

2016

FINANCIAL STATEMENT

In 2016 MAGNA program costs were **1 534 069 € (95,4 %)**. Costs for fundraising general management and administration reached **73 128 € (4,6 %)**. At the time of its foundation, MAGNA made the commitment to spend at least 80 % of its funding on projects and only 20 % on fundraising and management of the organization.

FINANCIAL STATEMENTS

MAGNA is pleased to present its audited Financial Statement, which provide a view of MAGNA's work and is a mean of transparency and accountability.

RATIOS

OPERATIONAL RATIOS (%)

	2016	2015
Operations	94,7	93,6
Awareness-raising	0,8	1,0
Social mission	95,4	94,6
Fundraising	3,1	4,4
Management and general administration	1,0	1,0
Other expenses	4,1	5,4
Expenditure	100,00	100,00

FINANCIAL INDEPENDENCE (%)

	2016	2015
Private income	38,4	62,6
Public institutions income	47,4	31,5
Other income	1,8	4,4
Grants from within the MAGNA network	12,0	1,0
Income	100,00	100,00

INCOME (in €)

2016 saw a increase in income for MAGNA compared with 2015. Total incoming resources of **1 865 604 €** for 2016 were **591 980 €** more than in 2015. More than 76 000 individual donations and private institutions provided 38.4 % of MAGNA's income in 2016.

	2016	2015
Private income	716 796	796 756
Public institutional income	883 481	401 820
Grants from within the MAGNA network	232 202	18 779
Other income	33 125	56 269
Total Income	1 865 604	1 273 624

IN-KIND DONATIONS AND SERVICES

Occasionally, MAGNA receives donations in kind, primarily in the form of the free use of goods or services (drugs and medical equipments in the field, and consultancies and travel miles in headquarters). These contributions in kind are not stated in the operating account, but an estimation of the value of these goods is presented below. The contributions are valued on the basis of the donation certificate or the contract entered into with the donor. The act of volunteering to work in MAGNA humanitarian projects is not recorded in the accounts. This contribution represents one of the bases of the MAGNA Charter and principles.

The total value of the goods and services received in 2016 is estimated as:

	2016
Headquarter	102 858
Field Programme expenses	195 220
Total In-kind donations and services	298 078

EXPENDITURE (in €)

Total expenditure in 2016 was **1 607 197 €** an increase of **315 391 €** over 2015.

This expenditure can be broken down into two main categories: social mission and other expenses. The table below breaks down these categories still further.

	2016	2015
Program	1 410 657	1 115 611
Headquarters program support	110 906	70 678
Awareness raising	12 506	31 345
Total social mission	1 534 069	1 217 634
Fundraising	49 367	55 965
Management and general administration	23 761	18 207
Total other expenses	73 128	74 172
Total	1 607 197	1 291 806

The result of the above is that, in 2016, **95,4 %** of MAGNA's total expenditure was spent on social mission and **4,6 %** on other expenses (2015: **94 %** and **6 %** respectively).

Explanation Statement of Income and Expenditure in 2016

INCOME (in €)

Private Income (In €)

Income from individuals includes:

	2016
Individual donations	437 380
Income from individuals	437 380

Income from private institutions comes from the following sources:

	2016
Companies	11 990
Trusts and foundations	267 069
2 percents from the tax	357
Other private institutions	0
Income from private institutions	279 416

As part of our effort to guarantee independence, we have striven to maintain an efficient level of private income. Funds coming from private sources represented 38.4 % of MAGNA total income in 2016. More than 76 000 individual contributors made this possible.

Income breakdown from individual, private companies and trusts and foundations (In €):

	2016
Donations in general	183 638
Donations through SMS donation	189 402
Donations from public appeals	64 340
Income from individuals	437 380

	2016
Trust and Foundations	
Orange Foundation Slovakia	2 105
Markiza Foundation Slovakia	5 000
Open Society Fund Slovakia	105 347
Člověk v tísni	65 020
Mercury	89 597
Income from Trust and Foundations	267 069

Public Institutional Income (in €)

The table below presents the breakdown of donations and grants awarded by public institutional bodies:

	2016
European Commission	17 137
ECHO and EU institutions	17 137
Swiss Embassy DR Congo	18 149
SlovakAid	218 196
EU governments	236 345
UNICEF in South Sudan	77 322
UNICEF in DRC	552 677
UN institutions	629 999
Public institutional income (see also note restricted funds)	883 481

Grants From Within Magna Network (in €)

The table below presents the breakdown of grants from within MAGNA network bodies:

	2016
MAGNA Czech Republic: projects in Syria	232 202
Grants from within the MAGNA network	232 202

Other Income (in €)

	2016	2015
Interest/investment income	214	88

N. Depreciation	0	0		0

Personnel expenses – Expenditure comprises all costs related to locally hired and international staff (including plane tickets, insurance, accommodation, etc).

