an additional management expense deduction could be taken from the participant's savings during the interruption period. Limitations were imposed on deductions according to the years the contract was in the system.

With the summarizing provisions of the said regulation regarding deductions, the final state of the deductions is as follows:

In the first five years of the contract, the total amount of deduction that can be made within the scope of the entrance fee and management expense deduction cannot exceed the fixed amount corresponding to 8.5% of the Monthly Gross Minimum Wage valid in the first six months for each year. After the fifth year of a contract is completed, no management expense deduction, including interruption deduction, can be made and entry fee is collected within the scope of the relevant contract. Since the regulation does not affect the Company receivables accrued before the effective date, the Company reserves its rights regarding the receivables accrued but not collected prior to 1 January 2016. In the calculation of the time spent in the contract, all the periods spent in the relevant contract starting from the date of the first contract's entry into the system according to the transfer data regarding the contract information are considered. If it is established by transfer before 1 January 2016, the deduction upper limits are calculated regardless of the deduction amounts in the previous companies. If it is established by transfer after this date, it will be subject to calculation by considering the deduction amounts in the previous companies. Except for retirement benefits or mandatory reasons such as death, disability, or company liquidation, if a participant leaves the Company before the end of the 5-year contract period, the portion of this fixed amount corresponding to the period up to the end of the fifth year of the contract, which has not been collected by the company until the date of departure, may be deducted by the Company from the participant's individual retirement account savings as a deferred entry fee. In this context, the deferred entry fee should reflect the minimum amount defined in the plan, calculated by subtracting all deductions made from the participant until the date of departure from the total upper limit of deductions that can be made over the 5-year period.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.14 Insurance and Investments Contracts - Classification (Continued)

The provisions regarding the entrance fee included in the contracts that entered into force before 1 January 2016 and are still in effect as of this date remain valid until the termination of the contract, limited to the amount of the deferred entrance fee in the above statement. However, the deferred entrance fee applied within the scope of the relevant contracts cannot exceed the time and amount limit specified above. According to the provisions of the Regulation, after the completion of the fifth year of the contract, the entrance fee cannot be deducted for the relevant contract. The same provisions are also valid for contracts that have no deferred entry fee and entered into force after 1 January 2016.

The Company reserves the right to collect a deduction amount in the contract, provided that it is in accordance with the collection method defined in the contract, as long as the contract remains in force, provided that it is clearly stated in the information and documents regarding the pension contract and the pension contract. In this context, if there is an amount that cannot be deducted from the savings related to the amount of management expense deduction defined in the plan in a five-year period, as long as the contract remains in effect after five years, these deductions will be deducted from the savings as cumulative when the savings are sufficient.

The total deduction rates from pension mutual funds were redefined according to the types of funds with the Regulation No. 28462 on the Private Pension System and put into effect as of 1 January 2013.

The total amount of the deductions to be made by the Company from the effective date of the contract to the termination date, within the scope of the entrance fee, management expense deduction and fund total expense deduction, cannot exceed the amount corresponding to a certain proportion of the amount in the State Contribution account within the scope of the contract on the termination date for the sixth year of the contract and thereafter. In this control, deductions made until the date of control over existing savings and their returns as of 1 January 2016 are not considered. The upper limit control for the deduction associated with the state contribution will be applied from 1 January 2022.

The "Law Amending the Private Pension Savings and Investment System Law", published in the Official Gazette dated 25 August 2016 and numbered 29812, entered into force on 1 January 2017. Accordingly, employees who meet the conditions stipulated in this law are automatically included in the private pension system.

Those who are Turkish citizens or who are within the scope of Article 28 of the Turkish Citizenship Law No,5901 of 29 May 2009 and have not completed the age of forty-five, the first paragraph of Article 4 of the Social Insurance and General Health Insurance Law No. Those who start to work in accordance with subparagraphs (c) are within the scope of this law and enter the pension system with a pension contract arranged by the employer in accordance with the provisions of this law.

iii) Reinsurance agreements:

Reinsurance agreements are the agreements the agreed by the Company and Reinsurance Company for the loss which may occur in one or more insurance agreement signed by the Company, and those meet all conditions to be classified as insurance contract and those whose costs are paid.

