EaP — 10 YEARS Eastern Partnership

About the program

The Visegrad 4 Eastern Partnership (V4EaP) program was initiated in 2011 by the governments of the Visegrad Group countries to enhance the cooperation between the Visegrad region and the countries of the Eastern Partnership (EaP) and to facilitate the unique know-how of the Visegrad countries with challenges of democratic transition and with establishing sustainable regional cooperation.

Since the inception of the V4EaP program, the Visegrad Fund has supported projects and academic scholarships for graduate students from EaP region in total worth exceeding €16.2 million. The program has also received funding from external donors, namely from the governments of Canada, Germany, the Netherlands, South Korea, Sweden, Switzerland and the USA.
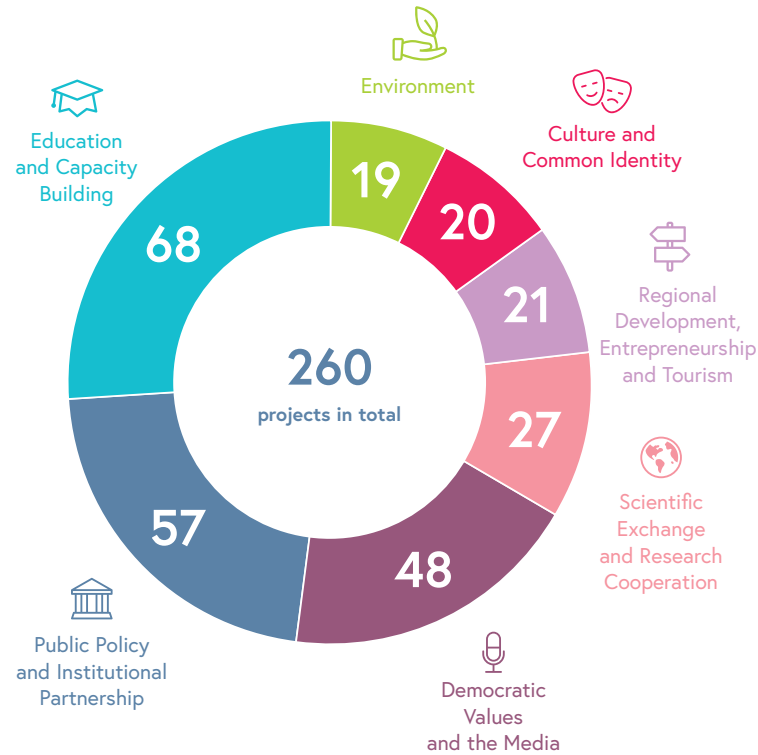

The V4EaP project and academic mobility grants contribute to the development of cooperation, exchange of knowledge and good practice among NGOs, public institutions and nonprofit organizations as well as educational and research institutions in Eastern Partnership countries.

"We are strongly determined to continue our commitment to the Eastern Partnership as a strategic dimension of the European Neighborhood Policy and a key and active factor of stability and economic progress in Eastern Europe. The International Visegrad Fund, through its Visegrad 4 Eastern Partnership program, will remain to offer project-based assistance facilitating the efforts of transformation, modernization, economic development, social progress and supporting civil society in all countries of the Eastern Partnership."