Travel and accommodation – related to non field operation is in category Travel and accommodation. Travel and Accommodation Expenditures comprises all costs to travel and accommodation related to no field operation.

Medical & Nutrition – The medical and nutrition category includes drugs and medical equipment, vaccines, hospitalisation fees, therapeutic food, training and education of health staff, building materials and equipment for health centres, hygiene, relief items and medical facilities rental and charges. The delivery of these supplies and services is included in the category of logistics.

Logistics – Delivery of medical and nutrition supplies and services, construction services, building materials and related logistical supplies.

Professional services – Expenditures related to medical (medical survey, consultant & specialist costs) and non-medical services (tax advice, accounting, audit, IT, public relation, advertising etc).

Publicity and communication – Expenditures related to publicity, public and private donors communication, raising funds etc

Office and general costs – Expenditure comprises all costs related to MAGNA offices and administration (including offices rentals and charges, office supplies, postal costs), bank fees).

Social mission – Social mission includes all costs related to operations in the field as well as all the medical and operational support from the headquarters directly allocated to the field and awareness-raising activities.

Other expenses – Other expenses comprises costs associated with raising funds from all possible sources, the expenditures incurred in the management and administration of the organisation, as well as income tax paid on commercial activities.

Programme – Programme expenses represent expenses incurred in the field or by headquarters on behalf of the field.

Programme support – Programme support relates to expenses incurred at headquarters in order to carry out MAGNA humanitarian operations (e.g. project design, monitoring and evaluation, recruitment of international staff, activities designed to improve the quality and effectiveness of MAGNA operations).

Awareness raising – Awareness-raising activities comprise expenses incurred by MAGNA in an educational manner to further its social mission. They represent the situations where MAGNA bears witness and speaks out about the plight of the populations it serves through communicating publicly in order to inform, put pressure on responsible actors, and stimulate action.

Fundraising & Communication – Fundraising expenses represent the costs incurred for raising funds from all possible sources of income, be they private or public institutional.

Management and general administration consists primarily of expenses associated with executive management, headquarters finance and human resources management, internal communication and the associative life of the organisation.

Legal reason for the preparation of the Financial Statements

The Financial Statements are ordinary individual financial statements for the civic association Magna. They have been prepared for the accounting period from 1 January to 31 December 2016, according to the Slovak laws, namely the Act on accounting and accounting procedures for accounting entities that are not established for purpose of business.

Approval of the Financial Statements for 2015

The Financial Statements of the civic association Magna for 2015 were approved by the Board of Directors on 31 December 2016.

Members of the company's bodies

Body	Function	Name
Board of Directors	President and managing director	Martin Bandžák
	Vice-president and director for development and humanitarian projects	Denisa Augustinová
	Member of the Board of Directors	Andrea Lafosse
Supervisory Board	Member of the Supervisory Board Member of the Supervisory Board Member of the Supervisory Board	Jozef Barta Juraj Vaculik MUDr. Júlia Horáková PhD.

Accounting Principles And Methods Applied

1. MAGNA applies accounting principles and methods pursuant to the Act on accounting and accounting procedures for accounting entities that are not established for purpose of business and that are valid in the Slovak Republic. The book-keeping is performed in the monetary units of the Slovak currency, i. e. in euros.
2. The Financial Statements for 2016 were prepared using the going concern assumption that the company will continue in its activity for the foreseeable future.
3. Income and expenses are presented in accordance with the matching principle in terms of substance and time. All expenses and income related to the accounting period, regardless of their payment date, are taken for basis.
4. Assets and liabilities are valued according to the principle of prudence, i. e. all risks, losses and impairments related to the assets and liabilities and known as of the day of preparation of the Financial Statements are taken for basis.
5. Moment of recording revenues – revenues are recorded at the moment of receipt of financial means from gifts, grants and subsidies, as these allowances are considered as non-refundable and the period for using these financial means is not defined.
6. Non-current and current receivables, liabilities, loans and borrowings – receivables and liabilities are presented in the Balance Sheet as non-current or current depending on their residual maturity as of the date of preparation of the Financial Statements. The part of a non-current receivable and the part of a non-current liability of which term of maturity is not more than one year from the date of preparation of the Financial Statements are presented as a current receivable or a current liability in the Balance Sheet.
7. Use of estimates – preparation of the Financial Statements requires that the company management makes estimates and forecasts that affect the reported amounts of assets and liabilities, specification of possible future assets and liabilities as of date of preparation of the Financial Statements, as well as the reported amount of income and expenses over the course of the year.