2.18 Taxes

Corporate Tax

With the Corporate Tax Law No. 5520, which was published in the Official Gazette dated 21 June 2006 and numbered 26205, it was determined as 20% for corporate profits, effective from 1 January 2006. Pursuant to Article 11 of the Law No. 7316 on the Collection Procedure of Public Receivables and the Law on Amendments to Certain Laws, published in the Official Gazette on 22 April 2021, and Temporary Article 13 added to the Corporate Tax Law, the Corporate Tax rate of 20% has been determined as 25% to be applied to corporate earnings for the 2021 taxation period, and 23% to be applied to corporate earnings for the 2022 taxation period. In addition, with the paragraph added to the temporary 13th article of the Corporate Tax Law No. 5520 with the 26th article of the Law on Amendment of the Law on Assessment of Immovable Properties Belonging to the Treasury and Value Added Tax No. 7394, which entered into force upon publication in the Official Gazette dated 15 April 2022 and numbered 31810, the Corporate Tax rate has been rearranged for certain companies, including insurance companies, and will be applied as 25% for corporate profits for the 2022 taxation period. With this change, a 25% rate will be valid for the taxation of corporate profits for periods starting from 1 January 2022, starting from the declarations that must be submitted as of 1 July 2022. With Law No. 7456 published in the Official Gazette dated 15 July 2023 and numbered 32249, the general corporate tax rate for certain companies, including insurance companies, was increased from 25% to 30%. The corporate tax rate increase has entered into force to be applied to the declarations to be submitted as of 1 October 2023 and to the profits earned in 2023 and subsequent tax periods.

The corporate tax rate is applied to the tax base to be found as a result of adding the expenses that are not accepted as a deduction in accordance with the tax laws to the commercial income of the corporations, deducting the exceptions (such as the participation earnings exception). If there is no dividend distribution, no further tax charges are made.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are considered. Appropriation of retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

Provisional taxes are calculated and paid at the corporate tax rate applicable to that year's earnings. Provisional taxes paid during the year can be offset against the corporate tax calculated on the annual corporate tax return of that year.

According to the Turkish tax legislation, financial losses shown on the declaration can be deducted from the period's corporate income provided unless they do not exceed 5 years. However, financial losses cannot be offset against previous years' profits.

In Türkiye, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns with their tax offices by the end of 25th of the fourth month following the close of the accounting period to which they relate. Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based and may issue re-assessments based on their findings.

The law on amending the Tax Procedure Law and the Corporate Tax Law was enacted on 20 January 2022, Law No. It has been enacted with the number 7532 and it has been decided that the financial statements will not be subject to inflation adjustment in the 2021 and 2022 accounting periods, including the temporary accounting periods, and in the provisional tax periods of the 2023 accounting period, regardless of whether the conditions for the inflation adjustment within the scope of the Repeated Article 298 are met. In line with the Law No. 7352, inflation adjustment will be applied to the financial statements dated 31 December 2025, and the profit/loss difference arising from the inflation adjustment will be shown in the previous years' profit/loss account and will not be taxed. With the "Law No. 7491 on Amendments to Certain Laws and Decree Laws" published in the Official Gazette No. 32413 dated 28 December 2023, including the provisional tax periods of certain companies, including insurance companies, it has been regulated that the profits or losses that will arise as a result of the inflation adjustments to be made in the 2024 and 2025 accounting periods will not be considered in determining the profit.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.18 Taxes (Continued)

Corporate Tax

According to the temporary article added to the Tax Procedure Law ("TPL") by the Omnibus Law No. 7571 published in the Official Gazette on December 24, 2025, it has been stipulated that even if the conditions are met, the PPI-based inflation adjustment will not be applied in the accounting periods of 2025, 2026, and 2027. Accordingly, inflation adjustment will not be applied to the TPL financial statements that will form the basis of the corporate tax returns for these periods. The company is evaluating the impact of these changes on its financial statements.

Deferred Tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax assets and liabilities are determined using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized (Note 21).

2.19 Employee Benefits

The Company accounts for its liability related to employment termination and vacation benefits according to "Turkish Accounting Standards Regarding Employee Benefits" ("TAS 19") and classifies in balance sheet under the account "Provision of Employment Termination Benefits".

According to the Turkish Labor Law, the Company is required to pay termination benefits to each employee whose jobs are terminated except for the reasons such as resignation, retirement and attitudes determined in Labor Law. The provision for employment termination benefits is calculated over present value of the possible liability in scope with the Labor Law by considering determined actuarial estimates.

The actuarial gains and losses identified in the calculations regarding the liabilities for employee benefits shall be recognized directly in equity. In this context, the service and interest costs are recognized in the statement of income whereas the actuarial gains and losses are recognized in "Other Profit Reserves" under shareholders' equity (Notes 15 and 22).

2.20 Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated. Provision amounts are estimated over expenditures expected to be required to settle the obligation at the balance sheet date by considering the risks and uncertainties related to the obligation. When the provision is measured by using the estimated cash outflows that are required to settle the obligation, the carrying value of the provision is equal to the present value of the related cash outflows.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognized as an asset if and only if it is virtually certain that reimbursement will be received and the reimbursement can be reliably estimated.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs. If an inflow of economic benefits has become probable, the Company discloses the contingent asset (Note 23).

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.21 Revenue Recognition

Written Premiums

Written premiums represent premiums on policies written during the year, net of cancellations. As disclosed in Note 2.24, premium income is recognized in the financial statements on accrual basis by allocating the unearned premium provision over written risk premiums. The premium written for life insurance policies with maturities over one year consists of income accrued for payments with maturities within the current year. The premium written for policies with maturities less than one year covers the total premium of the relevant period.

Reinsurance Commissions

Commissions received for premiums ceded to reinsurance companies are accrued in the current year and are included in the operating expenses in the technical section of the income statement. As explained in the Note 2.24, the reinsurance commission income is reflected in the financial statements on an accrual basis by separating the deferred commission income from the commissions received (Note 32).

Dividend Income

Dividend income is recognized as income in the financial statements when it is entitled to receive.

Fee Income

Explained in Notes 2.14 and 25.

2.22 Leases

Leases are accounted according to TFRS 16 as explained in Note 2.5.

2.23 Dividend Distribution

Dividend liabilities are recognized as a liability in the financial statements in the period in which the dividends are declared as a component of dividend distribution. (Note 15)

2.24 Technical Provisions

Mathematical Provisions

Companies operating in the life and non-life branches set aside adequate mathematical reserves in accordance with actuarial principles to meet their liabilities to policyholders and beneficiaries for life and personal accident insurance contracts longer than one year. In addition to life insurances for more than one-year, personal accident, health, disability due to illness and dangerous diseases coverage for more than one year are given; Life insurance mathematical reserve amount is calculated in a way to include the mathematical reserve amount calculated according to actuarial principles regarding additional guarantees. Mathematical provisions consist of actuarial mathematical reserves calculated separately for each contract in force according to the technical principles in the tariff and explained below.

TÜRKİYE HAYAT VE EMEKLİLİK A.Ş.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.24 Technical Provisions (Continued)

Mathematical Provisions (Continued)

Actuarial mathematical reserves are the difference between the premiums received for the risks undertaken by the companies and the cash value of liabilities to policyholders and beneficiaries. Actuarial mathematical reserves are separated according to the formulas and principles specified in the approved technical principles of the tariffs for life insurances with a term of more than one year. Actuarial mathematical reserves are calculated as the difference between the cash value of the insurer's future liabilities and the present value of the future premiums to be paid by the policyholder (prospective method). Profit share provision is set aside for the income obtained as a result of the conversion of these provisions into investments. However, the actuarial mathematical reserves total cannot be less than this total, if actuarial mathematical reserves are calculated as the difference between the result value of the premiums paid by the insurer and the resulting value of the risk undertaken by the insurer (retrospective method) or according to the generally accepted actuarial methods accepted by the Ministry of Treasury and Finance. In cases where the actuarial mathematical reserve is calculated as negative, this value is accepted as zero.

As of the effective date stated in the company tariffs, in addition to the participation value (actuarial mathematical reserve) on the date of participation in long-term life insurances related to the loan, the company has committed to calculate and refund the commission and expense share (or expense) falling on the participation value. In this context, the Company calculated the probability of participation with the best estimation method on the affiliates that were determined on a product basis and covering the last 5 years, and for the products determined within this scope, the additional mathematical reserves were allocated according to the results obtained by calculating the calculated probability for the current policies (Note 17).

Reserve for Unearned Premiums

Reserve for unearned premiums, effective insurance contracts premiums occur from gross amounts without any commission or other discount and based on daily premium calculations for the following period or periods. For the good's marine insurance contracts without a specific expire date, the premiums accrued from the last three months, 50% of the remaining amount is allocated as reserve for unearned premium. The reserve for unearned premiums during the day basis evaluation while following sections of the extended periods are being evaluated it is assumed that in general implementation, the policy starts at noon 12:00 and ends again at noon 12:00. Pursuant to the Regulation on Technical Reserves, the unearned premium reserves of the policies issued and the reinsurance share of this provision, the premiums accrued for the insurance contracts in force and the premiums transferred to the reinsurers grossly on a daily basis, without any commission or other deduction, for the next accounting period or calculated and reflected in the records as the portion overlapping the accounting periods. (Note 17).