Method Of Measurement Of Individual Items Of Assets And Liabilities - Initial Measurement

A principle of acquisition cost (i. e. historical cost) is applied during assets acquisition. Individual items of assets and liabilities are valued as follows:

- a) Non-current intangible and tangible assets acquired by purchase – at the acquisition cost. Acquisition cost is the price at which assets have been acquired plus costs related to their acquisition (transport and customs duty).
- b) Inventory acquired by purchase:
Purchased material – at the acquisition cost. In case of decrease of the same kind of inventory, the method FIFO is applied.
- c) Receivables: at the time of their creation or free acquisition – at the nominal value,
in case of acquisition (assignment) for valuable consideration or acquisition via a contribution to share capital – at the acquisition cost.
- d) Accrual on the asset side of the Balance Sheet – at expected nominal value.
- e) Liabilities: at the time of their creation – at the nominal value, at the time of assumption – at the acquisition cost.
- f) Provisions – at the expected amount of the liability or by actuarial methods.
- g) Income tax due – according to the Slovak Income Tax Act income taxes due are determined from accounting profit at a rate of 22 % after adjustments by certain items for tax purposes.
- h) Accruals/deferrals on liabilities and equity side of the Balance Sheet – at expected nominal value.

Method Of Measurement Of Individual Items Of Assets And Liabilities – Subsequent Measurement

A) Expected risks, losses and impairments related to the assets and liabilities are expressed by provisions, value adjustments and amortization.

Amortization plan

Amortization of non-current tangible assets is performed according to the amortization plan that was set with a view to the estimation of real economic lives. Amortization of the assets is performed during expected period of use corresponding to the consumption of future economic benefits from the assets. Accounting amortization is equal. Amortization commences in the month following the month the asset was put into use.

Average lives according to the amortization plan are as follows:

Assets type	Life	Annual rate of amortization
Machinery and equipment	4 years	25,0 %
Machinery and equipment (low-value assets)	3 years	33,3 %

Tax amortization is applied according to the rates laid down in the Income Tax Act for straight-line amortization.

Translation of foreign currencies to the Slovak currency

Assets and liabilities denominated in the foreign currency are translated to euro by the reference exchange rate determined and declared by the European Central Bank (ECB) or National Bank of Slovakia as of the date preceding the date of accounting transaction and as of the date of preparation of the Financial Statements. Advance payments made and advance payments received in the foreign currency are not translated as of the date of preparation of the Financial Statements. The exchange rate used for the purchase or sale of foreign currency for the currency Euro and for the transfer of financial means from the account in the foreign account on the account in euros and from the account in euros on the account in the foreign currency was the exchange rate for which these values were purchased or sold. If the foreign currency is sold or purchased for other exchange rate than exchange rate that a commercial bank offers in its exchange rate list, the exchange rate will be used that the commercial bank offers in its exchange rate list on the day of transaction. If the purchase or sale is not realized at a commercial bank, the reference exchange rate determined and declared by the ECB on the day preceding the day of transaction.

Other principles and methods

Retained earnings and equity

Retained earnings are cumulative profits and losses from current and previous years. They include:

- decommitted funds that are unused donation financial means without determination of use that can be drawn under consideration of administrators of Magna in order to realize social mission of Magna.
- other retained earnings and shares that are the capital of the foundation and exchange rate adjustment resulting from translation of Financial Statements of subjects to euros. Unexpended committed funds/limited financial means are not included into retained earnings from previous years, but they are considered as deferred income.

Income

Income of Magna includes public voluntary contributions and contributions of public institutions as well as income from other activities. Private income consists in gifts from persons and private organizations (companies, funds and foundations and other non-profit organizations). Public institutional income includes grants (i. e. contributions on the basis of contracts for particular projects), subsidies and gifts received directly or with guarantee of public institutions such as governments or agencies. Income from other activities comes, especially, from business or financial transactions.