Deferred Commission Expenses and Deferred Commission Incomes

Within the framework of the Circular numbered 2007/25 and dated 28 December 2007 published by the Republic of Türkiye Ministry of Treasury and Finance, the unearned portion of commissions paid to agencies for the written premiums and commissions received from reinsurers for the ceded premium, are recorded as in deferred expenses and deferred commission income, respectively on the balance sheet, and as operating expenses on a net basis in the income statement (Note 17).

TÜRKİYE HAYAT VE EMEKLİLİK A.Ş.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.24 Technical Provisions (Continued)

Provision for outstanding claims

The Company accounts for outstanding claim provision for ultimate cost of the claims incurred, but not paid in the current or previous periods or, for the estimated ultimate cost if the cost is not certain yet and for the incurred but not reported claims. Claim provisions are accounted for based on reports of experts or initial assessments of policyholders and experts, and in the calculations related to the claim provisions, claim recoveries, salvage and similar gains are not deducted.

As of 31 March 2026, for the non-life personal accident branch, with the outstanding claims reserve accrued and determined on account; The difference between the content and application principles, the Technical Reserves Regulation and the "Circular on Outstanding Claims Provision" dated 5 December 2014 and numbered 2014/16 and the actuarial chain ladder method determined in the relevant regulations was realized but not reported. accounted as compensation amount.

In accordance with the "Circular on Provision for Outstanding Claims" dated 5 December 2014 and numbered 2014/16, published by the Ministry of Treasury and Finance and entered into force on 1 January 2015, the Circular on the Actuarial Chain Ladder Method, numbered 2010/12, valid until 31 December 2014. "Has been repealed except for Articles 9 and 10, and it has been stipulated that the indemnity provision that has been realized but not reported since 1 January 2015, is calculated in line with the best estimates determined within the framework of the opinions of the Company actuary. According to the aforementioned circular, the selection of the data used in the calculations regarding the incurred but not reported compensation amounts, the correction procedures, the selection of the most appropriate method and development factors and the intervention to the development factors are made by the Company's actuarial methods. In the relevant circular, it was stated that the Standard Chain, Claim / Premium, Cape Cod, Frequency Intensity, Munich Chain or Bornhuetter-Ferguson actuarial chain ladder methods ("ACLM") will be used in the calculation of the realized but not reported claim provision and companies have been given the right to choose one of these methods for each branch.

In this context, the Company has chosen the Standard chain method over the incurred claims in the calculation of the incurred but not reported compensation provisions for the non-life personal accident and health branch as of 31 March 2026 and 31 December 2025. In the calculations, the improvement coefficients were not interfered with. And did not perform major claim elimination. The company actuary has examined the claims realizations for the personal accident branch and it has been observed that the past realizations are in line with the future claim expectations; In the ACML calculation, it was not deemed necessary to intervene in the development coefficients in the relevant period. In order to find the net realized but unreported compensation provision amounts over the gross ACML calculations; The share ratios of the collaterals in the effective portfolio in reinsurance have been used. Accordingly, as of 31 March 2026, the incurred but not reported claims provision for non-life branches, respectively, is TRY 660.009 gross (31 December 2025: TRY 928.799) and net TRY 426.056 (31 December 2025: TRY 606.921).

TÜRKİYE HAYAT VE EMEKLİLİK A.Ş.

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.24 Technical Provisions (Continued)

Provision for outstanding claims (Continued)

In the calculation of the incurred but not reported compensation amount made by the company for the life branch, a calculation was made only on the policies for which death guarantee was provided, and in the last 5 periods, the compensation amounts that occurred before the end of the said period but were reported after the end of the period, are calculated based on the life insurance coverage of the said periods. The ratio found by dividing the average death coverage given in the branch of the insurance branch has been considered. The company calculated the amount of indemnity incurred but not reported for the current fiscal period by multiplying the rate determined by considering the data of the last 5 periods and the collaterals given for the policies produced in the life branch in the period 1 January – 31 March 2026, and as of 31 March 2026, TRY 408.177.773 (31 December 2025: TRY 370.151.300) gross realized but not reported compensation provision was reflected in its records. Since the policies for which without death coverages are provided have a low weight in the portfolio, they are not included in the calculation. The incurred but not reported indemnity reinsurance share amount is calculated using the reinsurance rates in the outstanding claims subject to calculation and the net incurred but not reported indemnity amount is reached by deducting from the gross amount calculated. Accordingly, a net realized but not reported compensation provision for the life branch was recorded TRY 403.837.141 (31 December 2025: TRY 365.444.234). Pursuant to the Circular No. 2011/23, insurance companies calculate a winning rate over the amounts of the lawsuits filed against the company according to the realizations of the last five years according to the realizations of the last five years and according to the calculated win rate, deduction from the outstanding claims reserves accrued for the files in the litigation process. are possible. As of 31 March 2026, the company calculated the winning ratio over the amount of the lawsuits filed against the Company, and net TRY 125.154.870 (31 December 2025: TRY 120.617.626) (Note 17).

Equalization provision

According to “Regulation of technical provisions”, companies should book equalization provision for guarantees of loan and earthquakes in order to offset fluctuations in the rate of indemnification and to meet catastrophic risks in the accounting period. Pursuant to the sector announcement numbered 2009/9 "Regarding the Implementation of Legislation Regarding Technical Reserves", life and pension companies are obliged to set aside equalization provision as of 1 January 2009 for the insurance contracts for which they provide earthquake additional coverage in the life and accident branches that may occur due to the earthquake. In this context, the company has calculated an equalization reserve at the rate of 12% of this amount by accepting 12% of the death net premium, including the expense share, as earthquake premium. As of 31 March 2026, the Company has made provision TRY 974.457.521 equalization provision. (31 December 2025: TRY 883.456.648) (Note 17).

Provision for Bonus and Discount

The Company has made a provision for bonus and discount of TRY 161.176.011 as of 31 March 2026 (31 December 2025: TRY 109.975.415)

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

3. SIGNIFICANT ACCOUNTING ESTIMATES AND REQUIREMENTS

Preparation of financial statements requires the use of assumptions and estimates that might affect the amounts of assets and liabilities reported as of balance sheet date, explanation of the conditional assets and liabilities and amounts of the income and expenses reported throughout the accounting period. Accounting evaluations, estimates and assumptions are evaluated taking into consideration past experience, other factors, current conditions and reasonable expectations for future events. Such evaluations and estimates might differ from actual consequences, even though they are based on the best knowledge of the management about current events and transactions.

One of the most important accounting estimates for the Company is to estimate the final net liabilities relating to the expenses to arise from the effective policies. As per its nature, estimating liabilities regarding the insurance business includes the evaluation of many uncertainties.

4. MANAGEMENT OF INSURANCE AND FINANCIAL RISK

Insurance risk

The risk under any insurance contract is the possibility that the insured event occurs and the uncertainty of the amount of the resulting claim. By the very nature of the insurance contracts, this risk is random and therefore unpredictable.

For a portfolio of insurance contracts where the theory of probability is applied to pricing and reserving, the principal risk that the Company faces under its insurance contracts is that the actual claims and benefit payments exceed the carrying amount of insurance liabilities. The Company determines its insurance underwriting strategy based on the type of insurance risk accepted and the claims incurred.

Pricing of the company is made by looking at statistical analysis, past data and mortality tables appropriate to the relevant product. The company manages these risks with the policy writing strategy it has shaped and the reinsurance agreements it is a party to.

The following factors are considered in the risk acceptance policy in Life and Personal Accident branches:

- In individual insurances, health claims and reports considering the age of the insured and the insurance amount,
- Health claims and reports according to the number of people in the group in group insurances and whether the insurance is mandatory or voluntary,
- In pricing, information on the application of premium, additional conditions or deduction or rejection of the coverage, depending on the health status of the insured,
- In high-value guarantees, along with the health documents, documents related to the financial situation of the insured.

The concentration of insurance risk (maximum insured loss) under each branch is summarized below:

	31 March 2026	31 December 2025
Life	3.901.415.994.637	3.263.721.205.930
Non-Life	4.340.282.852	2.162.710.473
Total	3.905.756.277.489	3.265.883.916.403

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

4. MANAGEMENT OF INSURANCE AND FINANCIAL RISK (Continued)

The Company is subject to the following risks in relation to the pricing of policies:

Mortality risk:

The Company is subject to mortality risk if the actual death claims are higher than expected death rates in the mortality tables used for pricing of the policies. The Company uses the appropriate mortality table for each product. Furthermore, necessary changes are made to the tariffs according to product-based loss ratios. The Company uses the CSO 53-58, CSO 80 or CSO 2001 mortality tables while pricing the life insurance agreements.