Income commitment

Income is considered as committed only in the case of commitment determined by donator. All third parties are considered as donators that contribute to the resources of Magna. Commitment determined by donator is determination and limitation of using paid assets or financial gifts. Commitment may relate to purpose (country, programme or activity), time or other specific wishes (e. g. medicines). The means received as „emergency“ are considered as committed, if the case of need is expressly determined by donator or may be deduced from circumstances, in other cases such means are considered as non-committed. Gifts with commitment determined by donator are reported as committed in their total amount. Unused committed gifts are transferred into next periods as deferred income. Grants are reported as committed income up to the amount of eligible expenses incurred in current year.

Gifts – Gifts are based on non-reciprocal transfer of finances or other assets or reversion of liabilities. They are considered as income at the moment of their receipt.

Grants – Grants are accounted as income up to the amount of eligible expenses incurred in the current year. At the end of the year, the difference between received cash and the amount of expenses incurred is reported as receivables from gifts or deferred income.

Non-monetary inputs

Non-monetary inputs are not recorded in the income statement. Act of voluntary work in the humanitarian projects of MAGNA is not recorded in the books. This contribution is one of basic statutes and principles of MAGNA.

Expenses

Costs are allocated under method of total costs. The principle of the method of total costs consists in the fact that direct costs that are directly connected with category (direct eligible costs) as well as a proportion of indirect costs (overhead costs) are included within a single category of costs. Therefore, all categories of costs include salaries, direct costs and a part of overhead costs (e. g. wage costs, administration costs).

Financial Risk Management

Interest risk – MAGNA has no long-term loans.

Credit risk – MAGNA prefers safety of cash and cash equivalents. Receivables are mostly from cooperating subjects and individuals where the credit risk is low. Other cases are not of material nature or are covered by provisions. Investments are allowed only into liquid securities and only at subjects with a high credit rating. At the end of the year, no significant concentration of credit risk occurred.

Liquidity risk

With regard to the nature of financing MAGNA, along with its policy of provisions, the liquidity risk is negligible.

The accounting entity has no data for this item.

Overview of intangible cultural monuments that are under administration or ownership of the accounting entity.

The accounting entity has no data for this item.

1.5. Information on significant facts that occurred between the day as of which the Financial Statements are prepared, and the day of their preparation.

No exceptional events occurred in the civic association after the day as of which the Financial Statements are prepared, and that could have impact on a true and fair presentation of facts subject to book-keeping. The civic association has no other liabilities and financial obligations that are not followed in a current book-keeping and are not presented in the Balance Sheet.

INDEPENDENT AUDITOR'S REPORT

To the General Assembly, Board of Directors, Supervisory Board and Statutory authority

of the unincorporated association **MAGNA, o.z.**

Štefánikova 19, 811 05 Bratislava

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of , **the unincorporated association MAGNA, o.z. Bratislava** (the unincorporated association) which comprises the balance sheet as at 31 December 2016, the income statement and notes including a summary of significant accounting policies.

In our opinion, the accompanying financial statements presents fairly, in all material respects, the financial position of the Company as of 31 December 2016 and of its financial performance for the year then ended in accordance with Slovak Accounting Law.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the unincorporated association in accordance with Law no. 423/2015 on Statutory Audit (the "Act on statutory audits") on ethics, including an Ethical Code Auditor, relevant to our audit of the financial statements and we have fulfilled our other ethical responsibilities. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Slovak Accounting Law and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the unincorporated association's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the unincorporated association or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the unincorporated association's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the the unincorporated association's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the unincorporated association to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Report on Other Legal and Regulatory Requirements

Report on the information referred to in the Annual Report

Management is responsible for the information contained in the annual report prepared in accordance with the requirements of the Accounting Law.

Our opinion on the financial statements referred to above does not apply to other information in the annual report.

The audit of the financial statements it is our responsibility to become familiar with the information given in the annual report and consider whether the information is not substantively consistent with the audited financial statements and our knowledge we have gained during the audit of the financial statements, or otherwise appear to be significantly wrong.

We consider that the unincorporated association's annual report contains information that requires putting the Accounting Act. Based on the work performed during the audit of financial statements, in our opinion:

- The information given in the annual report prepared for the year 2016 are consistent with the financial statements for the year
- Annual report contains information according to the Accounting Law.

In addition, based on our knowledge of the entity and its situation, we have gained during the audit of the financial statements, we are required to state whether we have found material misstatement in the annual report, we received prior to the date of issue of the auditor's report. In this context, there are not findings which we should mention.