Technical interest rate risk:

In saving life products, the policyholders are guaranteed an income that is equal to “technical interest rate” at a minimum. The Company is subject to the technical interest rate risk if the market interest rate is lower than the guaranteed interest rate. The Company’s current saving life portfolio is continuously reviewed by considering the possible technical interest rate risk to which may arise in the following years.

The company's current financial assets, yield rates and related mathematical provisions are as follows:

4. MANAGEMENT OF INSURANCE AND FINANCIAL RISK (Continued)

Sensitivity analysis

Financial risk

The Company is exposed to financial risks due to its financial assets, reinsurance assets and insurance liabilities. In summary, the main financial risk is that the revenues from financial assets are insufficient to meet the liabilities arising from insurance contracts. The most important components of financial risk are market risk (including currency risk, market value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The general risk management program of the Company focuses on the volatility of the financial markets and the minimization of its possible adverse effects on the financial performance of the Company. The Company does not use any derivative financial instruments. Risk management is carried out by the Company management in line with the procedures approved by the Board of Directors.

(a) Market Risk

i. Cash flow and market value interest rate risk

The Company is exposed to the interest rate risk arising from the effect of changes in interest rates to which variable interest rate financial assets and liabilities are subject to. The Company's variable and fixed interest financial assets are shown below.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

4. MANAGEMENT OF INSURANCE AND FINANCIAL RISK (Continued)

Sensitivity analysis (Continued)

Financial risk (Continued)

(a) Market Risk (Continued)

ii. Currency Risk

The company is exposed to foreign exchange risk arising from exchange rate changes due to the conversion of foreign currency receivables and debts to Turkish Lira. These risks are monitored and limited by analyzing the foreign currency position.

As of 31 March 2026, if the EUR gained / lost 20% value against TRY and all other variables remained constant, the profit before tax as a result of the exchange difference profit / loss due to the conversion of assets and liabilities in EUR is TRY 10.452.826 (31 December 2025: TRY 15.757.974) would have been higher / lower.

As of 31 March 2026, if the USD gained / lost 20% value against TRY and all other variables remained constant, the profit before tax as a result of the foreign exchange loss / profit due to the conversion of assets and liabilities in USD is TRY 318.483.060 (31 December 2025: TRY 414.701.080) would be lower / higher.

iii. Price Risk

The financial assets of the Company expose the Company to price risk. As of 31 March 2026, the Company has financial assets held at market value. If the market prices had increased / decreased by 5% and all other variables remained constant, the financial assets account would have been TRY 1.995.705.567 (31 December 2025: TRY 1.905.841.530).

(b) Credit (Receivable) risk

Ownership of financial assets involves the risk that counterparties may be unable to meet the terms of their agreements. The Company's exposure to credit risk arises mainly from cash and cash equivalents and bank deposits, financial assets, reinsurers' share of insurance liabilities, due from reinsurers and premium receivables from policyholders and intermediaries. The Company management deems these risks as total credit risk to the counterparty.

The Company follows and monitors the credit risk of financial assets classified as loans and receivables and receivables from insurance operations (including reinsurance receivables) by guarantees received and procedures applied for the selection of the counterparties. Other explanations in relation to these receivables are disclosed in Note 12.

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

4. MANAGEMENT OF INSURANCE AND FINANCIAL RISK (Continued)

Sensitivity analysis (Continued)

Financial risk (Continued)

(b) Credit (Receivable) risk (Continued)

The Company's loans and receivables outside the group, and loans of financial assets subject to risks largely government securities and private sector bonds and bills and rent certificates and held in banks and other financial institutions in Türkiye consist of term and demand deposits. Government debt securities and bank deposits are not considered to have high credit risk. The private sector bonds held by the company consist of debt securities issued by banks and financial institutions subject to legal regulations and debt securities of holding and similar companies that are deemed to have no high risk.

(c) Liquidity risk

The Company uses its available cash resources to pay claims arising from insurance contracts. Liquidity risk is the risk that cash may not be available to pay obligations when due at a reasonable cost. Management sets limits on the minimum portion of funds available to meet such liabilities.

The table below shows the distribution of the Company's financial and insurance liabilities according to the remaining terms arising from the contract or expected from the contract as of the balance sheet date:

	Contractual cash flows				Total
	Up to 3 months	3-12 months	1-5 years	5 years and above

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

4. MANAGEMENT OF INSURANCE AND FINANCIAL RISK (Continued)

Fair value of the financial assets

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists.

Estimated market values of financial instruments are determined using available market data and, if possible, using appropriate valuation methods.

Financial assets available for sale and financial assets held for trading are presented over their fair values by using the prices on the stock exchanges. The cost of the financial assets that are not quoted in an active market, less impairment if any, are considered to approximate carrying value.

The fair values of balances denominated in foreign currencies, which are translated at period end exchange rates, are considered to approximate carrying values. The fair values of cash and cash equivalents are considered to approximate their respective carrying values due to their short-term nature. The carrying value of receivables from main operations along with related provision for overdue receivables is considered to approximate respective fair values.

Company management estimates that the fair values of other financial assets and liabilities are not significantly different from their book values due to their short-term nature.

Classification for fair value measurement

IFRS 7, “Financial Instruments: Disclosures”, requires that financial instruments measured at fair value in the financial statements be classified according to a hierarchy that reflects the significance of the inputs used in determining their fair values. This classification is primarily based on whether the inputs are observable or unobservable. Observable inputs refer to the use of market data obtained from independent sources, while unobservable inputs refer to the Company’s own market assumptions and estimates. Such a distinction generally results in the following classifications.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices);

Level 3: Inputs for the asset or liability that is not based on observable market data (unobservable inputs).

Capital management

The Company's objectives when managing the capital are:

- Fulfilling the capital adequacy requirements required in the relevant legislation,
- to safeguard the Company's ability to continue as a going concern so that it can continue the operations.

The minimum required shareholders' equity amount calculated as of 31 March 2026 within the framework of the related regulations on capital adequacy is TRY 8.915.201.524. (31 December 2025: TRY 8.923.919.032) The Company's equity capital is TRY 28.681.050.721 more than the minimum required equity. (31 December 2025: TRY 23.878.094.229)

There is no mortgage on real estates for use (31 December 2025: None).

As of 31 March 2026 and 31 December 2025, the land and buildings classified as real estate for use are reflected in the financial statements based on their fair values amounting to TRY 71.204.400 determined in the framework of the valuation reports prepared by an independent professional valuation company.

The revaluation increases resulting from the valuation of lands and buildings are recorded, free of deferred tax, by crediting the "Other Capital Reserves" account under equity. Revaluation decreases resulting from the valuation of lands and buildings are deducted from the "Other Capital Reserves" account of the relevant asset in the equity group. The revaluation decreases of the assets that do not have a balance in the "Other Capital Reserves" within the equity group are associated with the income statement. The movement of revaluation increases related to lands and buildings accounted for by revaluation method within the period is shown in Note 15.

15. SHAREHOLDERS' EQUITY

Paid-in capital

As of 31 March 2026, the Company's registered capital is TRY 5.000.000.000 (31 December 2025: TRY 5.000.000.000), and the Company's capital consists of 5.000.000.000 shares issued, each with a nominal value of TRY 1. There are no privileges given to stocks representing the capital. The Company does not have its own stock held by the company or its affiliate. Information on financiers is explained in Note 2.13.

With regard to increasing its paid-in capital, the company, by a decision of the Board of Directors dated March 13, 2026, submitted to the General Assembly for approval the proposal to increase the paid-in capital from TRY 5.000.000.000 to TRY 10.000.000 by 100%, entirely from internal resources, and to amend the articles of association accordingly. This capital increase proposal was approved at the General Assembly meeting held on April 9, 2026.

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

15. SHAREHOLDERS' EQUITY (Continued)

Legal Reserves:

Retained earnings as per the statutory financial statements are available for distribution other than legal reserve requirements as referred below. The legal reserves consist of first and second reserves as per the Turkish Commercial Code. The Turkish Commercial Code stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Company's paid-in share capital. The second legal reserve is appropriated at the rate of 10% per annum of all cash distributions in excess of 5% of the paid-in share capital. Under the Turkish Commercial Code, the legal reserves can only be used to offset losses unless they exceed 50% of paid-in share capital and are not available for any other usage. Movements of legal reserves during the period are presented below:

	2026	2025
Opening balance - 1 January	1.217.281.655	971.060.417
Transfer from prior years' net profit	-	-
End of the period – 31 March	1.217.281.655	971.060.417

Valuation of Financial Assets:

The unrealized gains and losses that result from the changes in the fair values of available-for-sale financial assets and related securities are directly recognized in the balance sheet as "Valuation of Financial Assets". The movement of the valuation of financial assets is as follows:

	2026	2025
Opening balance - 1 January	317.423.513	(192.773.059)
Financial asset valuation (decrease)/increase after tax	(618.175.886)	(33.026.878)
End of the period – 31 March	(300.752.373)	(225.799.937)

Other Capital Reserves:

	2026	2025
Opening balance - 1 January	152.699.784	102.573.142
Tangible fixed asset revaluation fund	-	14.643.094
End of the period – 31 March	152.699.784	117.216.236

The Company accounts for its real estates for use (land and buildings) by revaluation method within the framework of "TAS 16 - Tangible Fixed Assets". Increases in the carried values of lands and buildings as a result of revaluation are accounted for in the "Other capital reserves" account, net of tax effects. Revaluation increases related to real estates for use, which are accounted for with a revaluation model within the framework of the current legislation, cannot be used in capital increase.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025
(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

21. DEFERRED INCOME TAX

The Company calculates deferred income tax for the temporary differences in the balance sheet items arising due to measurement in the financial statements and measurement in accordance with Tax Law. The enacted tax rate used for the calculation of deferred income tax assets and liabilities on temporary differences that are expected to be realized in the following periods under the liability method.

As of 31 December 2026, and 31 December 2025, the details of the temporary differences, deferred income tax assets and liabilities calculated using enacted tax rates are as follows:

The movement of deferred tax assets during the period is as follows:

Deferred tax assets	Temporary Differences		Deferred tax Assets/(Liabilities)	
	31 March 2026	31 December 2025	31 March 2026	31 December 2025
Equalization reserve (Note 17)	974.457.521	883.456.648	292.337.257	265.036.995
Employment termination benefits (Note 22)	212.754.440	202.002.324	63.826.332	60.600.697
Agency commission reserve	2.216.086.896	2.847.092.881	664.826.069	854.127.864
Investment property and property held for use	(1.106.874.701)	(1.106.874.701)	(249.046.807)	(249.046.807)
Other	494.669.198	743.392.286	148.400.759	223.017.686
Net deferred tax assets (Note 35)	2.791.093.354	3.569.069.438	920.343.610	1.153.736.435
			2026	2025
Opening balance - 1 January			1.153.736.435	628.629.222
Deferred tax expense (-) (Note 35)			(500.029.448)	(301.582.545)
Other deferred tax recognized under equity			266.636.623	28.797.470
End of the period – 31 March			920.343.610	355.844.147

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax assets and liabilities are determined using tax rates and tax legislation that has been enacted at the balance sheet date and is expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are reflected in the records provided that it is highly likely to benefit from temporary differences by obtaining taxable profit in the future.

22. RETIREMENT BENEFIT OBLIGATIONS

	31 March 2026	31 December 2025
Provision for employment termination benefits	212.754.440	202.002.324
	212.754.440	202.002.324

TÜRKİYE HAYAT VE EMEKLİLİK A.Ş.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 1 JANUARY - 31 MARCH 2026 AND 2025

(Amounts expressed in Turkish Lira (TRY) unless otherwise indicated.)

22. RETIREMENT BENEFIT OBLIGATIONS (Continued)

According to the Turkish Labor Law, the Company is obliged to pay severance pay for its personnel who have completed one year and are dismissed from the Company for reasons other than resignation or bad behavior or who have completed their service year and retired, recruited or died. The compensation to be paid is equal to the monthly salary for each service year and this amount is limited to TRY 64.948,77 (31 December 2025: TRY 64.948,77) determined by the government as of 31 March 2026.

Liability of provision employee termination benefits is not funded, as there is no funding requirement.

The provision for severance pay is calculated by estimating the value at the balance sheet date of the probable obligation to be paid in case of retirement of the employees.

TAS 19 requires actuarial valuation methods to be developed to estimate the enterprise's obligation. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

	31 March 2026	31 December 2025
Discount rate (%)	3,32	3,32
Probability of retirement (%)	95,00	95,00
	2026	2025
Opening balance - 1 January	202.002.324	96.106.703
Current service cost	5.418.492	23.819.207
Interest cost	1.308.580	16.463.647
Paid during the period	(1.655.290)	(14.518.925)
Actuarial loss (*)	5.680.334	43.075.566
End of the period – 31 March	212.754.440	164.946.198

The principal assumption is that the maximum liability will increase in line with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. The severance pay provision of the company is calculated on the basis of TRY 64.948,77 (1 January 2025: TRY 64.948,77), which is valid as of 1 January 2026, since the severance pay ceiling is adjusted every year.
